TUESDAY, FEBRUARY 8TH, 1955

PROCLAMATION

LOUIS O. BREITHAUPT

CANADA

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories QUEEN, Head of the Commonwealth, Defender of the Faith.

To Our Faithful the Members elected to serve in the Legislative Assembly of Our Province of Ontario and to every of you—GREETING:

PROCLAMATION

DANA PORTER, *Attorney-General.* { **W**HEREAS it is expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Ontario, WE DO WILL that you and each of you and all others in this behalf interested, on Tuesday, the eighth day of February

now next, at Our City of Toronto, personally be and appear for the actual Despatch of Business, to treat, act, do and conclude upon those things which, in Our Legislature for the Province of Ontario, by the Common Council of Our said Province, may by the favour of God be ordained.

HEREIN FAIL NOT.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the GREAT SEAL of Our Province of Ontario to be hereunto affixed.

WITNESS:

THE HONOURABLE LOUIS ORVILLE BREITHAUPT, Doctor of Laws,  
Lieutenant-Governor of Our Province of Ontario,

at Our City of Toronto in Our said Province this thirteenth day of January in the year of Our Lord one thousand nine hundred and fifty-five and in the third year of Our Reign.

BY COMMAND.

ARTHUR WELSH,  
*Provincial Secretary.*

---

Tuesday, the eighth day of February, 1955, being the first day of the Fifth Session of the Twenty-fourth Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable Louis O. Breithaupt, LL.D., Lieutenant-Governor of the Province.

---

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant-Governor of the Province then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:

*Mr. Speaker and Members of the Legislative Assembly of Ontario:*

It is a pleasure for me to welcome you today as you resume your duties at this Fifth Session of the Twenty-fourth Legislature. Since a year ago when you last gathered here, Canada has been honoured by visits of Her Majesty, Elizabeth, the Queen Mother, of the Consort of Our Sovereign, the Duke of Edinburgh and the Duchess of Kent. We are gratified in this fourth year of the reign of Her Majesty, Elizabeth II, that we are witnessing a gathering of the strength and influence of the great British Partnership.

Our Province suffered a disaster last October when a hurricane passed over Ontario's most densely populated area before exhausting itself in the northern parts of the Province. The torrential rains which accompanied it caused grievous loss of life and property, mostly in central Ontario. Seventy-six persons are known to be dead or presumed dead. The effort made to help the unfortunate flood victims and to repair the damage has been magnificent. Voluntary relief organizations and the countless volunteers who assisted are deserving of our deepest gratitude.

To relieve hardship and assist those who have suffered severely, two organizations were set up—the Ontario Hurricane Relief Fund to receive and disburse voluntary contributions, and the Flood Homes and Buildings Assistance Board sponsored by my Government with the full collaboration of the Federal Government to assist in the restoration of dwellings and small business establishments which had sustained damage by the flood. The voluntary contributions to the Relief Fund have been a mark of selfless generosity on the part of many thousands of donors—private and governmental, both at home and abroad.

In order to avoid a repetition of the loss of life and property occasioned by the disaster and as a further step in the Province's broad conservation program, houses that are located in the seriously damaged flood areas are being condemned and the owners thereof compensated. Plans have been devised enabling joint provincial-municipal action to be taken to ensure that no building will be allowed in these danger areas and that the lands so acquired will be retained for flood control and conservation purposes.

It is with profound sorrow that we refer to the tragic passing of the late Chairman of The Hydro-Electric Power Commission of Ontario, whose short but full life was a record of service to his community and country and which is reflected in the growth of the Province he served so well.

The harnessing of hydro-electric power in Ontario over the last decade has proceeded at a rate never before equalled. In that period, major generating stations have been completed across the Province. This past year has witnessed another great project being brought into operation at Niagara. Since the House last met, at an historic ceremony, the St. Lawrence seaway and power project was commenced and this year will see marked progress on huge works involving power, canals, highways, railways and rehabilitation. The Province's concern is, of course, with all types of power and energy development, and for that reason it is giving encouragement and support to the Ontario Hydro's active participation in the development of atomic energy for peacetime uses.

Having regard for the special problems arising in the area that will be flooded by the St. Lawrence as a result of the construction of the Hydro power project, legislation will be submitted for your consideration. The Province will establish a special division, the Ontario St. Lawrence Municipal Rehabilitation Services, which will have offices, and operate, in the area. The Ontario St. Lawrence Parks Commission will also be established, and you will be asked to approve funds for these purposes.

During the past year, substantial additional supplies of natural gas have been made available to Ontario users. Further progress has been made toward

the ultimate construction of a natural gas pipe line from Alberta to Ontario and other parts of Central Canada, and we look confidently to the time when this gas will be available. When completed, it will greatly strengthen the basis of continuing expansion in this Province and fortify our long-term economic development.

The requirements of our growing Province, aggravated by the accumulated backlog of the war days, make necessary a quite unprecedented program of construction of highways and public works. This, with the St. Lawrence and other projects, will constitute the largest public investment program in our history. It will contribute notably to the alleviation of the unemployment which has been evident in our transition to a peacetime economy.

In accordance with this policy, a greatly expanded highway and public works program is being projected, full details of which will be given to the House. During the past year, motor vehicle registrations in the Province again increased, rising by 6 per cent to 1,487,000. In addition, there was an appreciable increase in the number of vehicles entering the Province from other jurisdictions. To meet these requirements and also to serve as a stimulus to employment, the Province will undertake a large-scale program, involving not only an acceleration of work on the 4-lane highways and by-passes, but a substantial extension of grading, paving, repaving and resurfacing of existing highways throughout Ontario. Details of the program, which will be submitted to you, will include the repaving of 700 miles of highways in various parts of the Province. The construction of a number of new roads in northern Ontario will also be undertaken to link to the provincial highway network communities which have had no outlet by motor vehicle to other parts of the Province.

This year, the Province will adopt a new program of classifying and marking highways. It is planned to integrate into the King's Highway system the Province's secondary system which is located in the more developmental areas of the Province. These roads will be numbered and shown on road maps. In this connection, it is planned to introduce a series of classifications of highways designed to meet the varying requirements of the Province.

The needs of the municipalities for an extension of their capital construction road program are being recognized and steps will be taken to encourage municipalities to proceed with capital works of a permanent character.

It is planned to accelerate the construction of mining and forestry access roads in accordance with the broadening picture of mining in the Province and our policy of opening up hitherto inaccessible regions of mature timber.

Last year, faced with heavy demands, the Province undertook a major capital expansion program to provide additions and extensions to Ontario hospitals, other public buildings and conservation projects. A further extension of this capital program is proposed for this year.

My Government is keeping the unemployment situation under review and it is willing and indeed eager to participate in the full implementation of the unemployment assistance and the public investment measures proposed by the Government of Canada at the Dominion-Provincial Conference of 1945-46.

You will be asked to consider measures to strengthen Ontario's health services. It is proposed, on an experimental basis, to provide a vaccine to combat poliomyelitis; to aid research in heart ailments; to make provision for better facilities in hospital nurseries for the care of premature infants; and to establish services to reduce the mortality in pregnancy resulting from RH conditions.

The Department of Welfare has been giving study to various services rendered to handicapped persons. Last year, a director was appointed to co-ordinate the many services rendered by various departments and private welfare organizations dealing with handicapped persons who are amenable to treatment and training processes. To facilitate this work, a Rehabilitation Services Bill will be submitted for your consideration.

In accordance with our policy that Indians should not be at a disadvantage in relation to other Ontario citizens, an Act entitled The Indian Welfare Services Act will be introduced, under which native Indian widows living off, or on, reserves will benefit under the terms of The Ontario Mothers' Allowances Act. The Province's assistance will be additional to that recently made available under Blind Persons' Allowances, Disabled Persons' Allowances and Old Age Assistance measures.

Inasmuch as the Government of Canada has accepted the Ontario Disabled Persons Act as a model and will commence to pay allowances for disabled persons on a joint basis with the Province this year, a new Disabled Persons' Allowances Act will be submitted to you. The cost of medical services for these disabled persons will continue to be borne by the Province.

The rapid rise in educational costs which results from the constant increase in school enrolment continues to impose a heavy strain upon the resources of the Province and the municipalities. This year, there are nearly a million pupils enrolled in the elementary and secondary school system, an increase of 66,000 over the enrolment of a year ago. Inevitably, in such circumstances, some municipalities are experiencing difficulties in obtaining money for financing the capital cost of new schools. Legislation will therefore be introduced enabling The Ontario Municipal Improvement Corporation to make loans to municipalities which are unable to sell their debentures in the money market at a reasonable cost to them.

At the last Session of the Legislature you approved the establishment of The Ontario Telephone Authority. The work of this Authority has continued to increase and, in view of the benefits that are being realized from its services, it is proposed to expand its activities. Amendments to The Telephone Act, 1954, will be submitted and, in addition, a Bill will be introduced establishing The Ontario Telephone Development Corporation. The object of this corporation will be to acquire, construct, operate, maintain, sell, and buy and sell shares in, telephone systems in rural areas. You will also be asked to approve the voting of money to establish a revolving fund to implement the purposes of this Act. This proposal is in furtherance of the policy of bettering the telephone services of those living in rural parts.

Additional assistance will be provided in order that the progress that has been realized through the supplying of electric power to our rural people may be

continued. Nearly nine out of ten rural dwellers are now supplied with hydro-electric power, over 70 per cent having been connected for electric power in the last eleven years. The problem now is largely one of adapting existing lines to carry heavier power loads and installing the transformer stations and additional equipment required.

Under the formula agreed upon, federal and provincial financial aid in civil defence will be made to municipal civil defence organizations. Participation on the part of the municipalities will be at their discretion, but every municipality desiring to establish and operate a civil defence organization, alone or in conjunction with the other municipalities of a metropolitan area, will now be assured of assistance to the extent of 75 per cent of its approved expenditures on civil defence. An amendment to the Municipality of Metropolitan Toronto Act will be made to enable the Metropolitan Corporation to assume responsibility and develop plans for civil defence in the densely populated area it serves.

It is intended to amend The Municipal Act to permit municipalities to issue term as well as serial debentures. This amendment will give more flexibility to the municipalities in financing their capital undertakings. Where such municipalities resort to term debenture financing, provision will be made for the establishment of sinking funds.

Approval to amend The Security Transfer Tax Act will be sought to exempt from the security transfer tax the bonds, debentures or debenture stock issued or guaranteed by Ontario municipalities. The purpose of this revision is to assist the municipalities in their financing.

Legislation will be introduced classifying the bonds of the International Bank for Reconstruction and Development as eligible investments for insurance and trust and loan companies. At the same time, the regulations concerned will be amended to permit the Bank's obligations to be exempt from the statutory requirements for prospectuses, registrations and returns. This legislation, which will facilitate the Bank's raising of money in the Ontario market, is being proposed in recognition of the service it is rendering to other countries in assisting their economic development.

Gratitude is expressed to all the members of the Committees of the Legislature for their able and conscientious endeavours. The work of the Select Committee on Highway Safety has been completed and its report will be tabled in the House. During the past year, the number of motor vehicle registrations and the mileage driven again showed a marked increase. The value of the property damage sustained in motor vehicle accidents rose by 5.3 per cent, but it is gratifying to record that the number of highway accidents reported declined by 4.4 per cent and the number of deaths fell by 3.9 per cent. The reports of the Select Committee to Study the Possibility of a Central Registry for Conditional Sales and of the Select Committee Studying and Investigating the Department of Highways have been completed and will soon be presented to you. It is anticipated that there will be legislation arising from these reports, and to the members of these Committees, deep appreciation is extended. The reports contain recommendations which are deserving of the same careful consideration as has been devoted to their preparation.

At the present session, it is proposed to appoint a Select Committee of the House to study toll roads, including the experience of other jurisdictions with them, but with particular reference to the application of such roads to Ontario and how they might serve the interests of the people of this Province. A Select Committee of the House to study the marketing of farm products will also be set up. Arrangements are being made for the convening of the Standing Committees of the House at an early date in order that the members will have ample time for study and review of the matters referred to them.

During the past year, various recommendations of previous Select Committees of the House have been adopted. Several steps have been taken to effect improvements in the administration of Reform Institutions. Among those that have been carried out has been the establishment of a Mental Health Unit at Guelph Reformatory. In addition to providing active treatment, this unit is undertaking a comprehensive survey of the whole field of juvenile delinquency. A new clinic for the study and treatment of drug addiction will be opened this year. Progress is being made in integrating parole and probation services. The number of probationary officers has been increased from 17 to 71.

The broad statutes of the Province relating to labour and management are meeting with success. Recently, heavy demands have been imposed upon the conciliation and arbitration services and to cope with this increase, these facilities are being expanded. Plans are being evolved to provide a new permanent establishment for the rehabilitation clinic of The Workmen's Compensation Board.

You will be asked to approve amendments to The Gasoline Tax Act and The Gasoline Handling Act, transferring the responsibility for the collection of the gasoline tax to the Department of the Provincial Treasurer.

Amendments to The Mining Act will be introduced to effect better administration of mine resources and adherence to the legal requirements concerning prospecting and the staking of claims.

There will be amendments to several Acts providing for the improved administration of land and forest resources. Among these will be amendments to The Forest Fires Prevention Act, The Public Lands Act, The Provincial Land Tax Act and The Game and Fisheries Act. There will also be a revision in The Lakes and Rivers Improvement Act aimed at preserving the beauty and amenities of Ontario lakes and rivers by ensuring that timber operators and others maintain a clean shore-line.

Progress is being made in the development of new and existing provincial parks under The Provincial Parks Act passed by the Legislature.

You will be asked to consider an amendment to The Jurors Act, reducing the number of jurors from twelve to six in civil actions.

Legislation dealing with many other subjects of interest and concern to our people will be submitted to you for your consideration. Bills will be introduced to strengthen The Farm Products Marketing Act and to amend The Ontario Food Terminal Act, The Assessment Act, The Municipal Act, The

Planning Act, The Municipality of Metropolitan Toronto Act, 1953, The Deserted Wives' and Children's Maintenance Act, The Costs of Distress Act, The Coroners Act, The County Judges Act, The Fuel Board Act, The Insurance Act, The Judicature Act, The Juvenile and Family Courts Act, The Magistrates Act, The Matrimonial Causes Act, The Registry Act, and The Summary Convictions Act. In addition, The Statutory References Act will be introduced and the Telegraph Act repealed.

The Public Accounts for the last completed year as well as the fiscal plans for the year 1955-56 will be submitted for your attention. These will confirm the strength of the Province's financial position and reflect the measures adopted to conserve its credit. This year brings new problems. They will be met imaginatively and vigorously in keeping with our policy which is designed to preserve our democratic heritage and maintain, within the limits of our financial power, a full employment of our workers and a rising standard of living for our people.

May Divine Providence guide you in your deliberations and in your consideration of the important matters submitted to you.

His Honour was then pleased to retire.

PRAYERS.

3.40 O'CLOCK P.M.

Mr. Speaker then reported,

That, to prevent mistakes, he had obtained a copy of His Honour's Speech, which he read.

---

The following Bill was introduced, read the first time, and ordered to be read the second time to-morrow:—

Bill No. 33, An Act to repeal The Telegraph Act. *Mr. Porter.*

---

On motion by Mr. Frost, seconded by Mr. Porter,

*Ordered,* That the Speech of the Honourable the Lieutenant-Governor to this House be taken into consideration to-morrow.

---

Before moving the adjournment of the House, the Prime Minister expressed the sorrow of the House on the death of Honourable Welland S. Gemmill, late Minister of Lands and Forests, and on the death of Robert H. Saunders, Chairman of The Hydro-Electric Power Commission of Ontario.

The Prime Minister also spoke about the plans at present being carried out to develop the display in the Parliament Buildings of portraits, other historical pictures and tablets with a view to improving the historical record of Ontario.

The Prime Minister congratulated Mr. Nixon, Member for Brant, on completing thirty-five consecutive years as a Member of the Legislative Assembly of Ontario.

Mr. Oliver, Leader of Her Majesty's Loyal Opposition, and Mr. Grummett, CCF House Leader, joined with the Prime Minister in his remarks.

---

The House then adjourned at 4.15 p.m.

3. Feb. 8.—*Mr. Gordon*—Enquiry of the Ministry—1. What was the total price paid by the Department of Lands and Forests for the De Havilland Dove Aircraft, registration CF-ODL. 2. From the date of purchase: what has been the total (a) operating costs, (b) maintenance costs. 3. What points outside of the Province have been visited by the Aircraft and what was the purpose of such trips.

Answer by the Minister of Lands and Forests:—

1. Total purchase price, \$75,440.00. 2. (a) and (b) \$33,527.47 to January 16th, 1955. 3. Montreal, P.Q.—business of the Department of Health; Cleveland, Ohio, U.S.A.—business of the Department of Lands and Forests; Montreal, P.Q.—business of the Department of Mines; Montreal, P.Q.—business of the Department of Lands and Forests; Detroit, Michigan, U.S.A.—business of the Department of Health; Lansing, Michigan, U.S.A.—business of the Department of Health. This aircraft is the only machine of the Air Service fleet equipped for all-weather instrument flying throughout the year and capable of landing at Department of Transport and other airfields throughout the Province. It is fitted with de-icing equipment. It is a small high speed machine capable of transporting either equipment or personnel and fills the gap in the flying needs that cannot be met by the conventional float or ski machines. It is particularly useful for ambulance flying, especially where the case is a contagious one, and has already been used for such work. Since purchase, safety and navigation equipment at a cost of \$21,340 was added to the aircraft. The conventional aircraft cost as follows: Otter on Floats, \$82,700.00; Beaver on Floats, \$38,100.00, exclusive of special equipment. The Province now operates a fleet of 38 Beavers, 3 Otters, 1 Dove and contracts for the use of 2 helicopters.

The Provincial Secretary presented to the House, by command of the Honourable the Lieutenant-Governor:—

Annual Report of the Commissioner of the Ontario Provincial Police from January 1st, 1954 to December 31st, 1954. (*Sessional Paper No. 6.*)

PRAYERS.

3 O'CLOCK P.M.

Mr. Speaker informed the House that the Clerk had received from the Commissioners of Estate Bills their report in the following case:—

Bill No. 1, An Act respecting the Presbyterian Church in the Township of Eldon.

### THE SUPREME COURT OF ONTARIO

Osgoode Hall, Toronto 1,  
March 3rd, 1955.

THE HONOURABLE MR. JUSTICE J. K. MACKAY.  
THE HONOURABLE MR. JUSTICE WILSON.

---

Roderick G. Lewis, Esq.,  
Clerk of the Legislative Assembly,  
Parliament Buildings,  
Toronto 2, Ontario.

Re: Private Bill No. 1, An Act respecting the Presbyterian  
Church in the Township of Eldon.

Dear Sir:

The undersigned, as Commissioners of Estate Bills, have considered the above-mentioned Bill and now beg to report thereon.

Presuming the allegations contained in the preamble to the Bill to be proved to the satisfaction of the House, it is in our opinion reasonable that such

Bill do pass into a law, and, subject to the alterations or amendments hereinafter set forth, the provisions of the said Bill are proper for carrying its purpose into effect.

The alterations and amendments that are, in our opinion, proper and necessary to be made in the Bill as submitted, are the following:

1. Changes in the wording of the Bill which appear to be necessary by reason of the fact that there are at present two Presbyterian Church Congregations in the Township of Eldon. That with which the Bill is concerned is known as the South Eldon Congregation.
2. The word "Scotland" in the 4th line of the preamble should read "Canada".
3. In section 4 strike out all the words following "time being" in line 4 and substitute the following: "shall hold the net proceeds thereof in trust for the South Eldon Congregation of the Presbyterian Church in Canada".

We return herewith the said Bill and the Petition therefor.

As witness our respective hands.

Witness:

E. MABEL COLES.

J. K. MACKAY.

JOHN L. WILSON.

*Ordered*, That the Bill together with the report of the Commissioners of Estate Bills thereon, be referred to the Standing Committee on Private Bills.

---

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant-Governor at the opening of the Session, having been read,

The Debate was resumed and, after some time, the amendment to the amendment, as follows:—

That the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant-Governor now before the House be amended by adding thereto the following:—

“And this House further regrets,

- (a) That the throne speech makes no reference to the critical housing situation in Ontario.
- (b) That no mention is made of positive steps being taken to immediately alleviate the increasing unemployment situation, which is now the problem of the over-burdened municipal governments.
- (c) That no program is outlined to indicate that the Province intends in any way to relieve or assist the municipalities by taking over the crippling burden of taxation for educational purposes.”

having been put, was lost on the following Division:—

## NOTICES OF MOTIONS

5. Mar. 14.—*Mr. Manley*—Resolution—That there be laid before this House a Return showing: Any agreement or agreements between the Province of Ontario, and, or, The Ontario Hydro-Electric Commission, and the New York State Power Authority, whereby rehabilitation costs will be shared equally in the Province of Ontario and the State of New York.

56. Mar. 14.—*Mr. Manley*—Enquiry of the Ministry—1. How much has (a) Ontario Hydro, (b) Department of Planning and Development, spent on planning for the new areas of the six municipalities affected by the St. Lawrence Seaway Project including all professional fees paid to staffs and all other costs. 2. What amount already paid by Hydro for planning will be included in the bill against the overall cost of the St. Lawrence Power Project and equally shared by New York Power Authority.

57. Mar. 14.—*Mr. Wren*—Enquiry of the Ministry—1. (a) During the year 1954 did the Ontario Retail Gasoline and Automotive Service Association make an offer to the Premier, the Minister of Highways, and the Controller of Revenue, to collect the Provincial Gasoline Tax through Service Station outlets for a maximum of Four Hundred Thousand Dollars; (b) Was this offer accepted; (c) If not, why not. 2. Is it constitutionally, or otherwise, legal to apply indirect taxation wherein a Service Station operator pays the gasoline tax in advance as delivered to his tanks and then collects from a third party (the consumer) as the gasoline is delivered to the consumer's vehicle. 3. What allowance or rebate is available to a Service Station Operator for gasoline losses (spillage, evaporation, shrinkage, etc.) on gasoline for which he has already paid the gasoline tax in advance. 4. (a) In addition to the nearly million dollars paid the oil companies for collection of gasoline tax do those companies receive additional consideration for gasoline losses due to spillage, evaporation or shrinkage; (b) If the reply is yes, what basis is used; (c) Do the oil companies receive any benefit from temperature correction method of gasoline deliveries.

PRAYERS.

2 O'CLOCK P.M.

Mr. Frost delivered to Mr. Speaker a message from the Honourable the Lieutenant-Governor signed by himself, and the said message was read by Mr. Speaker and is as follows:—

L. O. BREITHAUPT

The Lieutenant-Governor transmits further Supplementary Estimates of certain additional sums required for the services of the Province for the year ending 31st March, 1955, and recommends them to the Legislative Assembly.

Toronto, 22nd March, 1955  
(*Sessional Paper No. 2.*)

*Ordered*, That the message of the Lieutenant-Governor, together with the Estimates accompanying the same, be referred to the Committee of Supply.

---

The following Bills were severally introduced, read the first time, and ordered to be read the second time to-morrow:—

Bill No. 122, An Act to amend The Alcoholism Research Foundation Act, 1949. *Mr. Phillips.*

Bill No. 123, An Act to provide Rehabilitation Services for Handicapped Persons. *Mr. Goodfellow.*

Bill No. 124, An Act to amend The Warble Fly Control Act, 1952. *Mr. Thomas* (Elgin).

The Prime Minister Tabled Answers to Questions as follows:—

8. Feb. 9.—*Mr. Grummert*—Enquiry of the Ministry—What are the financial details of all agreements made by the Province of Ontario and, or, The Hydro-Electric Power Commission of Ontario with the Federal Government regarding power development in the St. Lawrence Seaway development and power undertaking.

Answer by the Honourable Mr. Challies:—

The Hydro-Electric Power Commission of Ontario has not entered into any such agreements with the Government of Canada. However, the Government of Ontario entered into an agreement with the Government of Canada dated December 3, 1951, under which Ontario undertook to develop the power resources of the International Rapids Section of the St. Lawrence River concurrently with the undertaking of complementary works by an appropriate authority in the United States of America, generally at Ontario's expense for the Canadian share of the development.

This agreement was validated by legislation of the Province of Ontario and appears in full in the Statutes of Ontario 1952, Chapter 42, under the name of "The International Rapids Power Development Agreement Act, 1952". By "The St. Lawrence Development Act, 1952 (No. 2)" which appears in the Statutes of Ontario 1952 (2nd Session), Chapter 3, the obligations, rights and benefits of Ontario under the said agreement were assigned to The Hydro-Electric Power Commission of Ontario.

9. Feb. 14.—*Mr. Nixon*—Enquiry of the Ministry—1. What are the total bills rendered to date, and how much has been paid to date, to the following in respect to the Department of Highways investigation: (a) Messrs. Clarkson, Gordon and Co.; (b) J. D. Woods and Gordon, Limited; (c) C. L. Dubin, Q.C.; (d) Each individual lawyer, by name; (e) Each individual Professional Engineer, by name.

Answer by the Minister of Highways:—

(a) \$113,797.66; (b) \$133,385.46; (c) \*\$27,765.55; (d) Mason Foulds Arnup Walter & Weir, \$685.00, Humphrey & Locke, \$1,281.70; (e) Foundation of Canada Engineering Corporation Limited, \$31,137.32.

\*Total amount paid to Kimber and Dubin.

10. Feb. 14.—*Mr. Grummert*—Enquiry of the Ministry—1. Is the cost-plus-graded-fee contract between Canadian Comstock Company Limited and The Hydro-Electric Power Commission of Ontario re-negotiated at fixed intervals. 2. What is the basis for re-negotiating the contract.

Answer by the Honourable Mr. Challies:—

1. The contract between the Commission and the Canadian Comstock Company Limited does not provide that it be reviewed at fixed intervals but is subject to review at any time. 2. The fact that the Commission has complete control at all times through the allocation of work to the contractor dispenses with the need for review of the contract at fixed intervals. In 1952 the contract was revised to provide for a reduced fee to the contractor.

12. Feb. 14.—*Mr. Grummett*—Enquiry of the Ministry—1. What amounts were paid to Canadian Comstock Company Limited for repair and maintenance work at the Hearn Plant of The Hydro-Electric Power Commission of Ontario, following the recent explosion. 2. What other amounts were paid to Canadian Comstock for work other than frequency conversion.

Answer by the Honourable Mr. Challies:—

1. \$108,900.46 for repairs to equipment originally installed by this Company. 2. Contracts to the value of \$2,006,899.26 based on competitive bidding and the lowest tender have been awarded to the Canadian Comstock Company Limited for a variety of work on Commission projects. In addition, 27 items of work having a total value of \$9,482.86, and for which tenders were not called, were awarded to the Canadian Comstock Company. The work referred to herein was carried out from August 1948 to date.

14. Feb. 14.—*Mr. Grummett*—Enquiry of the Ministry—1. Who are the members of The Hydro-Electric Power Commission of Ontario Advisory Council. 2. How often did The Hydro-Electric Power Commission of Ontario Council meet in 1954. 3. What salaries and expenses were paid The Hydro-Electric Power Commission of Ontario Council members during 1954.

Answer by the Honourable Mr. Challies:—

1. J. P. Maher, Chairman, M. Grattan O'Leary, Marjorie Hamilton (Mrs.), J. Clark Keith, M. W. Rogers, John C. Brodrick, C. H. Moors, D. P. Cliff, A. F. MacArthur. 2. Twice. 3. Salaries, Nil; Expenses, \$364.05.

24. Feb. 16.—*Mr. Thomas* (Ontario)—Enquiry of the Ministry—What is the salary of Mr. J. D. Millar, Deputy Minister of Public Works.

Answer by the Minister of Public Works:—

Salary, \$14,000 per annum; Plus Cost-of-living Bonus, \$120.00 per annum; Total, \$14,120 per annum.

41. Feb. 28.—*Mr. Salsberg*—Enquiry of the Ministry—1. What were the different classes of insurance carried by The Hydro-Electric Power Commission of Ontario yearly with the Edgar T. Alberts Ltd. Insurance Brokerage firm since the year 1950. 2. What was the total amount of coverage carried under each such class of insurance annually since 1950, and what were the annual premiums for same each year. (By "classes of insurance" is meant such types of insurance as Fire, Automobile, Casualty, Life, Marine, Accident, Boiler Explosion, etc.)

Answer by the Honourable Mr. Challies:—

1. None.

50. Mar. 3.—*Mr. Wren*—Enquiry of the Ministry—1. What Gasoline Tax was collected during the fiscal year 1953-54. 2. Of the amount collected what (a) %, and (b) amount, was collected by the service station operators at the retail level. 3. Are the trucks of Gasoline Wholesalers and Manufacturers required to be equipped with meters such as used by the retailer to sell gasoline. 4. If not—why are the retailers only required to sell gasoline from a metered pump.

Answer by the Minister of Highways:—

1. \$101,075,127.31. 2. (a) Information not available; (b) Information not available. 3. No. The compartments on tank trucks are gauged in accordance with the standards set forth by the Department of Weights and Measures, Government of Canada. 4. All retailers of gasoline do not necessarily dispense gasoline by means of metered pumps. Where metered pumps are used, they are under the jurisdiction of the Department of Weights and Measures, Government of Canada.

52. Mar. 7.—*Mr. Reaume*—Enquiry of the Ministry—Why were the following companies paid the amounts indicated during the fiscal year 1953-54: (a) British American Oil Company Limited, \$1,576,497.47; (b) Canadian Oil Companies Limited, \$157,304.56; (c) Imperial Oil Limited, \$2,182,602.23; (d) McColl-Frontenac Oil Company, Limited, \$129,455.98; (e) Shell Oil Company of Canada, Limited, \$145,538.01.

54. Mar. 8.—*Mr. Oliver*—Enquiry of the Ministry—1. Did The Hydro-Electric Power Commission of Ontario carry Public Liability and Property Damage insurance on any or all of the work performed by the Contractors engaged on the Queenston Tunnel Development at Niagara Falls. 2. If the answer to Question No. 1 is yes, what amount of premium was paid and how long has it been the policy of the Commission to carry such insurance in place of the Contractor. 3. What was the name of the Insuring Company. 4. Who was the Insurance Agent.

Answer by the Honourable Mr. Challies:—

1. No. The contractors were required, under the terms of their contracts, to carry adequate Public Liability and Property Damage insurance.

The Prime Minister Tabled the Answer to the following Question:—

37. Feb. 25.—*Mr. Wren*—Enquiry of the Ministry—1. Upon what date did the Department of Lands and Forests purchase the Bell Helicopter CF-ODM. 2. What was the cost to the Department. 3. What were the total maintenance costs. 4. (a) Upon what date was it sold; (b) To whom was it sold; (c) At what price was it sold; (d) Why was it sold.

Answer by the Minister of Lands and Forests:—

1. May 9th, 1953. 2. \$36,394.50. 3. This helicopter was operated and maintained by Spartan Air Services Limited under contract. 4. (a) December 3rd, 1953; (b) Spartan Air Services Limited, Ottawa, Ontario; (c) \$23,000.00; (d) The Bell Helicopter was purchased by the Department of Lands and Forests

in 1953 with an agreement for resale at the close of the fire season. The decision to sell the aircraft was made to avoid the year-round costs of operating and maintenance crews and storage facilities. The department in 1953 requested tenders on a rental basis for two helicopters. The lowest of the three tenders received was accepted, involving rental of a Hiller Helicopter aircraft. A separate proposal for a purchase-resale arrangement of a Bell Helicopter represented a lower cost to the department than the two remaining tenders for rental. These remaining tenders for rental of Bell Helicopters were not accepted. The saving to the Department of Lands and Forests on the purchase-resale arrangement over the lowest tender for a Bell Helicopter was \$9,164.79, calculated on the actual number of months in service and hours flown in the purchased craft.

The House, according to Order, resolved itself into the Committee of Supply.

*(In the Committee)*

*Ordered*, That notwithstanding the provisions of Rule No. 2 of the Assembly this House will meet at two of the clock in the afternoon each sitting of the week commencing Monday, March 28th.

The Prime Minister Tabled Answers to Questions as follows:—

11. Feb. 14.—*Mr. Grummett*—Enquiry of the Ministry—1. Have negotiations been entered into by The Hydro-Electric Power Commission of Ontario with the eastern Ontario and Quebec private companies supplying power to Ontario for the rewinding of their transformers from 25 to 60 cycles. 2. What was the total cost, with a breakdown into its major classifications, of the Information and Publicity Division of The Hydro-Electric Power Commission of Ontario during 1954.

Answer by the Honourable Mr. Challies:—

1. No. 2. The Information Division is composed of the Director's office and five departments, as follows: Information Department (Frequency Standardization), Graphic, Administration, Editorial, Services.

	1954 Expenditure
Information Department (Frequency Standardization) . . . . .	\$193,143

Responsible for customer contacts during and following frequency standardization; preparation and distribution of instructive literature for customers; responsible for contacts with municipal officials; information and instruction to various organizations in connection with frequency standardization; supervision of customer accounts for frequency standardization.

Graphic Department . . . . .	346,801
------------------------------	---------

Responsible for the production and printing of Commission publications such as Ontario Hydro News, Hydro Staff News, abridged annual report, and the informative leaflet Hydro Rural Lines (distributed to farm customers); production of scale models, displays and exhibits; production of all motion pictures and photographs, including construction progress records; responsible for arranging displays and exhibits, such as Canadian National Exhibition, International Plowing Match, local fairs and other exhibitions. This group also produces graphic material and publicity for other Hydro divisions.

Administration Department . . . . .	94,904
-------------------------------------	--------

Responsible for Divisional personnel records, the necessary clerical work connected with the Division's operations, and the distribution of printed material to the general public.

Editorial Department . . . . .	76,841
--------------------------------	--------

Responsible for the preparation and editing of all news releases, articles, publications, and other informative material; the preparation of material publicizing the Commission's day-to-day activities; gathering and distributing factual information and statistics on the Commission's activities for the general public and for internal distribution.

Services Department . . . . .	113,574
-------------------------------	---------

Responsible for all field contacts, including tours over the Commission's new S.A.B. No. 2 project at Niagara, the St. Lawrence development, and other new generating stations—for municipal officials, agricultural groups, industrial organizations, etc.; responsible for providing and training personnel to man the Commission's large exhibits and demonstrations throughout the Province covering all phases of Hydro.

Director's Office . . . . .	20,590
-----------------------------	--------

Liaison Office..... 34,153

Includes a group that carried out special functions, as well as the Secretary of the A.M.E.U., who arranges all necessary meetings with this organization, who acts as a co-ordinator as required with the O.M.E.A., and who provides Hydro information to municipalities through the above organizations.

\$880,006

31. Feb. 21.—*Mr. Reaume*—Enquiry of the Ministry—Since the establishment of the Ontario Police College what have been the costs for the following: 1. Purchase of the property on Sherbourne Street, Toronto. 2. Cost of all repairs, alterations, etc., made to this building to date. 3. Maintenance costs to date. 4. To what use the building is presently being used for by the Police.

Answer by the Attorney-General:—

1. Answer to this question being supplied by the Department of Public Works. 2. Answer to this question being supplied by the Department of Public Works. 3. Answer to this question being supplied by the Department of Public Works. 4. For the training of Ontario Provincial and Municipal Police.

33. Feb. 22.—*Mr. Grummett*—Enquiry of the Ministry—Since the original estimate was made for Hydro conversion, what has been the increase in frequency-sensitive items for (a) domestic consumers, (b) commercial consumers, (c) industrial consumers.

Answer by the Honourable Mr. Challies:—

(a) In the original 1947 estimate an average of 2.7 items of frequency sensitive equipment per domestic customer during the course of the program was estimated. In the year 1954, an average of 5.6 items of frequency sensitive equipment per domestic customer was converted, and from the start of the program to December, 1954, an average of 4.9 items was encountered; (b) The original 1947 estimate provided for an average of 2.3 items of frequency sensitive equipment per commercial customer, whereas during the year 1954, an average of 12.8 items per commercial customer was converted. From the start of the program to December 1954, an average of 9.2 items per commercial customer was converted; (c) The original 1947 estimate was based on estimated horsepower of connected load and the items of frequency sensitive industrial equipment were not determined. However, the Commission's present estimate of industrial equipment to be converted throughout the whole program is approximately the same as that originally contemplated as the growth load in the 25-cycle areas has been taken care of by the advance 60-cycle power supply.

38. Feb. 28.—*Mr. Wren*—Enquiry of the Ministry—Did The Ontario Hydro-Electric Power Commission call for tenders for the manufacture, and installation of, the 16 generators to be installed in the Canadian section of the St. Lawrence powerhouse. What are the names of all companies tendering on these jobs and what amount was bid by each. Indicate the name of the successful bidder. If the lowest bidder was not accepted state why it was not accepted.

Answer by the Honourable Mr. Challies:—

The Hydro-Electric Power Commission of Ontario called for tenders through the medium of newspaper advertisements, on the basis of supplying any 2, 4, 6 or 8 units as required under the delivery schedule contained in the tendering documents. The names of the successful bidders are: Canadian General Electric Company Limited, 8 units; Canadian Westinghouse Company Limited, 8 units. When the Commission calls for tenders on electrical equipment and receives bids for the supplying of same, it then proceeds with the analysis of such bids. The Commission is required to exercise its judgment on many highly technical details in determining the supplier of such equipment. Tenders for supplying such equipment have been international, bids having been received from the United Kingdom, Sweden, Switzerland, France, Austria, United States and Canada. The circumstances influencing the Commission's decisions are: rates of exchange, transportation costs, transportation hazards, insurance factors, inspection procedures, engineering design, quality and efficiency, ability of manufacturer to deliver on time, price firm or subject to escalation, desirability to purchase in home market. Tenders are therefore not comparative but are subject to these intricate conditions.

45. Mar. 1.—*Mr. Manley*—Enquiry of the Ministry—1. Did The Ontario Hydro-Electric Power Commission call for tenders for the manufacture and installation of the sixteen turbines and governors, to be installed in the Canadian section of the St. Lawrence Powerhouse. 2. What are the names of all companies tendering on this contract and what amount was bid by each. 3. Indicate the name of the successful bidder. 4. If the lowest bid was not accepted state why it was not accepted.

Answer by the Honourable Mr. Challies:—

The Hydro-Electric Power Commission of Ontario called for tenders through the medium of newspaper advertisements on the basis of supplying any 2, 4, 6 and 8—75,000-h.p., 94.7-r.p.m. hydraulic turbines and oil-pressure turbine governors, as required under the delivery schedule in the tendering documents. The English Electric Company of Canada Limited was the successful bidder for this equipment. When the Commission calls for tenders on electrical equipment and receives bids for the supplying of same, it then proceeds with the analysis of such bids. The Commission is required to exercise its judgment on many highly technical details in determining the supplier of such equipment. Tenders for supplying such equipment have been international, bids having been received from the United Kingdom, Sweden, Switzerland, France, Austria, United States and Canada. The circumstances influencing the Commission's decisions are: rates of exchange, transportation costs, transportation hazards, insurance factors, inspection procedures, engineering design, quality and efficiency, ability of manufacturer to deliver on time, price firm or subject to escalation, desirability to purchase in home market. Tenders are therefore not comparative but are subject to these intricate conditions.

46. Mar. 1.—*Mr. Reaume*—Enquiry of the Ministry—1. Did The Ontario Hydro-Electric Power Commission call for tenders for the six 55,000-horsepower motor-generator units to be used for the Sir Adam Beck-Niagara Pumped Storage Project. 2. What are the names of all companies bidding on this

contract and what was bid by each. 3. Indicate the name of the successful bidder. 4. If the lowest bid was not accepted state why it was not accepted. 5. Does the accepted bid include the cost of installation.

Answer by the Honourable Mr. Challies:—

The Hydro-Electric Power Commission of Ontario called for sealed tenders for the supply of all or any portion of six 55,000-horsepower motor-generator units to be used for the Sir Adam Beck-Niagara Pumped Storage Project. The Canadian Westinghouse Company Limited was the successful bidder for this equipment. When the Commission calls for tenders on electrical equipment and receives bids for the supplying of same, it then proceeds with the analysis of such bids. The Commission is required to exercise its judgment on many highly technical details in determining the supplier of such equipment. Tenders for supplying such equipment have been international, bids having been received from the United Kingdom, Sweden, Switzerland, France, Austria, United States and Canada. The circumstances influencing the Commission's decisions are: rates of exchange, transportation costs, transportation hazards, insurance factors, inspection procedures, engineering design, quality and efficiency, ability of manufacturer to deliver on time, price firm or subject to escalation, desirability to purchase in home market. Tenders are therefore not comparative but are subject to these intricate conditions.

53. Mar. 7.—*Mr. Thomas* (Ontario)—Enquiry of the Ministry—What dates did Robert S. Stacey, of Hamilton, act in the capacity of Chairman of Conciliation Board in the period of January 1, 1954, to March 1, 1955, and what was he paid for his services on each respective day.

Answer by the Minister of Labour:—

1954: January 23, 24; February 6, 10, 23, 24, 27; March 1, 22, 26, 27; April 2, 11, 12, 14, 22, 23, 26, 27; May 5, 10, 11, 12, 13, 21, 22, 23, 24, 25, 26, 27, 31; June 1; August 26, 27; October 2, 3, 4, 5, 17, 18, 24, 25; November 26; December 1, 2, 3, 4, 5, 6, 7. Paid \$25.00 a day. Note: No record of dates until accounts have been submitted.

MONDAY, MARCH 28TH, 1955

PRAYERS.

2 O'CLOCK P.M.

Mr. Cowling, from the Standing Committee on Government Commissions, presented the Committee's Report, which was read as follows:—

Your Standing Committee on Government Commissions met several times during the Session and heard reports from Mr. L. M. McKenzie, Ontario Athletics Commissioner, Dr. R. L. Hearn, Chairman of The Ontario Hydro-Electric Power Commission, and Mr. O. E. Lennox, Q.C., Chairman of the Ontario Securities Commission.

The Committee obtained much valuable information from these gentlemen and voted a resolution of confidence in the Office of the Securities Commission.

Your Committee recommends the following suggestions for the consideration of the House and the Government:—

- (1) That all profits or revenues of the Office of the Athletic Commissioner be made available to that Office in addition to the \$10,000.00 voted in the Estimates for that Office, to encourage the promotion of athletics among the young people of the Province.
- (2) That a qualified geologist be appointed full time to the Staff of the Ontario Securities Commission.

---

Mr. Stewart, from the Standing Committee on Travel and Publicity, presented the Committee's Report, which was read as follows:—

Your Standing Committee on Travel and Publicity held meetings during the Session at which it heard representations from various interested persons and organizations, and obtained information from the Minister and officials of the Department. As a result of the aforementioned representations and information, the Committee made certain recommendations directly to the Minister.

In addition your Committee would recommend that the House give consideration to the appointment of a Select Committee on Travel and Publicity to meet in the interval between Sessions to hear and consider representations on the tourist industry in view of the industry's growing importance to the Province.

The Order of the Day for resuming the Adjourned Consideration of the Report of the Select Committee on the Organization of the Department of Highways, having been read,

The discussion was resumed, and, after some time, was declared to be concluded.

---

The Order of the Day for the Third Reading of Bill No. 29, An Act respecting St. Mary's River Bridge Company, having been read,

On motion by Mr. Frost (Victoria),

*Ordered*, That the Order be discharged and the Bill referred back to the Committee of the Whole House for further consideration.

---

The House resolved itself into a Committee to consider certain Resolutions and certain Bills.

Mr. Frost acquainted the House that the Honourable the Lieutenant-Governor of the Province, having been informed of the subject matter of the resolutions, recommends them to the consideration of the House.

After some time Mr. Speaker resumed the Chair, and Mr. Cathcart reported that the Committee had come to certain Resolutions as follows:—

*Resolved*,

That,

the part of the cost of the construction or maintenance and repair of culverts or bridges which is borne and paid by the county under the agreement provided for in subsection 17 of section 28 of *The Highway Improvement Act* shall be deemed to be properly chargeable

to the county road system and may be included in the statement of expenditures submitted to the Minister of Highways by the county under that Act, and the Minister may direct payment to the county treasurer out of the moneys appropriated therefor by the Legislature of an amount not exceeding 80 per cent thereof,

as provided by section 1 of Bill No. 87, *An Act to amend The Highway Improvement Act*,

and

That,

notwithstanding subsection 2 of section 58 of *The Highway Improvement Act*, in the case of a town not being a separated town or of a village, the Minister of Highways may direct payment to the treasurer of the town or village out of the moneys appropriated therefor by the Legislature of an amount not exceeding 80 per cent of the expenditure on a bridge or culvert which is properly chargeable to road improvement,

as provided by section 2 of Bill No. 87, *An Act to amend The Highway Improvement Act*,

and

That,

notwithstanding section 61 of *The Highway Improvement Act*, any contribution made by a county under section 28a of that Act towards the construction, improvement, maintenance and repair of roads or streets, other than county roads or county road extensions or connecting links, in an urban municipality not separated from the county may be included in the statement submitted to the Minister of Highways under section 58 of that Act for the purpose of determining the grant payable to the urban municipality under Part VII of that Act, and where such contribution is in the form of work carried out by the county the value of such work as certified by the county road superintendent may be so included,

as provided by section 3 of Bill No. 87, *An Act to amend The Highway Improvement Act*,

and

That,

where it is deemed by the Minister of Highways desirable and expedient, an agreement may be entered into with the corporation of a city or of a separated town for the construction by the municipality or by the Department of Highways of any highway therein which is a connecting link or extension of the King's Highway,

and

That,

the agreement may provide that a proportion of the cost of the work shall be paid out of the moneys appropriated therefor by the Legislature and the remainder shall be borne and paid by the city, town or village, but the proportion which shall be paid out of the moneys appropriated therefor by the Legislature shall not exceed,

- (a) in the case of a town or village having a population of not more than 2,500, a sum equal to the cost of a width of roadway not less than 22 feet nor more than the width of the roadway on the King's Highway approaching the town or village where such width exceeds 22 feet;
- (b) in the case of a town or village having a population of more than 2,500, a sum equal to 50 per cent of the cost of a width of roadway not less than 22 feet nor more than 33 feet; and
- (c) in the case of a city or separated town, a sum equal to 50 per cent of the cost of a width of roadway not less than 22 feet nor more than 33 feet,

as provided by section 4 of Bill No. 87, *An Act to amend The Highway Improvement Act*,

and

That,

the Minister of Highways and any municipality may enter into agreements for the establishment, construction and apportionment of the cost of roads within the municipality for the purpose of providing means of access to a controlled-access highway at a point where access is permitted,

as provided by section 6 of Bill No. 87, *An Act to amend The Highway Improvement Act*.

*Resolved,*

That,

allowances may be paid in accordance with the agreement made under subsection 1 or any supplemental agreement made under subsection 2 of section 2 of *The Old Age Assistance Act, 1951*,

as provided in section 1 of Bill No. 102, *An Act to amend The Old Age Assistance Act, 1951*.

*Resolved,*

That,

allowances and expenses of the administration of *The Disabled Persons' Allowances Act, 1955* and the regulations made thereunder be payable out of the moneys provided therefor by the Legislature,

as provided in section 11 of Bill No. 106, *The Disabled Persons' Allowances Act, 1955*.

*Resolved,*

That,

the moneys required for the purposes of the Ontario Highway Transport Board shall be paid out of the Consolidated Revenue Fund,

as provided by Bill No. 118, *An Act to establish the Ontario Highway Transport Board*.

*Resolved,*

That,

where a person is placed in special-home care, the Treasurer of Ontario shall pay out of the Consolidated Revenue Fund to the municipality responsible for the maintenance of such person 50 per cent of its net cost of maintenance or \$30 a month, whichever is the lesser,

as provided in subsection 2 of section 15 of Bill No. 103, *The Homes for the Aged Act, 1955*,

and

That,

to assist in defraying the cost of establishing a new home for the aged or an addition to or extension of an existing home for the aged, the Lieutenant-Governor in Council may direct payment out of the Consolidated Revenue Fund of such amount as he may determine in accordance with the regulations and based upon the proportion of such cost that is allocated to the unorganized portions of the territorial district in which the home is established,

as provided in subsection 2 of section 20 of Bill No. 103, *The Homes for the Aged Act, 1955*,

and

That,

when the Minister of Public Welfare has approved the plans for a new building to be used as a home for the aged or a joint home for the aged or for an addition to or an extension of an existing home or joint home, the Lieutenant-Governor in Council may direct payment out of the Consolidated Revenue Fund to the one or more municipalities or to the board of management, as the case may be, responsible for the home or joint home, of an amount not exceeding 50 per cent of the cost thereof to the municipality or municipalities concerned, and that such payments may be made either when the home or joint home or the addition or extension is completed and ready for occupancy or from time to time during the construction thereof as may be deemed expedient, and that in computing the amount of the cost of the new building, addition or extension for the purposes of subsection 1 of section 23 of *The Homes for the Aged Act, 1955*, the cost of equipment and furnishings may be included, but the cost of any land in excess of fifteen acres and the cost of any barns and other similar outbuildings shall not be included,

as provided in section 23 of Bill No. 103, *The Homes for the Aged Act, 1955*,

and

That,

there shall be paid out of such moneys as are voted therefor by the Legislature to every municipality having a home or participating in a joint home for the aged or having an agreement under section 5 of *The Homes for the Aged Act, 1955* an amount equal to one-half the amount paid out by the municipality for the operation and maintenance of the home or joint home computed in the manner prescribed by the regulations made under the said Act, except that the amount payable to a county under subsection 1 of section 24 of the Act shall be paid to each municipality forming part of the county in the proportion that the equalized assessment of the municipality bears to the total equalized assessment of the county,

as provided in subsection 1 of section 24 of Bill No. 103, *The Homes for the Aged Act, 1955*,

and

That,

there shall be paid out of such moneys as are voted therefor by the Legislature to the municipalities in a territorial district having a home for the aged under section 4 of *The Homes for the Aged Act, 1955* an amount equal to one-half the amount paid out by the board of management of the home for its operation and maintenance computed in the manner prescribed by the regulations made under the said Act, and the amount payable to each municipality shall be in the same proportion as the contributions of the municipality to the home bear to the total of the contributions made by all the municipalities concerned,

as provided in subsection 2 of section 24 of Bill No. 103, *The Homes for the Aged Act, 1955*,

and

That,

in computing the amount paid out for the operation and maintenance of a home or joint home for the aged for the purposes of subsection 1 or 2 of section 24 of *The Homes for the Aged Act, 1955*, the cost of operating and maintaining a farm in connection with the home or joint home shall not be included,

as provided in subsection 3 of section 24 of Bill No. 103, *The Homes for the Aged Act, 1955*,

and

That,

there shall be paid out of such moneys as are voted therefor by the Legislature to every municipality having a home for the aged or participating in a joint home for the aged and to every board of management of a home an amount per day computed in the manner prescribed by the regulations made under *The Homes for the Aged Act, 1955* as the cost of maintenance for each person whose residence before admission to the home or joint home was in unorganized territory,

as provided in section 25 of Bill No. 103, *The Homes for the Aged Act, 1955*.

*Resolved,*

That,

the Minister of Health, with the approval of the Lieutenant-Governor in Council, may make such regulations under *The Public Health Act* as may be deemed necessary for the payment of or making contributions towards maternal and child welfare,

as provided in section 1 of Bill No. 104, *An Act to amend The Public Health Act*,

and

That,

for the purpose of carrying out a programme of maternal and child welfare under *The Public Health Act* the Minister of Health may, out of such moneys as are appropriated by the Legislature for the purpose,

(a) provide,

(i) diagnostic, technical and other facilities and services,  
and

- (ii) medical and other services and substances, articles, accommodation and other facilities

for the prevention and mitigation of disease or disorders among expectant mothers and children;

- (b) provide for the examination of expectant mothers by medical practitioners; and
- (c) pay grants to hospitals approved under *The Public Hospitals Act* for the establishment and operation of accommodation and facilities for the care and treatment of expectant mothers and infants,

in such manner and at such times and upon such conditions and,

- (d) in respect of clauses *a* and *b*, pay or contribute toward the cost of providing the facilities and services; and
- (e) in respect of clause *c*, pay the grants in such amounts,

as may be prescribed by the regulations,

as provided in section 2 of Bill No. 104, *An Act to amend The Public Health Act*.

*Resolved,*

That,

every purchaser of admission to a place of amusement shall pay to the Treasurer of Ontario for the use of Her Majesty in right of Ontario a tax on the price of admission as follows:

Price of Admission								Tax	
More than 25	cents and not more than	34	cents	—	34	cents	—	3	cents
"	"	34	"	"	"	"	"	4	"
"	"	46	"	"	"	"	"	5	"

"	"	84	"	"	"	"	"	9	"

and where the price of admission is more than 94 cents, a tax at the rate of 10 per cent calculated upon the price of admission, and in the calculation every fraction of less than one-half cent shall not be counted and every fraction of one-half cent or more shall be counted as one cent; and every purchaser of admission to a place of entertainment shall pay to the Treasurer of Ontario for the use of Her Majesty in right of Ontario,

- (a) a tax at the rate of 10 per cent calculated upon the price of admission where such price is less than \$10; and

(b) a tax of \$1 where such price is \$10 or more,

and in the calculation under clause *a*, every fraction of less than one-half cent shall not be counted and every fraction of one-half cent or more shall be counted as one cent,

as provided in section 3 of Bill No. 110, *An Act to amend The Hospitals Tax Act*,

and

That,

where application of the owner is made to the Treasurer of Ontario at least ten days before the tax would otherwise be payable and the Treasurer is satisfied that the performers in a theatrical or musical performance in a place of amusement are residents of Canada performing under the management of a person resident in Canada and that the performance will not be presented with the showing of a motion picture or with a carnival, circus, side-show, menagerie, rodeo, exhibition, horse race, athletic contest or other performance, the Treasurer may, in his absolute discretion, exempt the purchaser from the payment and the owner from the collection of the tax imposed under *The Hospitals Tax Act*,

as provided in subsection 2 of section 5 of Bill No. 110, *An Act to amend The Hospitals Tax Act*.

*Resolved,*

That,

the amounts to be paid to or on behalf of handicapped persons under *The Rehabilitation Services Act, 1955* and the expenses of the administration of that Act and the regulations made thereunder, be, until the 31st day of March, 1956, payable out of the Consolidated Revenue Fund and thereafter be payable out of the moneys provided therefor by the Legislature,

as provided in subsection 2 of section 7 of Bill No. 123, *An Act to provide Rehabilitation Services for Handicapped Persons*.

PRAYERS

2 O'CLOCK P.M.

The Prime Minister Tabled Answers to Questions as follows:—

7. Feb. 9.—*Mr. Grummett*—Enquiry of the Ministry—1. What are the details of any agreement or agreements between The Bell Telephone Company Limited and The Hydro-Electric Power Commission of Ontario regarding the Commission's voice telephone communications. 2. What progress has been made in integrating the two Systems.

Answer by the Honourable Mr. Challies:—

1. An Agreement dated October 25, 1952, between the Bell Telephone Company of Canada and The Hydro-Electric Power Commission of Ontario provides:—

- (a) That the Telephone Company within the territory in which it provides telephone service to the public will furnish and maintain the facilities required by the Commission to meet voice communications needs;
- (b) That the Company will provide the said facilities at established tariff rates;
- (c) That the Commission will continue to use its existing communication facilities and until such time as the Commission has retired or otherwise disposed of these private facilities, or until the expiration of the agreement, the Company, at the request of the Commission and on reasonable notice, will provide extensions to, or revisions of, the Commission's existing equipment in areas served by the Company;
- (d) That the Company will permit interconnections between the Commission's communications system, including extensions thereto provided by the Company, and the communications facilities of other commissions or companies whose power systems are operated with that of the Commission as parts of an integrated power system under direct or common control, or who own or operate power lines jointly with the Commission, or who own or operate power facilities interconnected with those of the Commission.

(e) That unless terminated sooner by mutual agreement or by causes beyond the control of the contracting parties, the agreement will continue in effect until October 31, 1957.

2. Integration of the Commission's telephone system with that of the Company is being made with satisfactory progress, the integration of facilities at 35 locations having been completed. The program of work which is in continuous operation has and will effect substantial savings and up to the present time has resulted in a reduction of 1900 telephone sets through the elimination of former duplication and has made possible a significant reduction in staff employed on the engineering and maintenance of communications.

26. Feb. 16.—*Mr. Thomas* (Ontario)—Enquiry of the Ministry—Who is the owner or owners of the new store at Whitby, rented by the Liquor Control Board, and what is the rental. For how long are the premises leased.

Answer by the Provincial Secretary:—

(a) Donald J. Bryant; (b) \$375.00 per month including heat; (c) 10 years (from January 1, 1954, to December 31, 1963).

43. Mar. 1.—*Mr. Oliver*—Enquiry of the Ministry—1. Did the Liquor Control Board purchase all or part of the former Orange Crush building on Fleet Street. 2. If yes, give particulars including the date of purchase, the floor space purchased, the cost to the Commission and the cost per square foot. 3. Did any purchase include the heating plant. 4. If no, give particulars including information as to whether or not the Commission was required to purchase heat from the owner and the cost of heat in each year since purchased. 5. Did any other Department of Government purchase premises from the Liquor Control Board. 6. Give particulars including the name of the Department, the date of purchase, the cost price and particulars as to what arrangements and costs involved have been made regarding heating the plant.

Answer by the Provincial Secretary:—

1. Yes—part. 2. Date: 1st February, 1951; Grantors: Fleet Street Properties Ltd.; Property: 300 feet on south side of Fleet Street at Jarvis by a depth of 307 feet; Consideration: \$1,750,000.00, payable \$1,000,000.00 cash and assumption of existing mortgage to Prudential Insurance Company of America, \$750,000.00; Square Footage: 151,780 square feet; Price per square foot: \$11.53. 3. No. 4. Board purchased steam for heating from Fleet Street Properties Ltd. under agreement dated 1st February, 1951: 1951—\$11,904.75 (10 months' period); 1952—\$14,978.27 (calendar year); 1953—\$13,254.96 (calendar year); 1954—\$18,603.65 (calendar year). 5. Transferred from Her Majesty the Queen in right of Ontario as represented by the L.C.B.O. to Her Majesty the Queen in right of Ontario as represented by the Minister of Public Works. 6. 15th January, 1955; consideration nominal; heating agreement (See 4) enures to benefit of assignee.

47. Mar. 1.—*Mr. Wren*—Enquiry of the Ministry—1. Since January 1, 1950, on how many occasions have provincial aircraft been flown to James Bay for the passengers and crew to hunt moose or other game. 2. What type of

aircraft were used on these trips. 3. Who authorized such flights. 4. What would it cost to fly a Beaver Aircraft from Sault Ste. Marie to James Bay and return. 5. Give the names of all passengers and crew members carried on such flights.

Answer by the Minister of Lands and Forests:—

1. Nil. 2. Answered by 1. 3. Answered by 1. 4. \$70.00 out-of-pocket costs (gasoline, oil and proportion of engine overhaul costs). 5. Answered by 1.

57. Mar. 14.—*Mr. Wren*—Enquiry of the Ministry—1. (a) During the year 1954 did the Ontario Retail Gasoline and Automotive Service Association make an offer to the Premier, the Minister of Highways, and the Controller of Revenue, to collect the Provincial Gasoline Tax through Service Station outlets for a maximum of Four Hundred Thousand Dollars; (b) Was this offer accepted; (c) If not, why not. 2. Is it constitutionally, or otherwise, legal to apply indirect taxation wherein a Service Station operator pays the gasoline tax in advance as delivered to his tanks and then collects from a third party (the consumer) as the gasoline is delivered to the consumer's vehicle. 3. What allowance or rebate is available to a Service Station Operator for gasoline losses (spillage, evaporation, shrinkage, etc.) on gasoline for which he has already paid the gasoline tax in advance. 4. (a) In addition to the nearly million dollars paid the oil companies for collection of gasoline tax do those companies receive additional consideration for gasoline losses due to spillage, evaporation or shrinkage; (b) If the reply is yes, what basis is used; (c) Do the oil companies receive any benefit from temperature correction method of gasoline deliveries.

Answer by the Treasurer:—

1. (a) No; (b) Answered by 1 (a); (c) Answered by 1 (a). 2. The Gasoline Tax Act and regulations are considered intra-vires. 3. Consideration is given to stock losses due to defective equipment when substantiated. 4. (a) No; (b) Answered by 4 (a); (c) Information not available but with transfer of gasoline tax collection to Treasury the whole matter is being looked into and the experience of some of the Provinces which are engaged in investigation will be obtained.

Before the Orders of the Day, Mr. Frost informed the House that Questions Nos. 30, 49 and 62 by Mr. Gordon and Mr. Manley necessitated such lengthy replies that the Government requires that they be made motions for Returns.

On motion by Mr. Gordon, seconded by Mr. Manley,

*Ordered*, That there be laid before this House a Return showing: 1. WEDNESDAY, MARCH 30TH, 1955

PRAYERS.

2 O'CLOCK P.M.

On motion by Mr. Frost, seconded by Mr. Porter,

*Ordered*, That a Select Committee of the House be appointed to study all matters relating to toll roads and to report on the application of the same to certain areas having regard to the needs of the Province of Ontario.

And that the Select Committee have authority to sit during the interval between Sessions and have full power and authority to call for persons, papers and things and to examine witnesses under oath, and the Assembly doth command and compel attendance before the said Select Committee of such persons and the production of such papers and things as the Committee may deem necessary for any of its proceedings and deliberations, for which purpose the Honourable the Speaker may issue his warrant or warrants.

Said Committee to consist of eleven members as follows:—

Mr. Robarts (Chairman), Messrs. Auld, Downer, Grummett, Hamilton, Jolley, Leavine, Manley, Reaume, Sandercock and Yaremko.

On motion by Mr. Frost, seconded by Mr. Porter,

*Ordered*, That the Select Committee appointed at the 4th Session of this Legislature to consider the advisability of a central registry for the registration of conditional sales contracts and similar documents of title and pledge, be re-appointed with the same membership and authority.

Before the Orders of the Day the Prime Minister Tabled an Interim Report dated March, 1955, of the Ontario Gold Mining Committee. (*Sessional Paper No. 56.*)

Also, the Minister of Public Works Tabled a Report on the Organization and Administrative Practises of his Department dated February, 1955, by J. D. Woods and Gordon Limited, Management Consultants. (*Sessional Paper No. 57.*)

The Prime Minister Tabled Answers to Questions as follows:—

17. Feb. 14.—*Mr. Grummett*—Enquiry of the Ministry—What is the total cost, or value in services rendered, by The Hydro-Electric Power Commission of Ontario, from the commencement of conversion to the end of 1954, by the handing over to or loan to the Canadian Comstock Company Limited of the following: (a) Trucks; (b) Trailers; (c) Automobiles; (d) Office furniture and equipment; (e) Miscellaneous small tools and equipment.

Answer by the Honourable Mr. Challies:—

In the interest of economy and for the advantage of the Commission and under the terms of the contract between the Commission and the Canadian Comstock Company Limited, the Company is supplied with certain equipment which is used in carrying out the work of the frequency standardization program. While such equipment is being utilized by the Canadian Comstock Company on the work of frequency standardization, depreciation and interest on these vehicles, as well as daily costs of operation, become a charge to frequency standardization. This equipment remains the property of the Commission and the quantity used by the Company varies with the requirements of the program. As of January 24, 1955, the value of this equipment in use by the Company was as follows: (a) Trucks, \$1,423,384; (b) Trailers, \$144,180; (c) Automobiles, \$232,244; (d) Office furniture and equipment, \$352,517; (e) Miscellaneous small tools and equipment, \$421,292. Total, \$2,573,617.

THURSDAY, MARCH 31ST, 1955

PRAYERS.

10.30 O'CLOCK A.M.

Before the Orders of the Day, the Prime Minister made reference to the arrangements being made to preserve the historic significance of the Parliament Buildings. He informed the House that as part of these arrangements a marble pedestal was to be placed in the entrance to the Library, on which would be kept a Book of Remembrance recording the names of the Civil Servants of Ontario who gave their lives in World Wars I and II.

He also made reference to the efforts to complete the portraits of past Prime Ministers as part of the historical record of the Province. In this connection, he expressed the hope that Mr. Nixon, the Member for Brant, a former Prime Minister, would consent to sit for his portrait in the near future, and he informed the House that he had been successful in obtaining the consent of Mrs. Mitchell F. Hepburn to the painting of a portrait of her late husband, the Honourable Mitchell F. Hepburn, Prime Minister of the Province from 1934 to 1942.

We, Her Majesty’s most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty’s person and Government, and humbly beg to present for Your Honour’s acceptance a Bill intituled, “An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1955, and the 31st day of March, 1956.”

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

“The Honourable the Lieutenant-Governor doth thank Her Majesty’s dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty’s name.”

---

The Honourable the Lieutenant-Governor was then pleased to deliver the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly:*

As I bring to a close this Fifth Session of the Twenty-fourth Parliament, I wish to express appreciation for your able and conscientious attention to the wide range of measures that have been introduced to assure the Province's continued economic advancement and the well-being of its people.

You have brought to your task imagination and vigour. You have recognized that in our swiftly moving, free-enterprise economy we cannot stand still. Our growing population requires an expansion in highways, municipal roads, water-works, sewers, hospitals, schools, university buildings, flood control, conservation and public works of all kinds. The Province, within its jurisdiction, must be a positive force in maintaining both short and long term economic stability. Accordingly, you have approved a great development program unparalleled in the annals of our history—a program designed not only to increase our productive assets, but to create new job opportunities and bolster employment and income.

In addition to the huge capital investment program, you have approved special measures enabling further welfare and works projects to be undertaken by the municipalities. Such projects can be financed entirely out of provincial funds, so that no part of the cost will fall on the municipalities. The amounts being provided in this way exceed by many times the current rate of expenditure of the municipalities for relief purposes and they will, therefore, permit the municipalities to expand their works programs or deal with other matters of importance to them without increasing their tax rates. The municipalities and school boards have also been assisted by a special grant of \$4 per pupil in elementary and secondary schools.

You have also given your approval to the largest provincial budget for education ever passed in this Legislature. School grants, including the special supplementary per pupil grant, and payments to universities and institutions of higher learning approved at this Session, total over \$87 million. With appropriations for all educational purposes, the Province's contribution totals over \$102 million.

The Teachers' Superannuation Fund has been strengthened. In addition, you have extended the full advantages of the 1954 amendment to The Teachers' Superannuation Act to teachers who had retired on pension before that amendment came into effect. You have also authorized an allowance of \$25 per month to be paid to the widow of each teacher who died on pension, or while on the teaching service, before the 1949 amendment to the Act came into effect. This allowance was dated back to April 1, 1954.

You have made provision for a start on the erection of additional accommodation for the Ryerson Institute of Technology, the Lake Head Junior College and the Ontario Schools for the Deaf and Blind. An increased appropriation has been made to provide more bursaries for deserving students. In these and other ways, the principle of equality of educational opportunity throughout the Province is being made a living reality.

You have again given recognition to the needs of the municipalities. Both the conditional and per capita unconditional grants have been increased substantially. A fiscal system has been brought into operation under which, on the average, \$1 out of every \$3 that a municipality spends is provincial revenue, and

were it not for provincial assistance to municipalities, the aggregate municipal tax levy would be 50 per cent higher than it is.

Legislation affecting municipalities has been enacted to keep pace with their growth and development. Both The Municipal Act and The Assessment Act have been amended, and the powers of Council have been strengthened and broadened in a number of ways.

You have approved the establishment of a system of local civil defence under which the Federal-Provincial contribution will represent 75 per cent of the cost of each municipality's approved expenditure for this purpose.

The legislative and financial measures instituted by the Government of Ontario in partnership with the Government of Canada are giving support to housing activity, particularly with respect to rental and owner-occupied housing of low and moderate cost. The present volume of dwelling units under construction assures another record year of construction activity.

You have passed The Rehabilitation Services Act to integrate the various rehabilitation services rendered by several departments. It will make possible the provision of rehabilitation services for the civilian handicapped, among whom are those who are not eligible for restoration benefits under Workmen's Compensation or War Veterans' legislation. Under these new measures, the physically handicapped will be able to obtain all necessary treatment and training to the end that they may be restored to gainful employment.

You have enacted The Indian Welfare Services Act in keeping with the policy of the Government of affording full services of citizenship to the Indian members of our population. This Act extends mothers' allowances to Indians on the same basis as to other citizens and authorizes agreements to be made with the Government of Canada respecting child welfare services, Homes for the Aged facilities and rehabilitation services for Indian residents. It further implements recommendations made last year by the Select Committee on Civil Liberties and the Rights of Indians in Ontario.

You have authorized a broadening of The Mothers' Allowances Act. An amendment to The Deserted Wives' and Children's Maintenance Act, passed at this Session, is designed to prevent deserting husbands from avoiding maintaining their wives and children by making appeal or taking other protracted court proceedings.

You have revised The Homes for the Aged Act to clarify its purpose and facilitate its administration. A new principle of major importance has been adopted by making provision for special home care in private residences to persons eligible for admission to a Home for the Aged.

The Disabled Persons' Allowances Act was passed to replace The Disabled Persons' Allowances Act, 1952, which pioneered allowances for permanently and totally disabled persons. The new Act will enable the Government of Canada and the Government of Ontario to share expenditures for this purpose equally. Amendments were also made to The Blind Persons' Allowances Act reducing the eligibility age to eighteen and increasing permissible income.

In the field of health, you have approved many important measures, notably assistance in the form of special grants to all our hospitals and provisions for increased research and treatment with respect to cancer, heart ailments, poliomyelitis, RH factor in pregnancy and maternal and child health programs. The Alcoholism Research Foundation has been given extended educational powers.

In agriculture, there has been enacted an important measure amending The Farm Products Marketing Act to give farmers a direct and equal voice with buyers in the marketing of their own produce. The Ontario Telephone Development Corporation was granted extended powers which will give fresh impetus to the extension and improvement of telephone service in the rural parts of the Province. Funds have also been provided to carry on a full-scale program of rural electric power extensions.

During the Session, the Interim Report of the Committee of Inquiry into the Economics of the Gold Mining Industry of Ontario was tabled for your study and consideration.

The important amendments to The Mining Act involve changes in the provisions covering the staking and recording of claims. The recent unprecedented prospecting activity, attending important discoveries of new deposits of base metals and uranium, has resulted in the staking of new mining claims to the highest level in the history of the Province.

The Department of Mines, in cooperation with the Department of Agriculture, assisted by advisors from the Ontario College of Agriculture, will make a special study of the effect of sulphur fumes on farm crops and vegetation in the Sudbury district during the coming summer.

You have approved legislation to safeguard our forestry and game and fish resources. Amendments have been made to The Lakes and Rivers Improvement Act, The Fish Inspection Act, The Forest Fires Prevention Act, The Public Lands Act and The Game and Fish Act. Progress has been made to ensure the preservation of existing Provincial parks in their true natural state and to provide for the establishment of new parks throughout the Province. The program of operating forest management units under which the financing of roads is placed on a self-liquidating basis is being carried forward.

You have brought up to date the Province's planning, conservation and housing measures by the complete revision of The Planning Act. It has been brought into line with the latest planning procedures and will permit communities and planning boards more flexibility of operation. In its revised form, the Act permits each community to establish the type of organization and program best suited to its own particular needs. The Conservation Authorities Act has been amended to facilitate the establishment and organization of conservation authorities.

The regional development program initiated last year is well under way. It is anticipated that associations in all nine regions of the Province will shortly be operating in partnership with the Province.

Legislation has been passed transferring the work of the Ontario Research Council to the Ontario Research Foundation in order that the research activities of the universities and the Foundation may be more closely integrated.

An amendment to The Jurors Act has been passed, which will strengthen and increase the efficiency of the Jury System in Civil cases as well as reduce costs. Grand Juries are reduced from thirteen to seven. This will come into force after complementary legislation is passed by the Parliament of Canada.

You have reduced the general rate of amusement tax by 20 per cent, raised the tax exemption on the admission price to places of amusement or entertainment to 25 cents, and exempted from tax all admissions of patrons of purely theatrical and musical performances by Canadian performers under Canadian management.

Exemption from Security Transfer Tax has been extended to the bonds and debentures of Ontario municipalities and school boards. Municipalities may now issue sinking fund debentures which will assist them in their financing and enable them to borrow on more favourable terms.

Many other Bills have been given your consideration and approval. Among these are amendments to The Municipality of Metropolitan Toronto Act, 1953, The Workmen's Compensation Act, the Trench Excavators Protection Act, 1954, The Coroners Act, The County Judges Act, The Ontario Fuel Board Act, 1954, The Ontario Food Terminal Act, The Insurance Act, The Juvenile and Family Courts Act, 1954, The Matrimonial Causes Act, The Registry Act, The Gasoline Tax Act and The Gas Handling Act.

Appreciation is expressed to all members of the committees of the Assembly. In recent years, the work of these committees has been extended. Their value is fully proven by the understanding engendered at their meetings and the many recommendations they have submitted that have been adopted.

Consideration has been given by the several committees of the House to the means of increasing the supply of teachers for elementary and secondary schools, The Farm Products Marketing Act and other subjects of agricultural interest, game and fish laws and regulations, the amendments to The Mining Act and The Mining Tax Act, matters relating to heart disease, air pollution and smoke control, cemeteries, Federal health grants, sex deviation, alcoholism and a variety of other subjects.

Three Select Committees of the House reported during the Session. These were: The Select Committees on Highways' Administration, on Highway Safety and on the Establishment of a System of Certificates of Title of Ownership of Motor Vehicles. Safety has been enhanced through amendments to The Highway Traffic Act. Many recommendations of The Select Committee on Highways' Administration have also been implemented, either before or since its report, through the adoption of a new system of competitive tendering for contracts, of pre-engineering, of post-engineering audit and of improvements in departmental organization. The report of The Select Committee on the Establishment of a System of Certificates of Title of Ownership of Motor Vehicles has resulted in the preparation of a Bill which will be given circulation to provide better opportunities for examination and study by all organizations and persons concerned.

This Committee has been re-appointed and it will continue its examination of this important and complex subject. Two other Select Committees, one on Toll Roads and the other on Air Pollution and Smoke Control, have also been appointed.

Satisfactory provision has been made for the financial requirements of the Government for the coming fiscal year, for which I thank the Honourable Members. It is gratifying that the Government has not found it necessary to increase or impose any new taxes and that, in fact, tax reductions have been approved. The credit standing of the Province is secure and its bonds are held in high public confidence, enabling the Government to meet its full borrowing requirements at low rates of interest.

In proroguing this Session, I pray that Divine Providence will guide and bless you.

The Provincial Secretary then said:—

*Mr. Speaker and Members of the Legislative Assembly:—*

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

## SECOND MEETING

Present: Messrs. Auld, Connell, Edwards, Elliott, Frost (Bracondale), Hall, Johnston (Simcoe Centre), Johnstone (Bruce), Jolley, Lavergne, Mackenzie, Manley, Murdoch, Noden, Pryde, Robson, Root, Sandercock, Scott, Ward.

In the absence of the chairman, Mr. Lyons, it was moved by Mr. Murdoch that Mr. Sandercock take the chair. The motion carried.

The Hon. C. E. Mapledoram, minister of lands and forests, explained that other duties had prevented his attendance at the first meeting of the committee and extended an official welcome to those present.

Briefs were presented to the committee by:

George Hambly, president, and H. Viv Sutton, secretary manager, of the Northern Ontario Outfitters' Association.

Prof. J. R. Dymond, of the Federation of Ontario Naturalists.

Mr. Oswald, of the Ontario Agricultural Council.

A. M. Lebano, of the Conservation Council of Stormont, Dundas and Glengarry.

Russell N. Wells and J. C. Dunham, of the Ompah Conservation Association.

Harry Markham, of the Hunting and Field Archers of Ontario.

The committee also heard Mr. Johnstone (Bruce), who recommended that the department of lands and forests set the season for deer hunting rather than request opinions of the county councils.

Mr. Johnstone also suggested an open season on moose hunting in the area south of the French River with provision made to limit one moose to each camp and a licence fee of \$25.

Considerable discussion was given to these and other proposals placed before the committee.

## THIRD MEETING

Present: Messrs. Allen (Middlesex South), Cathcart, Chaput, Connell, Dempsey, Doucett, Edwards, Elliott, Frost (Bracondale), Grummett, Janes, Johnston (Parry Sound), Johnston (Simcoe Centre), Johnstone (Bruce),

Lavergne, Letherby, Lyons, Mackenzie, Murdoch, Noden, Parry, Robson, Root, Sandercock, Ward.

With Mr. Lyons in the chair, the committee considered Bill 121, An Act to amend The Game and Fisheries Act. It was moved the Bill be reported as printed.

Mr. Lyons opened the meeting for general discussion.

Dr. C. H. D. Clarke of the wildlife management branch, spoke on reports on the ages of deer shot by hunters in Ontario in 1954 and on an inventory of moose.

Considerable discussion took place concerning many aspects of hunting and fishing regulations and wildlife management.

Two motions, arising out of discussion, were carried, as follows:

1. On motion of Mr. Janes, seconded by Mr. Johnston (Parry Sound), that the department arrange for a meeting of fishermen in the Georgian Bay-Parry Sound area to discuss the type of net fishing the local area considers most suitable in the area.
  2. On motion of Mr. Johnston (Parry Sound), seconded by Mr. Janes, that the department consider placing a ban on commercial fishing of yellow pickerel in Georgian Bay during the spawning season.

RECOMMENDATIONS	BY WHOM	PRESENT STATUS	COMMENTS
<p>1. Whereas the body of water, Lac Seul, Red Lake and Gullrock Lakes, for some years has been extensively angled, and fished commercially by net on an unrestricted basis, it now appears that an unbalanced condition between coarse and game fish exists, growing yearly.</p> <p>Therefore be it resolved that the Fish and Wildlife Division of the Department of Lands and Forests be asked to consider an early survey of fish in Lac Seul, Red Lake and Gullrock Lakes to determine if it be not wise to place net fishing there on a percentage quota basis to better balance the fish therein. This is hereby recommended in the interest of conservation.</p>	<p>N.O.O.A. (Northern Ontario Outfitters' Association—Mr. Mike Bates)</p>	<p>Commercial fishing has been going on for some time in these lakes but there has been a recent increase in sport fishing which has brought about the change in attitude toward the general fishing situation.</p>	<p>A statistical study of the catch, and a survey to determine population density, relative abundance of species and year class composition is desirable in order to determine the need for a quota system.</p> <p>The recommendation is being referred to the district office for study of the situation locally and recommendation for the most suitable action to meet conditions in these lakes.</p>
<p>2. Whereas commercial fishing is carried out in spawning waters of game fish; and</p>	<p>Northern Ontario Outfitters' Association</p>	<p>Commercial fishing as well as angling is prohibited for the protection of spawning fish in inland waters but is not prohibited with respect to spawning fish in the Great Lakes as that has been shown to be unnecessary. Section 69 of the Fishing Regulations of Ontario reads as follows: "No person shall set or place any net, other than a</p>	<p>If this Resolution referred to any specific water or area, it could be dealt with more effectively. As it is general, it does not mean much.</p>
<p>Whereas commercial fishermen's nets are strung across rivers where game fish have to travel during their spawning season; and</p>			
<p>Whereas such commercial fishing is contrary to all conservation principles,</p>			
<p>Therefore be it resolved that attention be brought to proper authorities and ask them that immediate action be taken to make a</p>			

better use of our natural fishing resources for the future.

3. Whereas the continued taking of Pike and Pickerel by commercial fishermen in the the North-eastern section of the Georgian Bay can only result in a dangerous depletion of these fish in this area,

Therefore be it resolved that the Department of Lands and Forests be again petitioned to have Pike and Pickerel declared as game fish to be taken only by angling.

4. Whereas it is acknowledged that commercial Fishing of our lakes is beneficial and

dip net, hoop-net or minow seine-net, in any river, stream or creek or within one thousand yards of the mouth thereof." This regulation is enforced.

Pike and Pickerel are defined as commercial fish under the Special Fishery Regulations for the Province of Ontario. Excepting the waters of the Great Lakes and their connecting waters, pike and pickerel are given a semi-game fish rating by protective regulations governing size limit, bag limit and closed season.

Northern Ontario Outfitters' Association

Northern Ontario Outfitters' Association

The present status is very close to that recommended

To classify pike and pickerel as game fish would be unfair to the commercial fishing interests in the Great Lakes and other large inland lakes where commercial fishing is conducted under licence. In the particular area referred to, statistics show that the greatest emphasis commercially is on the whitefish. The records show that commercial fishing has had no detectable influence on the pickerel population since 1906 to the present time, the catch during the last 2 years being exceeded only 3 times in the last 15 years.

Biological surveys are currently being carried

<p>necessary toward game fish conservation, but such fishing should be done under a program of continual surveyed supervision to help balance the fish population correctly,</p> <p>Therefore be it resolved that recommendations be made to the Fish and Wildlife Division of the Department of Lands and Forests that a program be started <i>now</i> to survey ALL lakes, angled and commercially fished, so that better quotas can be established to balance the fish population properly. Where coarse fish are over-balancing the waterway, commercial fishermen should be placed on a restricted poundage basis rather than on an unrestricted licence. Such quotas should be established only after a supervised survey is made. We believe that such a conservation measure is urgently needed at once.</p>	Northern Ontario Outfitters' Association	so far as funds and personnel are available to apply these principles.	out so far as funds and available staff permit. Comments under Resolution No. 1, applicable in this case also.
<p>5. Inasmuch as it is legal for all non-resident anglers to export one day's catch of fish when accompanied by the necessary angling licence shipping coupon; and Inasmuch as said anglers arrive by many different means of conveyance; and Inasmuch as in cases of people coming long distances by motor vehicle or airplane it is preferable to take their legal quota of fish with them; and</p>		The recommended action is considered desirable and the authority to establish licensed filleting plants is now being considered by the Legislative Assembly in a Bill, which is, at the present time, receiving second reading.	It is proposed to establish regulations under a Bill now being dealt with in the Legislature setting regulations to establish fees and conditions and the proper control for the filleting as recommended.

Inasmuch as in such circumstances it is greatly desirable to keep weight and space demands to a minimum; and

Inasmuch as filleted fish in a package with dry ice is the only feasible method of taking these fish along under the aforementioned circumstances,

Therefore be it resolved that we ask the Department of Lands and Forests to legalize the filleting of fish by locker plants.

6. Whereas there is now a tremendous number of undersize Pickerel and Bass being hooked in an effort to catch these fish according to the present legal size limits; and

Whereas through improper handling, mutilation, etc., the survival of these undersize fish when returned to the water is very doubtful; and

Whereas these undersize fish are quite edible, and a large percentage of anglers would be quite satisfied to take and use them to advantage, thereby saving a great deal of wasted fish,

Therefore be it resolved that the Department of Lands and Forests be requested to give serious consideration to the elimination of the present legal size limits for Pickerel, Bass and Pike, and further that it shall be illegal to have any live fish of these species in possession at any time.

Northern Ontario  
Outfitters' Association

There is, at the present time, a legal size limit for pickerel and bass with this limit being extended to pike in a few waters.

It is proposed to remove the length limit on pickerel taken by angling for 1955 on an experimental basis.

RECOMMENDATIONS	BY WHOM	PRESENT STATUS	COMMENTS
<p>7. CREEL CENSUS: Whereas the Ontario Federation of Anglers and Hunters are of the opinion that the recommendations of the Department of Lands and Forests Biologists should receive full support and co-operation we therefore go on record by way of resolution, as supporting all reasonable methods on the part of the Department of Lands and Forests to secure information from the public, such as the Creel Census, etc., deemed necessary.</p>	Ontario Federation of Anglers and Hunters. Mr. Viv. Sutton.	Creel Census being used by District Biologists with the voluntary assistance of tourists, operators and anglers.	Creel census is a method of getting information on fishing conditions. This gives the Department an accurate measure of the relative abundance and size of fish in the various lakes and streams, year after year. By means of this information management programmes can be established.
<p>8. LAKE LEVELS: Resolved that there be more care taken in maintaining a more even water level on lakes controlled by dams, for example, Lange Lake and Gough Lake in the Espanola area.</p>	Ontario Federation of Hunters and Anglers.	Lake levels are important in consideration of multiple use of waters including hydro and other power developments, cottage owner interests, recreation, fish, and in many cases, in the interest of fur producing animals. Constant attention is being given to this important subject by all those having to do with water used in its various forms.	This particular recommendation is being referred to the Sudbury District.

## 9. LIVE MINNOWS:

Whereas Shoefly Lake in Marshay and Beulah Townships, in the Sudbury District, now affords outstanding speckled Trout fishing to many anglers throughout Ontario; and

Whereas Trout fishing in numerous other lakes in this District has been ruined by the careless introduction of coarse and predatory species of fish through the use of live minnows;

Therefore be it resolved that the Department of Lands and Forests forbid fishing on Shoefly Lake with live minnows except where such minnows are originally taken from this lake. The use of live minnows for bait has resulted in the introduction of undesirable species of fish—particularly perch and chub—into speckled trout waters, causing these waters to be no longer suitable habitat for speckled trout;

Therefore be it resolved that the use of live minnows for bait for speckled trout be discontinued.

## 10. SPEARS AND NETS:

Be it resolved that spears and nets permissible under special fishery regulations, page 77, section 5, A. and B.—in daylight hours, in the months of April and May, be banned in Grey and Bruce Counties.

Ontario Federation of Anglers and Hunters.

At the present time the Special Fishery Regulations are being amended to prohibit the use of live bait for fishing in certain lakes which have been poisoned to remove undesirable fish and have been subsequently re-stocked with desirable species of fish.

It would be possible to provide an amendment prohibiting the use of live bait fish for angling in Shoefly Lake. This has been referred to the Sudbury District for their study and report.

Ontario Federation of Anglers and Hunters.

Residents may take coarse fish during April and May between sunrise and sunset without a licence by means of a spear or dip net of

specified dimensions, excepting in certain areas as set forth in the regulations, section 2 (3), page 75. The reference in the resolution is in error in its reference.

11. PICKEREL:

Be it resolved that the legal length of Yellow Pickerel be 15" in every section of the Province. As matters now stand there is one size limit for Yellow Pickerel in the Great Lakes and another size limit for the same fish taken in tributary waters flowing into the Great Lakes; for example, at Port Maitland Pier, in Lake Erie, fish taken off the lake side of the pier can legally be taken at 14", while fish taken off the other side of the pier, the Grand River side, must measure 15".

Ontario Federation of Anglers and Hunters.

Size limits on pickerel:  
in Lake Erie . . . . . 14"  
Other waters . . . . . 15"  
(Overall measurement)

Uniformity desirable, but the effect of this recommendation would be nullified by action proposed under recommendation six which suggests that size limits be removed from pickerel and other species.

12. SPECKLED TROUT:

Speckled Trout are particularly vulnerable to ice-fishing practices. Many lakes and ponds are subject to intensive fishing by this method, especially when these small lakes are covered with ice when the legal season opens before the winter break-up.

Be it resolved that angling for Speckled Trout be prohibited until such times as these

Under study for the most desirable action.

small lakes and ponds are free from ice. That fishing for Speckled Trout through the ice, even after the opening legal date, be prohibited, at the discretion of the District Forester, or Biologist.

13. Supports Resolution No. 9 of the Ontario Federation of Anglers and Hunters re banning the use of minnows unless the minnows are taken from the lake which is being fished. His recommendation is for Shoefly Lake. Suggests posting of signs on access roads to Shoefly Lake prohibiting use of minnows.

14. Referred to Resolution No. 3 of the Northern Ontario Outfitters' Association re declaring pike and pickerel as game fish. Also referred to Resolution No. 1 of the N.O.O.A. Before any changes in the regulations are made there should be a survey or inspection of the lake or streams to make a population assessment, etc.

A complete survey of the pickerel population in Georgian Bay waters would be the best way of determining what course future management of the pickerel fisheries should take.

RECOMMENDATIONS	BY WHOM	PRESENT STATUS	COMMENTS
<p>Bay in front of the District of Parry Sound.</p>	<p>(1) The Parry Sound Anglers and Hunters Club was formed several years ago in Parry Sound to organize and educate sportsmen with a view to conservation.</p>	<p>There has already been a considerable amount of study of the pickerel population through tagging of fish taken through commercial nets and through nets set by the Department in the open waters of the Bay, in the rivers and at the spawning beds. In 1949 some 595 pickerel were tagged; in 1951, 165 pickerel were tagged; in 1952, 469 pickerel were tagged. Of these tagged pickerel fairly representative samples have been recaptured in both commercial nets and by anglers, which indicates clearly the movement of the pickerel in Georgian Bay and up and down the rivers. Although the information is not final or complete, it does tend to indicate that there is very little, if any, effect of commercial fishing on the angling results, or vice versa. There is no closed season on pickerel taken by angling or by commercial fishing in the Great Lakes or connecting waters.</p>	
<p>(2) One of the most important objectives is the appeal for a ban on the commercial taking of pickerel from the waters of Georgian Bay in front of the District of Parry Sound, which forms a part of Lake Huron.</p>	<p>(3) Until a few years ago, these waters were famed for pickerel fishing, but such has been the increase in angling for sport, coupled with the drain on this species by commercial gill and pound netting that the Yellow Pickerel are fast disappearing from these vacationland waters.</p>	<p>(4) It has been estimated by the Parry Sound Chamber of Commerce that there has been a 35 per cent increase in the general tourist traffic in our area during the past five years and with the completion of the Trans-Canada Highway to Sudbury a further tremendous increase is expected.</p>	
<p>(5) It is, therefore, evident to even a casual observer that if pickerel continue in the dual capacity as a game and commercial fish they cannot last long.</p>	<p>(6) Now is the time to act and one of the first steps towards conserving this fine natural</p>		

resource is to give relief by banning the commercial netting which, incidentally, will be no hardship to fishermen to whom the pickerel is only incidental to the business of marketing whitefish and trout. To illustrate this point it is interesting to note that in 1953 in the whole of the Georgian Bay, only 92,000 pounds of pickerel were reported by all fishermen, as against 616,600 pounds of whitefish.

(7) Please give the pickerel a chance and as a direct consequence help us to promote the tourist industry which brings many millions of dollars in revenue into Ontario each year.

16. It has come to our attention that the Ontario Hunters and Anglers are going to ask your Department of Lands and Forests to enact legislation to prohibit commercial fishermen from catching and keeping pickerel.

May I say to you Gentlemen:

Commercial fishermen fish for a living, and in certain areas pickerel are the fish they catch. We pay a licence, have a great amount of money tied up in fishing equipment and are restricted to certain locations.

We do not even suggest to your Department any laws or restrictions regarding

Lake Huron and Georgian Bay Commercial Fishermen, Mr. T. H. McKenzie.

The following table, giving the catch of pickerel taken by commercial fishing from 1905 to the present time, shows that over this period of fifty years there has been almost a cyclic or regularly re-occurring nature to the abundance and scarcity of pickerel, with the present population, as indicated by the catch records, being at a good average population level.

Hunters and Anglers and we do not think they should suggest anything that would affect us in any way.

In comparison, may I say, the angler fishes entirely for pleasure. The Canadian angler does not pay a licence fee. He goes anywhere he wishes on the Great Lakes and has access to almost all streams.

The only restriction we would be in favour of is cessation of all pickerel fishing, commercial and angling alike, during spawning season.

Gentlemen, we most humbly request your most sincere consideration.

17. That the lakes in the North Frontenac area known to yield both Lake and Speckled Trout be closed to Lake Trout fishing from October 16th to March 31st next following.

As a result of trout lakes in South Frontenac being closed to "winter fishing" our Northern waters are fished extremely hard—our efforts towards better fishing and "increased Visitor Industry" is being abused to such an extent that unless the Department steps in, our efforts as well as those of the

Birch, Buck, Canoe, Devil, Desert, Eagle, and Loughborough Lakes closed by regulation from October 5th to February 28th of the following year.

Ompah Conservation Association,  
Mr. Russ Wells.

This a sound recommendation. The winter closure, as recommended, is for the particular purpose of protecting the Lake Trout against heavy winter angling, at which time the lake trout are very vulnerable to capture and can be taken in relatively large numbers.

Department, will have been in vain.

Speckled Trout are easily caught through the ice: very few are returned to the water.

The yield of Lake Trout is relatively low, averaging about one-half pound per acre per year, and so this species cannot withstand the fishing pressure of both summer and winter angling. The Department has been carrying on biological surveys in these waters, to determine the population density of lake trout as a basis for applying the best management practice. The Department favours the closure of these lakes to winter fishing but has encouraged and is well aware of the public demand of local residents for keeping them open during the winter.

18. A minimum length of 15" for Lake Trout; far too many small "lakers" are being taken.

Ompah Conservation Association.

No size limit when taken by angling.

The rate of growth and time of maturity of lake trout vary. In certain lakes, lake trout mature at 15" whereas in others at 18". Because of this variation a size limit

### 23. MINIMUM LEGAL PERCH LENGTH FOR LAKE ST. FRANCIS AREA:

Whereas at the present time we have a minimum legal length of 9 inches for perch in this area, plus a bag limit of 35 perch in one's possession at any time,

Whereas we as fish and game and conservation club members feel that this length is too severe after having given it the fair trial we promised Officials of the Department of Lands and Forests some two years ago,

Whereas we of this area feel that the perch is the most sought after and fished for of any of our local species of fish, and gives fishing pleasure to men, women and children, both the amateur and the professional fishermen,

Be it therefore resolved in fairness to all parties concerned we recommend that the length should be lowered from the present minimum of 9" to a minimum of 7".

Be it further resolved that the bag limit of 35 perch remain the same *and be enforced very strictly.*

Be it further resolved that the season and border description remain the same.

Lake Mindemoya—10 per day, regardless of length. St. Lawrence River and tributaries east of Robin-deaux Bay in Cornwall Township 35 per day, not less than 9". In other waters there is no set limit for perch.

As it is too late to change the size limit from 9" to 7" for 1955, it has been suggested that the size limit for perch from the St. Francis Lake area be removed for 1956.

This appears to be a desirable suggestion and if approved, the Department will recommend to the Federal Department of Fisheries that such action be authorized for the current year, at the same time recommending the establishment of a 7" limit as requested for 1956.

30. That the Department of Lands and Forests is hereby requested to maintain deer checking stations 24 hours a day throughout the entire season.

31. That we strongly object to the Department's recent action to abolish the use of metal seals provided with each deer licence, and the reverting to the old coupon method of tagging deer. The coupon method proved impractical in the past and that it defeated the purpose for which it was originally intended.

Ontario Federation of Anglers and Hunters.

The Department operates between seven and ten deer checking stations throughout the Province during the deer season.

Full time operation of a checking station is costly and is unnecessary either for enforcement or statistics. It is merely necessary that the part-time stations be so operated that hunters will not know whether or not there is a check.

Ontario Federation of Anglers and Hunters.

Seals were in use for several years but were not used in the 1954 hunting season.

Seals gave rise to many troubles in handling which seemed to outweigh the benefits. We are investigating now a more practical type of seal used by certain states.

Successful planting of tree seed is a highly technical and difficult undertaking and unless carried out with a good deal of knowledge of the requirements of the species of trees being planted and the desirability of having trees of that species growing in the particular area where they are planted, the chances of useful success are very slight and the high cost involved in preparing, packaging and distributing seeds, is not justified in the light of the doubtful success and cost.

Whereas it is a form of unwritten law whereby people of the northern part of the Province hunt and shoot on Sunday without too much interference by the Officials of the Department of Lands and Forests,

Whereas all other forms of recreation and sporting activities are held on Sundays in the Province of Ontario.

Be it therefore resolved that the present Government do all within their power to help the thousands of hunters by making it lawful to hunt and shoot on Sunday in our area.

At a recent meeting of the South Park Conservation Association and also at a recent meeting of our Hunt Club (Ochtwan Sporting Club, Established 1882), it was felt that it would not be in the best interests of sportsmen generally to open the season in the Southern portion of the Province for moose. This is for three reasons:

- (1) Very few of those in these two groups have ever seen a moose. They are not too plentiful in this area. We would like to see them.
- (2) Hunters are not well enough organized (some are merely groups from lumber camps and individuals in tents) to ensure a legal kill.
- (3) The aeroplane would likely account for wholesale slaughter.

80. Resolution to petition the Department of Lands and Forests, Wildlife Division, not to enact legislation prohibiting the use of dogs for hunting of deer in the Township of Dunganon.	Municipality of Dunganon, (Mr. C. Price, clerk) L'Amable, Ontario.		There is a very strong opinion opposing this suggestion supported by letters of protest from residents.
81. Request that the first section of the partridge season open on the 1st Saturday before Thanksgiving for the districts that are outlined in Schedule 1, 2, 4 in the 1954 season.	Greater Niagara Fish and Game Protective Association, Mr. E. R. Chase.		Suggestion noted.
82. An Archery Deer hunting season should be in order for Ontario. As an archery fan I would like to see such a season become an established custom. Archery is the partial solution for the deer which are increasing in numbers in Southern Ontario and are pests to farmers. Kindly give serious consideration to the idea that archery would help keep the deer in control and would provide safe, exciting sport to a growing number of archers.	Mr. Gordon McFarlane, Toronto. We are unanimous that all hawks and owls be protected, with the proviso that farmers and poultry raisers suffering continued depredations by birds of prey should be able to obtain a permit from the proper authority to kill the hawk or owl causing the depredation.	Thunder Bay Field Naturalists' Club, Miss J. Hebden, Secretary.		This appears to be desirable, and in fact is the case in most of North America at the present time.

We are of the opinion that an educational programme should be undertaken by the proper department to acquaint the farmers with the value of hawks and owls.

The purpose of township licensing is to give the townships power to re-strict and discriminate. This would have the opposite effect.

Townships in each county should be able to work together to meet these conditions.

This would do away with any value of township licences which now are supposed to be issued in principle at the wishes of property owners through their formal representatives, the township council.

102. We are hoping your Department will give consideration to an archery deer season. There are many strong reasons for such a move. We hope you will agree.

In 1954 over 110,000 rifle hunters took to the woods after deer. Such vast numbers of hunters, dogs and guns in the bush make it increasingly difficult for archers to hunt, safely and successfully. Archers still hunt, use no dogs, wear dull clothes and move quietly. Hunting like animals, they are too likely to be shot as such.

At first the number of archers will be small but everything has a beginning. Wisconsin and Michigan combined, started with 200 archers and now sell 50,000 licences to archers each year. This is a new source of revenue for conservation. It means two weeks or more additional revenue to guides, outfitters, and tourist camp operators. These people are in favour and said so at last year's fish and game committee meeting in Queen's Park.

The only objection anyone can think of is that gunhunters do not want their pet areas hunted over before opening day. The fear of "spooked" deer has been proven groundless in every state where deer seasons for archers have been opened. Another answer to this argument is that the Ontario Federation of Anglers and Hunters last month passed a resolution by a two-thirds majority

There appears to be an increasing interest in this subject.

112. We, of the Ontario Bird Dog and Conservation Association, would, in view of the limited success in expensive pheasant restocking programmes, recommend that the Government should bring about legislation that will permit the sale of pheasants, and the establishment of regulated commercial pheasant hunting after the pattern that has proven so successful in New York, Pennsylvania, Indiana, California, and many other pheasant habitat States.

Pheasants are as easily pen raised as chickens, but apparently few survive when released to fend for themselves without extra food and protection.

Such shooting preserves provide a "Put and Take" method of hunting that allows the sportsmen to harvest the pheasants that they pay to raise and leaves an excess that helps to populate the adjacent territory at no expense to the Government.

We feel that a programme of this nature would be very acceptable to all sportsmen, and would ask that it be given a lot of thought.

trappers' motions, at a recent meeting with a wide representation there was much discussion about the use of firearms during the summer months. It appears that licences are issued rather indiscriminately at Queen's Park, and many irresponsible persons there-by share legal right to carry .22 rifles. It is well known that many small fur-bearing animals as well as game birds are shot, and we would ask that the issuing of licences be stopped completely, except to necessary cases.

The Oba trappers, who are all guides, feel they should have some small part in deciding how many moose licences should be issued for hunters in that area.

In almost all of these areas, there were established hunting camps. These camps had paid lease rental, also taxes for many years, and there was an unwritten law, but well kept about the hunting areas of the different camps. The newcomers claimed all Crown lands were open to all, and in this of course they were right. But it has resulted in a lot of hard feeling, and also poor hunting. We have just learned that the Fish and Game Committee of the Legislature held open meetings on March 8th and 9th, and that at that time request was made for Sunday hunting to be made legal in the districts of Stormont, Dundas and Glengarry. Similar requests have, of course, been made in the last couple of years. It is difficult and undesirable for the people who share the views of the Lord's Day Alliance to have to appear before the Committee year by year in order to restate their objections, and this year we lacked information that the question would again be introduced. May we, therefore, request that through you our continuing objections again be made known to the committee. We know of no reason why the decisions of recent years should be changed, and we respectfully ask the Committee to reaffirm its former stand in this matter.

We have read that it has been argued that because many forms of recreation are permissible on Sunday, so also should hunting. We beg to point out that hunting is different from other forms of recreation in that it especially constitutes an annoyance and a danger on Sundays. Recommendation submitted by the Department of Lands and Forests re Wolves. During the last few years there has been an increasing interest in wolf control in the Province of Ontario. The Department has participated actively with the sportsmen, trappers, and with all others interested in wolf control and, to a lesser extent, also in the control of bears. In connection with wolf control, the wolf bounty has been maintained and in 1949 the bounty on pups was increased from \$5.00 to \$15.00. The payment of bounty to trappers and others turning in the necessary evidence has been speeded up. Snare wire has been provided by the Department for trappers who are interested in procuring it for the snaring of wolves, and special recognition by the Department has been given at trappers' meetings to those trappers who have been most successful in taking the wolves. Changes have been made in legislation to provide for hunting and shooting of wolves from vehicles, including automobiles, and aircraft under special permit, which permissive authority has been extended even to Crown Game Preserves under some conditions. A further amendment in the Wolf Bounty Act was made last year providing for the payment of bounty</p>

on the submission of the head of a wolf, so that it is no longer necessary to skin them, excepting in the organized areas of Southern Ontario.

The Department procured Plott hounds, which are recognized as being excellent hunters, and has used them in control of wolves by special hunts, and has done a considerable amount to stimulate the wolf hunting interest of sportsmen.

It has been shown very conclusively that the payment of wolf bounties does not affect the control of wolves and, in fact, may well be considered as being in the nature of providing an effective harvesting of the annual production which tends to keep the wolf population in a healthy condition.

At a meeting in Calgary in September, 1954, it was agreed by the responsible administrative authorities of Ontario, Manitoba, Saskatchewan, Alberta and British Columbia that wolf bounty was not effective in controlling wolves, and that it was a nuisance which should be done away with at the earliest possible date. A recommendation to all the participating Provinces came out of this meeting. Alberta and Saskatchewan have already done away with wolf bounty. The Governments of British Columbia and Manitoba have under consideration action for this purpose, and similar action is most desirable for the Province of Ontario.

The proposal for, and any action to do away with wolf bounty in Ontario should definitely be accompanied by an understanding that the monies expended in this way which are in the order of \$40,000 to \$60,000 a year should be maintained for work on the study of control of wolves.

The study of wolves should be in the direction of determining the populations in different parts of the Province, assessing the damage of wolves to domestic stock and deer, and to the improvement of control methods wherever wolf populations create a nuisance. The type of control which appears promising and which can be super-imposed upon that now in effect by trappers and sportsmen would consist in the appointment of Lands and Forests field staff of experienced wolf hunters, who would use such methods as trapping, snaring, hunting from aircraft, hunting with dogs where suitable, and in some areas, perhaps even by the use of poison.

A further responsibility of paid Departmental wolf hunters would be the training of farmers where wolves are a threat to farm stock, of trappers and sportsmen, so that there would be developed a body of men throughout the Province who were familiar with the most effective methods of destroying wolf populations.

This method of wolf control would have the advantage of concentrating control on those wolf packs or populations which were a menace to domestic stock or wild game, rather than the present ineffective approach through bounties of spreading the effort so diffusely across the Province that it is thoroughly ineffective in bringing about any control.
