FIRST DAY

TUESDAY, JANUARY 25<sup>TH</sup>, 1966

---

PROCLAMATION

(Great Seal of Ontario)

W. EARL ROWE

---

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith.

To Our Faithful the Members elected to serve in the Legislative Assembly of Our Province of Ontario and to every of you,—

GREETINGS :

A. A. WISHART, }  
*Attorney General* } **W**HEREAS it is expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Ontario, WE DO WILL that you and each of you and all others in this behalf interested, on Tuesday, the twenty-fifth day of January now next, at Our City of Toronto, personally be and appear for the actual Despatch of Business, to treat, act, do and conclude upon these things which, in Our Legislature for the Province of Ontario, by the Common Council of Our said Province, may by the favour of God be ordained.

HEREIN FAIL NOT.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS :

THE HONOURABLE WILLIAM EARL ROWE, A Member of Our Privy Council for Canada, Doctor of Laws, Doctor of Social Science,

LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this ninth day of December in the year of Our Lord one thousand nine hundred and sixty-five and in the fourteenth year of Our Reign.

BY COMMAND

JOHN YAREMKO,  
*Provincial Secretary.*

Tuesday, the twenty-fifth day of January, 1966, being the first day of the Fourth Session of the Twenty-seventh Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable W. Earl Rowe, P.C.(C), LL.D., D.Sc. Soc., Lieutenant Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:

*Mr. Speaker and Members of The Legislative Assembly of Ontario:*

On the opening of the Fourth Session of the 27th Parliament of Ontario, to each of you I express warm greetings and extend a sincere welcome.

Your duties are manifold. To your constituents you have obligations, and to all of the people of Ontario you have responsibilities, as you give earnest consideration to the legislative programme, to the policies of reform in keeping with today's changing tempo, and to the financial and other implications of the Budget and the Estimates of each Department, which will be presented during the current Session by my Government.

#### MUNICIPALITY OF METROPOLITAN TORONTO

Legislation will be introduced to further the federation of the municipalities in the Toronto Metropolitan area by bringing their structure and functions into line with modern practices and current needs.

## AGRICULTURE

*Crop Insurance*

There will be presented to Honourable Members a comprehensive crop insurance programme to meet the needs of Ontario farmers and Ontario production conditions. It will be predicated on an arrangement being effected with the Government of Canada for the amendment of Federal crop insurance legislation.

*Northern Ontario*

All agricultural programmes in the North will be co-ordinated. For this purpose a senior bilingual administrator will be appointed with headquarters at Sudbury.

Activities in Northern Ontario will be expanded. The necessary action will be taken to ensure adequate veterinary services for livestock and poultry owners. The New Liskeard Agricultural Farm will provide additional programmes for the training of young people and adults in the most recently developed techniques in agriculture suited to northern climatic conditions.

*Farm Labour*

My Government is deeply concerned that Ontario farmers are faced with a continued shortage of qualified agricultural labour. The pilot programme initiated last summer to deal with this problem will be expanded.

*Agricultural Rehabilitation and Development Act*

Regional Development Officers will be appointed to work with County Agricultural Representatives and other local County ARDA Committees. The ARDA Directorate staff will be strengthened by the appointment of senior officers experienced in rural economics and living conditions.

The consolidation of abandoned or uneconomic farm units will be continued in Northern Ontario. The programme, where applicable, will be extended to Eastern Ontario.

*Changes in Agriculture*

The farmer has become involved in both the service and marketing field, as a very substantial percentage of Ontario's agricultural products is now disposed of through Marketing Boards. In consequence of that trend, farmers are taking an increasing interest in the broad aspects of production and handling of food products through to the eventual consumer. The Department of Agriculture has fostered, and will continue to promote, closer co-operation between all such groups. In recognition of the increasing importance of the broad-based agricultural industry and food production, legislation will be introduced to provide that the Department of Agriculture be continued under the name "Department of Food and Agriculture".

## ADMINISTRATION OF JUSTICE, LAW AND ORDER

*Legal Aid*

A comprehensive plan for legal aid in Ontario, arising out of recommendations by the Joint Committee of the Attorney General and The Law Society of Upper Canada, will be brought before this House.

*Corporate and Securities Legislation*

Many of the recommendations of the Committee on Securities Legislation will be placed before you through amendments to The Securities Act and The Corporations Act. These amendments provide for fuller disclosure of the financial and trading affairs of companies seeking funds from the public, including the control of insider trading, and takeover bids. Such legislation will also reflect the consideration which has been given to the Report of the Commissioner appointed to investigate trading in the shares of Windfall Mines and Oils Limited and other related matters.

The provisions of The Loan and Trust Corporations Act also have been reviewed. Legislative proposals will be placed before you to provide more effective supervision in this area of our jurisdiction and economy.

In every possible way and to the extent of its jurisdictional powers, my Government will co-operate with the Federal authorities in any consultations which may be initiated for the improvement of corporate and securities legislation.

*Consumer Credit*

The Report of the Committee on Consumer Credit has provided the basis for a programme which will be placed before you for consideration.

*Personal Property Security*

The needs of the business community will be recognized in a proposed Bill dealing with personal property security which has been under consideration for many months by legal and commercial authorities. The importance of this detailed new approach to securing credit transactions will be a major step forward in facilitating the progress of our commercial ventures.

*Establishment of New Ministry*

The programmes introduced by the Government in recent years have been prominent in the administration of justice and law enforcement. These developing services, however, have placed an ever-increasing burden upon the Chief Law Officer of the Crown. In order that still greater consideration may be given by the Government to these responsibilities, you will be asked to consider recommendations for the establishment of a new Ministry to assume responsibility for certain areas outside of the administration of justice relating to the protection of the individual in financial and commercial affairs.

## PRODUCTIVITY AND GROWTH OF THE ECONOMY

*Regional Development and Growth*

My Government will put forward proposals and introduce legislation which will substantially expand the techniques and processes of dealing with present regional needs and planning for future regional growth.

*Economic Development*

To assist in the full economic development of all parts of the Province of Ontario, the Ontario Development Corporation will be established by legislation. The objectives of this Corporation will be to extend financial aid presently available under The Economic Development Loans Guarantee Act to provide capital financing to small businesses in those areas of the Province where mortgage or other capital funds are not readily available on reasonable terms and conditions.

*Immigration Programme*

To meet the need for industrial workers and other labour required by employers, an accelerated immigration programme will be promoted to attract new citizens with skills.

*Housing Programme*

Through the Ontario Housing Corporation, my Government has established a long-term programme to provide decent accommodation for the citizens of Ontario who cannot obtain the same within their means on the private market. Great strides have been made since the inception of this scheme and it will continue to be vigorously pursued.

## EDUCATION

Educational requirements continue to have first priority upon the resources of the Province.

In the elementary and secondary schools of Ontario, after some twenty years of phenomenal expansion of the school system, approximately one-and-three-quarter million pupils are now enrolled. During that time the general population of the Province increased by about 61 per cent, the elementary school enrolment by 137 per cent, the secondary by 218 per cent. The construction of new classrooms has kept pace with the increase, and the necessary supply of elementary and secondary school teachers continues to be recruited.

*Revision of School Programmes*

At the present time, attention is being given to revision of school programmes. Under the distinguished chairmanship of Justice Emmett Hall, a largely lay committee was appointed last April to report upon the aims and objectives in the schools of Ontario, both in general and with specific reference to the revision of courses from Kindergarten to Grade 6. In this new approach to meeting curricular problems the Committee is moving with energy and competence.

### *Special Language Classes*

Ontario continues to receive the largest portion of the immigrants to Canada, and they are making a great contribution to the economic and social development of our Province. To assist in the removal of any language barrier that the children of recent arrivals entering the schools might have, and to ensure that their talents are utilized to the maximum, certain financial assistance will be provided to school boards establishing special language classes.

### *Opportunities for Indian Children*

Improved educational opportunities for Indian children and youth have become a joint concern of both the Federal and Provincial Governments. At Moosonee the construction of an education and community centre to be used co-operatively by pupils of the public and separate schools, and by adults of the community, will effect a new partnership involving the Indian people and the Federal and Provincial Governments. The centre will provide educational services for the Indian and non-Indian population of the area. It will also include facilities for occupational training, pre-school classes, adult programmes, and recreation.

### *Larger Units to Promote Needs of Community*

Plans for the decentralization of education into areas throughout the Province will proceed. Five areas were established last year, covering half of the Province, and plans are under way for the completion of the project. County Consultative Committees have been at work during the past year and the results of their work may be seen in the establishment of larger units of administration. The movement to larger units able to plan for the educational needs of the whole community will be encouraged in order that the goal of equal educational opportunity for all may be more nearly realized.

### *Post-Secondary Programmes*

The plan to provide new programmes in post-secondary education through the establishment of Colleges of Applied Arts and Technology has stirred wide interest across the Province. The preparatory work has been done; the Council of Regents has been appointed. Substantial sums of money will be required to be voted in this House to implement this programme.

### *Important Studies*

Under the direction of the Ontario Library Association, in co-operation with the Department of Education, a survey of library services in Ontario is nearing completion. Another important study now being made is that of a committee dealing with short-term and long-term planning with respect to the education of elementary school teachers. On the receipt of the reports on both studies, the necessary action will be taken.

### UNIVERSITY AFFAIRS

Expansion of university facilities has continued at a rapid rate. It is noteworthy that all students who met the minimum admission requirements were enrolled in September, 1965. My Government will continue its substantial

support to our universities to enable them to provide for the increase of approximately 10,000 students each year through to 1970-71 when the total enrolment is expected to reach 100,000. In this connection my Government welcomes the interim measure on the part of the Federal Government to increase support to higher education, and reaffirms its desire and willingness to discuss with Federal authorities financial support for higher education.

## ENERGY AND RESOURCES MANAGEMENT

### *Ontario Energy Board*

To clarify and strengthen the authority of the Board in respect of the fixing of rates to be charged for natural gas, Honourable Members will be asked to approve an amendment to The Ontario Energy Board Act to require the Board's approval of any sale or merger of gas utility systems.

### *Inventory of Northern Waters*

The inventory of Northern Ontario waters that drain into Hudson Bay, initiated during 1965, will be actively undertaken this summer. The five river basins currently included in this programme are the Winisk, the Attawapiskat, the Albany, the Severn and the Moose. The aim of the project is to gather water resources data of value in assessing the current water needs in the area and the future water needs of Ontario. This long-term programme of investigation is being carried on in co-operation with the Department of Northern Affairs and National Resources of the Government of Canada.

### *Expansion of Water Pollution Control Studies*

The Ontario Water Resources Commission, in co-operation with the International Joint Commission, is conducting extensive pollution monitoring studies in the Great Lakes System. A preliminary start was made on this programme during the latter part of 1965 in the western end of Lake Erie. The importance of this work has justified its extension to cover the whole of Lake Erie, Lake Ontario, the St. Clair and Detroit Rivers, sections of Lake Huron and the connecting channels.

### *Industrial Waste Pollution Control*

The Commission will expand its activities in 1966 in the field of industrial waste pollution control.

### *Provincial Projects*

Amendments to The Ontario Water Resources Commission Act will be proposed to provide that the approval of the Commission be required prior to the establishment of sanitary landfill and refuse disposal sites. Other revisions will encompass the new financing policy for the construction of water and sewage facilities authorizing the Commission to provide the necessary works for municipalities. The cost of services so provided is to be recovered from water and sewage rates.

### *Energy Legislation*

There will be a revision of The Gasoline Handling Act.

## HEALTH

The increasing involvement of the Government in the varied field of health services has resulted in a complete reorganization of the Department of Health. Entering into this planning is the development of administrative patterns which are concerned with co-ordination, co-operation, long-range planning, and priorities and phasing.

### *Ontario Council of Health*

It is proposed to establish a senior advisory body on health matters. It will be known as the Ontario Council of Health and will undertake continuing studies, research and planning.

### *Air Pollution Control*

The programme of air pollution control will be expanded by bringing under regulation existing sources of pollution.

### *Nursing Homes—Legislation*

Legislation will provide for Government approval, licensing, and control of all Nursing Homes in Ontario to achieve uniformity in standards and safety.

### *Radiation Protection*

You will be asked to approve legislation to establish radiation protection services to be administered by the Department of Health.

### *The Healing Arts*

It is the purpose of my Government to establish a Committee to enquire into all matters pertaining to the preparation, education, training, licensing, control and disciplining of all those involved in the practice of the healing arts.

### *Medical Services Insurance Act*

The Medical Services Insurance Act will be expanded.

### *Boards of Review*

My Government will propose the establishment of Boards of Review, empowered to consider and rule on applications for release made by, or on behalf of, patients in mental hospitals.

## HIGHWAYS

*Ontario's Road Requirements*

The programme of the Department of Highways in 1966 will be geared to anticipate and to meet rapidly-developing changes in the road requirements of the Province. The Department's scheduling of work will continue to ensure the maximum improvement in the level of service rendered by Ontario's road network, in which the King's Highway mileage and municipal roads and streets complement each other.

*The Counties*

With the co-operation of the Counties, the road needs studies of these jurisdictions are now completed. This will enable the Department to achieve a more equitable distribution of direct aid through a broadened development road programme, and to provide for more effective integration of all road systems of the Province.

*St. Clair Parkway*

An important piece of legislation arises out of the work of a committee established over a year ago composed of officials of Lambton County, the City of Sarnia, the Town of Wallaceburg and others interested in preserving the scenic beauty and developing the recreational resources bordering the St. Clair River. You will be asked to approve an Act to establish the St. Clair Parkway Commission.

## LABOUR

In the past three years virtually all legislation administered by the Department of Labour in the areas of training, safety, labour standards and labour relations has been thoroughly reviewed to bring it into line with present-day requirements.

*Legislation*

There will be laid before Honourable Members, however, several important new enactments.

Proposals will be made concerning certain provisions of The Hours of Work and Vacations with Pay Act to bring them into line with modern community standards.

*The Older Worker*

The House will be asked to approve a special programme, to be administered by the Ontario Human Rights Commission, designed to remove barriers and enlarge opportunities for persons in the older-worker category.

### *On-the-Job Training Programme*

Honourable Members, you will be asked to approve the expansion of the on-the-job training programme launched by the Department of Labour in co-operation with industry, labour, and agencies of Government. Acceptance of the programme has been outstanding and it has demonstrated the highest degree of effectiveness, with several thousand persons being trained in trades or occupations on the job.

### LANDS AND FORESTS

#### *Forest Regeneration*

Under The Crown Timber Act, the Minister of Lands and Forests may enter into an agreement with a licensee for the protection and maintenance of the productivity of the licensed area. Redoubled efforts have been made to reach agreement with all the major licence-holders in the Province whereby forest regeneration will take place at such a rate as to assure continuous yields. As a consequence of discussions and meetings recently held with the larger licence-holders, formal agreements with them are in process of being executed.

Tree planting on a major scale will this year be supplemented in several districts by tubed seedling programmes. This should result in a very substantial increase in the number of trees planted. By other recognized methods of regeneration, including aerial seeding, still greater progress in forest regeneration will occur in 1966.

A new Act will be introduced respecting private forestry. It will provide for Government assistance in regeneration and stand improvement of private lands through agreement with the owners of the lands.

#### *Northern Indians in the Forest Protection Service*

The policy of the Department of Lands and Forests for training our northern Indian citizens in forest protection and management is expanding rapidly and in 1966 will be continued particularly in the further development of standby fire crews. A force of 300 Indians was maintained during the 1965 season. In the past three years 890 Indians have completed a 10-day training programme to qualify as "certified fire-fighters". Approximately 1,000 Indians were employed in tree-planting last year.

#### *Junior Rangers—Bilingual Experiment*

Last summer, at a camp at Racine Lake in the Chapleau District, the Department designated as Junior Rangers 12 English-speaking youths from Ontario with some knowledge of French, and 12 French-speaking youths from several points in Quebec Province with similar knowledge of English. This first bilingual experiment in the Ranger programme was so successful that it will be extended.

#### *Legislation*

Amendments will be proposed to The Public Lands Act, The Crown Timber Act, The Game and Fish Act, The Provincial Land Tax Act, and The Provincial Parks Act.

Proposals will be laid before the House to amend The Algoma Central and Hudson Bay Railway Company Act.

#### PROGRESS IN MINING

The value of Ontario's mineral production in 1965 exceeded that of any previous year as new mines came into production. The interest in prospecting and exploration activity continued at a high level, stimulated by the programme of geological surveys and geological reports through which information was provided, by the Department of Mines, on the geological structure and mineral-bearing potential of the Province.

An area of some 20,000 square miles in Northeastern Ontario, containing few rock exposures and difficult of access, appears to have considerable merit because of proximity to an important mining area. This will be one of the many areas to be examined geologically this year.

#### MUNICIPAL AFFAIRS

Legislation affecting municipal administration will be introduced to amend The Municipal Act, The Assessment Act, and certain other Acts, having regard to the important recommendations of The Select Committee on The Municipal Act and Other Related Acts.

You will also be asked to approve a Bill introducing a new concept in municipal government. This legislation will establish a Development Board as a Municipal Corporation to provide services in Moosonee and other northern areas so that the needs of these communities may be met.

#### CITIZENSHIP PROGRAMME

The Citizenship Division of the Department of the Provincial Secretary and Citizenship will continue its programme for the successful integration of immigrants into the life of Ontario. Field staff will be provided for the area outside of Metropolitan Toronto. You will be asked to approve the extension of the highly successful and expanding summer school programme, embracing language and citizenship training for adult newcomers, and the training of persons to teach a second language.

#### PUBLIC WELFARE

##### *Bed Construction Grants for Charitable Institutions*

The Charitable Institutions Act will be amended to authorize the Department of Public Welfare to share capital costs on the basis of \$5,000 per bed, in place of the present grant of \$2,500 per bed.

##### *Broader Welfare Services*

You will be asked to approve the enactment of a comprehensive Welfare Act. This legislation will consolidate and extend the present benefits of Old Age Assistance, Disabled Persons' and Blind Persons' Allowances, on which many of the present restrictions will be eliminated.

### *Financial Support for Rest Home Construction*

An amendment to The Homes for the Aged Act will be submitted, giving authority to the municipalities of Ontario to construct Rest Homes and to receive financial support from the Provincial Government. The Rest Homes will serve adult persons of any age who require long-term care and a measure of nursing services.

### *Programme Concerning Older Citizens*

You will be asked to approve the establishment of a new branch of the Department of Public Welfare, to be known as the Office on Aging. This branch will concern itself with the general social conditions, and treatment, of our older citizens.

## REFORM INSTITUTIONS

### *Progressive Measures*

The Department of Reform Institutions will continue its progress in the reorganization of correctional services, and Members of the Legislature will be asked to support the establishment, development and maintenance of a number of varied programmes and institutions.

Further emphasis will be placed upon the continuance of the policy of reducing the size of larger institutions, and of diversifying programmes in all localities of the Province. Training centres will be established in association with all reform institutions. Forestry camp activities will be enlarged.

A Trades and Industries Advisory Committee will be established to evaluate the existing vocational training, and industrial and farm production in reform institutions. The principal purpose is to up-date these areas of the rehabilitation programmes to bring them in line with present-day methods and needs in industry and the labour market.

A new 60-bed dormitory for the treatment of offenders with alcoholism and drug addiction problems will be constructed. An extension and consolidation will be made of the in-patient forensic clinic for the treatment of sex deviates, which was opened in 1965.

A new staff school will be constructed for the more effective use of available professional and clinical personnel in the training and orientation of the staffs of the Department of Reform Institutions and the new Regional Detention Centres.

To keep pace with the changing pattern of institutions and to enable men with indeterminate sentences to take advantage of training programmes in institutions in their own locality, the Parole and Rehabilitation Service will be extended. Honourable Members will be asked to approve amendments to The Parole Act.

Additional agreements will be signed to establish Regional Detention Centres to replace local jails in many areas of the Province.

Construction of the new Rehabilitation Centre for Women will commence this year.

#### TOURISM

There will be an expanded programme to increase and encourage tourism in our Province. Your approval of such programme, and the appropriation therefor of additional expenditures, will be sought.

The consolidation of The Tourist Establishment Act and The Tourism and Information Act will be proposed. Such legislation will include provision for the licensing of privately-operated information centres and a system of rate filing for tourist establishments.

#### *Centennial Centre of Science and Technology*

Work will continue on the construction of The Ontario Centennial Centre of Science and Technology. Present plans are to have the first two of five phases completed in 1967 for Centennial Year celebrations.

It is anticipated that, by 1970, over one-and-a-half million people will visit the Centre each year.

Particular attention is being paid to the educational aspects of the Centre. It is expected that approximately 3,000 school children per day will visit the Centre by 1975.

#### TRANSPORTATION IN ONTARIO

##### *Need for Improved Driving Habits*

The motor vehicle population explosion in Ontario in the last 20 years has quadrupled the number of automobiles, in use on the highways, to a total of 2,500,000. During the same period the number of licensed drivers has increased to almost three million who drove more than 22 billion miles in 1965.

As a consequence of this explosive growth in road transportation, there has been a corresponding increase in traffic accidents. The Department of Transport has developed a vigorous programme aimed at persuading the motorist to improve his driving habits and attitudes.

Important new measures in the interest of safety will be introduced in the coming year.

##### *Compulsory Motor Vehicle Inspection*

Compulsory motor vehicle inspection, introduced last spring, will operate at 80 locations this year, fully utilizing the Department's enlarged fleet of mobile safety check units.

##### *High School Driver Instruction*

The rapidly growing interest in driver instruction in the high schools is indicated with the course being now provided in almost 150 schools. The driver training programme is endorsed by the Departments of Education and Transport.

### *Metropolitan Toronto and Region Transportation Study*

The report on the examination of the transportation problems of our provincial capital and its environs, being conducted by the Metropolitan Toronto and Region Transportation Study, is scheduled for completion this year. The first concrete product of the study was a recommendation that a lakeshore rail service for commuters be introduced on a trial basis. This was approved and is now being implemented with starting date planned for early in 1967.

### MANPOWER RESOURCES

In recent years there have developed in Ontario many practical forms of educational training to improve the skill of our workers.

Continuing study has been given to aspects of the problems of training and retraining to meet the demands for skilled manpower.

It is my Government's intention to provide a formal means of co-ordinating the development of manpower resources in all Departments of Government, particularly the Departments of Education, Labour, Economics and Development, and Agriculture. Through this co-ordinated effort, and in collaboration with other Government agencies, active progress will be made during the ensuing year to initiate new programmes relating to manpower development.

### REDISTRIBUTION

Legislation respecting electoral boundaries of the Legislative Assembly will be laid before Honourable Members following receipt of the final report of the Redistribution Commission.

### CULTURAL EXCHANGES

My Government intends to join in discussions with the Government of Quebec for arrangements respecting cultural exchanges. Visits of a cultural nature with personal contact should lead to deeper mutual understanding.

The many streams of culture in our country have lent a special character to our national life. All Canadians have become much more conscious than formerly of the richness of this unique quality of our society.

It is desirable that a greater degree of awareness be brought about amongst the people of all Provinces in the realm of their cultural achievements and traditions, and thus enhance a spirit of national unity and goodwill.

### OTHER LEGISLATION

During the Session, further legislative measures and proposals will be placed before you for your consideration and approval.

May Divine Providence guide you in your deliberations.

His Honour was then pleased to retire.

PRAYERS

3.40 O'CLOCK P.M.

Mr. Speaker then reported,

That, to prevent mistakes, he had obtained a copy of His Honour's Speech, which he would read. (Reading dispensed with.)

The following Bill was introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 1, An Act to amend The Conveyancing and Law of Property Act.  
*Mr. Wishart.*

On motion by Mr. Robarts, seconded by Mr. Allan,

*Ordered,* That the Speech of the Honourable the Lieutenant Governor to this House be taken into consideration tomorrow.

Mr. Speaker informed the House of a vacancy that had occurred in the Membership of the House since the last Session by reason of the death of the late Leo Troy, Member for the Electoral District of Nipissing.

The House then adjourned at 3.55 p.m.

## SECOND DAY

WEDNESDAY, JANUARY 26TH, 1966

PRAYERS

3 O'CLOCK P.M.

Mr. Speaker informed the House,

That the Clerk had received from the Chief Election Officer and laid upon the Table the following certificate of a by-election held since the last Session of the House:

ELECTORAL DISTRICT OF BRACONDALE—George Ben.

## PROVINCE OF ONTARIO

This is to certify that, in view of a Writ of Election dated the Fifth day of August, 1965, issued by the Honourable the Lieutenant Governor of the Province of Ontario, and addressed to Mrs. E. L. Antler, Returning Officer for the Electoral District of Bracondale, for the election of a Member to represent the said Electoral District of Bracondale in the Legislative Assembly of this Province in the room of Joseph M. Gould, Esquire, who, since his election as representative of the said Electoral District of Bracondale, hath departed this life, George Ben, Esquire, has been returned as duly elected as appears by the Return of the said Writ of Election, dated the Twenty-fourth day of September, 1965, which is now lodged of record in my office.

RODERICK LEWIS,  
Chief Election Officer.

Toronto, January 26th, 1966.

---

On motion by Mr. Robarts, the House resolved itself into a Committee to enable Mr. Reilly to express his thanks from the Chair.

---

Mr. Singer moved, seconded by Mr. Dunlop,

That this House advise the Minister of Justice at Ottawa of its grave concern relating to the distribution of hate literature and racist propaganda in the Province of Ontario, and that the Government of Canada be urged that amendments be made to the Criminal Code of Canada which will make it an offence

for anyone to advocate or promote genocide, or for anyone to communicate statements in any public place which incite hatred or contempt against any identifiable group, where such incitement is likely to lead to a breach of the peace, unless such statements communicated were true or relevant to any subject of public interest and on reasonable grounds were believed to be true.

Mr. Dunlop moved, seconded by Mr. Singer,

That, as, in the opinion of this House, the dissemination of statements or matter disparaging to individuals or groups by reason of race, national origin, colour or religion, is a matter of grave concern, and as it has been long held to be contrary to public policy to promote feelings of ill-will and hostility between different classes of Her Majesty's subjects, the Ministry should make further and appropriate representations to the Government of Canada advocating the enactment of amendments to the Criminal Code and other legislation designed to eliminate those acts offensive to the dignity of Canadian society without the erosion of any of the liberties of the subject so long recognized as fundamental to our concept of democracy; and that the following amendments to the Criminal Code be included among the specific legislative proposals to be made as part of these representations:

- (1) Everyone who publishes or circulates or causes to be published or circulated, orally or in writing, any matter intended or calculated to incite violence or provoke disorder against any class of persons, or against any person as a member of any class in Canada, is guilty of an indictable offence and is liable to punishment.
- (2) Everyone who publishes, orally or in writing, a statement, tale, news or matter that he knows or ought to know is likely to cause injury or mischief to the public interest, is guilty of an indictable offence and is liable to punishment, save that no person shall be convicted of an offence under this section by reason only of having published statements relating to controversial, social, economic, political or religious beliefs or opinions, unless he advocates or incites disorder or the use of violence, or intends primarily to promote hatred or hostility against a racial, national, religious or ethnic group or the members thereof.
- (3)
  - (i) Everyone who, with intent to destroy, in whole or in part, a national, ethnic, racial or religious group as such, kills a member of the group, is guilty of an indictable offence and is subject to such penalty as the Criminal Code provides for murder; and
  - (ii) Everyone who, with intent to destroy, in whole or in part, a national, ethnic, racial or religious group as such, causes bodily or mental harm to a member or members of the group, or deliberately inflicts on the group or any of its members conditions of life calculated to bring about its physical destruction, in whole or in part, is guilty of an indictable offence and is liable to punishment.

By unanimous consent of the House the discussion proceeded on the two motions together, and after some time,

On motion by Mr. Trotter, it was,

*Ordered*, That the debate be adjourned.

---

The House then adjourned at 1.15 p.m.

By Mr. Thrasher, the Petition of the Board of Trustees of the Roman Catholic Separate Schools for the City of Windsor praying that an Act may pass vesting certain lands and premises in it in fee simple.

---

On motion by Mr. White, seconded by Mr. Harris,

*Ordered*, That Mr. Beckett be substituted for Mr. Harris on the Standing Committee on Municipal Affairs.

---

The following Bill was introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 15, An Act to amend The Election Act. *Mr. Bryden*.

---

The Order of the Day for resuming the Adjourned Debate on the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The Debate was resumed, and, after some time,

Mr. Thompson moved, seconded by Mr. Oliver,

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

“But that this House:—

1. Regrets the failure of the Government to protect the rights of the individual citizen of the Province of Ontario against the ever-growing encroachment of the bureaucratic process.
2. Regrets that the Government has declined to co-operate with the Federal Government in the field of medical care and has failed to provide a universal, comprehensive medical plan for all citizens of Ontario.
3. Regrets the failure of the Government to provide equal educational opportunity for all citizens of Ontario.
4. Deplores the attitude of the Government towards the rights of those who contribute to the greatness of the Province through their labour and deprives them of using the collective bargaining process to improve their pension rights.
5. Regrets the failure of the Government to ensure that the farmer receives his equitable share of the fruits of the abundant economy.
6. Regrets the Government's neglect in having failed to take the necessary steps to bring into existence effective regional government.
7. Deplores the neglect of the Government toward the pressing needs of the northern part of our Province and its failure to take positive action to develop a varied economy in that important area.
8. Recommends that, in view of the failure of the Fulton-Favreau formula for the amendment of the British North America Act to win universal acceptance in Canada, the Government place in the hands of an all-party Committee the problem of devising a scheme of repatriation and amendment of our constitution, which Committee would avail itself of the assistance of the Ontario Advisory Committee.”

On motion by Mr. MacDonald,

*Ordered*, That the Debate be adjourned.

The House then adjourned at 5.45 p.m.

Mr. MacDonald moved, seconded by Mr. Freeman, That the motion be amended by striking out all the words after the word "That" and substituting the following:

"this House believes that the needs of the people of Ontario cannot be adequately met by mere tinkering with The Medical Services Insurance Act, 1965, and proposes, as an alternative, that that Act be replaced by legislation which will:

- (a) facilitate the establishment at the earliest possible opportunity of a joint federal-provincial plan qualifying for federal assistance on the terms already announced by the federal government;
- (b) contain additional, interim provisions to provide protection for lower income groups pending the coming into force of a joint plan."

Despite objection that the amendment was Out of Order on the ground that it dealt with matters already determined on second reading, Mr. Speaker decided to permit the amendment to go to a vote, and, after some time,

Mr. Speaker put the Question, Shall the words "the Bill be now read the third time" stand, and the Question having been decided in the affirmative on the following division:—

Bill Pr3, An Act respecting The Board of Education of the Township of Toronto.

THE SUPREME COURT OF ONTARIO (Crest) Osgoode Hall, Toronto 1,  
February 28th, 1966.

THE HON. MR. JUSTICE MACKAY,  
THE HON. MR. JUSTICE KELLY.

Roderick Lewis, Esq., Q.C.,  
Clerk of the Legislative Assembly,  
Parliament Buildings,  
Toronto, Ontario.

Re : Bill Pr3,  
15 Elizabeth II, 1966.

Dear Sir:

The undersigned, as Commissioners of Estate Bills, as provided by The Legislative Assembly Act, R.S.O. 1960, Chapter 208, Section 57, having had the above-noted Bill referred to us as such Commissioners, now beg to report thereon.

We have examined the petition and the draft Bill; there have also been submitted to us:

- (a) photostatic copies of the original Grant from the Crown, dated the 9th day of November, 1833, whereby the Crown granted to William Thompson, James McGrath, and Joseph Gardiner, the east and west halves of Lot 3 in the First Concession west of Hurontario Street in the Township of Toronto, in trust for the endowment, support and maintenance of a school in the Township of Toronto, reserving one acre thereof for the purpose of a burial ground;
- (b) photostatic copy of an Order of the Court of Chancery, dated the 6th day of February, 1864, whereby the said lands were vested in the Trustees of School Section No. 12, Township of Toronto, County of Peel;
- (c) evidence that the said lands became vested successively in the Board of Trustees of the Public School Board of the Township School Area of Toronto No. 1 and the Board of Education for the Township of Toronto, by Statutes of Ontario, 11-12 Eliz. II, Chapter 190, Section 4;
- (d) letter from the Office of the Deputy Minister of Health, dated June 5th, 1964, evidencing that the Department of Health has no interest in the matter of the said lands on account of the fact that the cemetery referred to was not established, and disclaims any interest in the lands for cemetery purposes.

We recommend that the preamble to the said Bill be amended by adding thereto the appropriate recitals to indicate the successive ownership of the lands, as indicated above.

With the amendments set out in this report, we are of the opinion the provisions of the Bill are proper for carrying into effect its purposes and that it is reasonable the said Bill should pass into law.

The Bill duly signed by the Commissioners and a copy of the petition for the same are accordingly returned herewith, together with the material to which we have referred.

Yours truly,

F. G. MACKAY, J.A.,  
A. KELLY, J.A.,  
*Commissioners of Estate Bills.*

*Ordered,* That the Bill, together with the report of the Commissioners of Estate Bills thereon, be referred to the Standing Committee on Private Bills.

Copy of the resolution of the Town of Tilbury, passed 24th January, 1966

Copy of affidavit of Malcolm A. Derbyshire

Mr. Derbyshire, Secretary-Treasurer of The Tilbury Public School Board, Mr. H. Herman, a member of the said School Board, Mr. K. B. Rodger, Clerk-Treasurer of the Town of Tilbury, and Mr. J. Young, Mayor of the Town of Tilbury, were also present at the hearing.

The following are the amendments to the Bill we suggest:

Sections 2, 3 and 4 as they appear in the draft Bill be deleted and that in their place be substituted the following:

2. The trustees of the William J. Miller Trust shall be those members of the Public School Board of the area of which the Town of Tilbury forms a part, who are from time to time elected as members of such Board by the public school ratepayers of the Town of Tilbury.
3. Notwithstanding the provisions of By-law 2397 of the County of Kent, which came into force on the 1st day of January, 1966, establishing an enlarged school area which includes the Town of Tilbury, the assets of the William J. Miller Trust are hereby vested in the said trustees of the William J. Miller Trust as herein provided for, and the Board of Trustees of the public school area created by such By-law 2397 is authorized and directed to transfer, convey and pay over the said assets to the said Trustees of the William J. Miller Trust.
4. All moneys both capital and income coming into the hands of the said trustees from the assets of the William J. Miller Trust situate in the United States of America set out in the Schedule hereto shall become and be in the hands of the said trustees, capital of the said trust.
5. The trustees may postpone the realization of any of the assets in the said Schedule set out which are not investments authorized by the laws of Ontario for the investment of trust funds; save as aforesaid all funds of the William J. Miller Trust shall be invested and reinvested in investments authorized by the laws of Ontario for the investment of trust funds.

The first three lines of Section 5 shall be deleted and the following substituted therefor:

“The net income in the hands of the Trustees shall be paid and applied as follows:”

A new section shall be inserted between sections 6 and 7:

“The trustees are authorized to appoint a secretary-treasurer and to engage the services of agents, accountants, investment counsel, solicitors and such other professional assistants as may be reasonably required in the administration of the trust and may pay proper remuneration for such services out of the income of the trust fund.”

Your Commissioners have dealt with the Bill on its merits and the form relating thereto. We would point out that the Petitioner, The Tilbury Public School Board, by virtue of the creation of an enlarged public school area, pursuant to The Public Schools Act and By-law 2397 of the County of Kent, ceased to exist on the 1st day of January, 1966, and that all its assets became vested in the Board of the new enlarged public school area. We have not felt called upon to express any opinion as to the effect on the proposed Bill of the facts recited in this paragraph.

We are of the opinion that the intent of the Bill is a reasonable one and that the terms of it are proper for carrying into effect its purposes and that it is reasonable that the said Bill should pass into law.

The Bill duly signed by the Commissioners and a copy of the petition for the same, together with the documents referred to herein, are accordingly returned herewith.

Yours truly,

A. KELLY, J.A.,  
*Commissioners of Estate Bills.*

Bill Pr28, An Act respecting the Estate of William A. Dickieson.

THE SUPREME COURT OF ONTARIO (Crest) Osgoode Hall, Toronto 1,  
March 1st, 1966.

THE HON. MR. JUSTICE MACKAY,  
THE HON. MR. JUSTICE KELLY.

Roderick Lewis, Esq., Q.C.,  
Clerk of the Legislative Assembly,  
Parliament Buildings,  
Toronto 2, Ontario.

Re : Bill Pr28,  
15 Elizabeth II, 1966.

Dear Sir:

The undersigned as Commissioners of Estate Bills, as provided by The Legislative Assembly Act, R.S.O. 1960, Chapter 208, Section 57, having had the above-noted Bill referred to us as Commissioners, now beg to report thereon.

Your Commissioners appointed the 1st day of March at 10 a.m. to consider the said petition and Bill and gave notice thereof to the applicant. On the hearing Mr. Dingwall, Q.C., appeared for the petitioners and submitted the following documents:

Petition of Fanny Eliza Dickieson and Viola Belle Gray

Certified copy of Letters Probate of the Last Will and Testament of William A. Dickieson

Affidavit of Ralph Bowles Newell

Affidavit of Viola Belle Gray

Duplicate original copy of agreement dated 3rd June, 1965, between Fanny Eliza Dickieson, Albert E. Gray, Viola Belle Gray, Edward Gray, Muriel King, Gordon Gray, Walter Gray, Phyllis Girling, Annadale Gray and Glen Gray.

Mr. S. M. McBride, Q.C., appeared on behalf of the Official Guardian representing the infants and unborn children who have or may have an interest in the estate of the testator. Mr. McBride opposed the passage of the Bill.

From the documents submitted and the representation made by the above-named solicitors, it appears that William A. Dickieson, late of the Township of Eramosa, in the County of Wellington, died on 17th October, 1937, having first made his Last Will and Testament. The main asset of the estate was a farm. In respect of this farm he left a life interest to his widow and after her death a life interest to his daughter and provided that on the daughter's death the farm be sold and the proceeds thereof together with the residue of the estate be divided among the children of the said daughter with a provision that, if any of her children died in her life-time, the children of such child were to take the parent's share.

The widow, Fanny Eliza Dickieson, together with the daughter Viola Belle Gray and the daughter's husband have continued since the date of the death of the said testator to reside on and operate the said farm.

The effect of the said Bill Pr28 would be to defeat the provisions of the Will made by the testator with respect to his estate and to vest the title to the farm in the daughter Viola Belle Gray and her husband Albert E. Gray as joint tenants. It would divest the interest of the testator's widow in the estate including her right of encroachment on capital and it would extinguish the interest of the grandchildren of the testator and their issue in the estate.

It is alleged that the farm is in disrepair. There are available other procedures whereby there can be accomplished the object of raising money for the repair of the farm without resorting to the complete destruction of the intention of the testator as to the disposition of his estate as set out in his Will.

We recommend in the strongest terms that this Bill do not pass into law.

The Bill duly signed by the Commissioners and a copy of the petition for the same, together with the documents referred to herein, are accordingly returned herewith.

Yours truly,

F. G. MACKAY, J.A.,  
A. KELLY, J.A.,

The Debate continued and, after some time, the amendment to the amendment, as follows:—

That the amendment to the motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following:—

And, above all, this House regrets governmental failure to achieve even the basic prerequisites necessary to eliminate poverty and to prevent its recurrence in succeeding generations and, to remedy this neglect, advocates that:

1. Government policy should henceforth be oriented towards a guaranteed basic income program, dynamic regional economic and social development, and a comprehensive manpower program based in the first instance on a skills inventory.
2. As an immediate, interim measure, old age security and related allowances should be increased to \$100 per month.

having been put, was lost on the following Division:—

The amendment to the motion as follows:—

That the motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

“But that this House:—

1. Regrets the failure of the Government to protect the rights of the individual citizen of the Province of Ontario against the ever-growing encroachment of the bureaucratic process.
2. Regrets that the Government has declined to co-operate with the Federal Government in the field of medical care and has failed to provide a universal, comprehensive medical plan for all citizens of Ontario.
3. Regrets the failure of the Government to provide equal educational opportunity for all citizens of Ontario.
4. Deplores the attitude of the Government towards the rights of those who contribute to the greatness of the Province through their labour and deprives them of using the collective bargaining process to improve their pension rights.
5. Regrets the failure of the Government to ensure that the farmer receives his equitable share of the fruits of the abundant economy.
6. Regrets the Government's neglect in having failed to take the necessary steps to bring into existence effective regional government.
7. Deplores the neglect of the Government toward the pressing needs of the northern part of our Province and its failure to take positive action to develop a varied economy in that important area.
8. Recommends that, in view of the failure of the Fulton-Favreau formula for the amendment of the British North America Act to win universal acceptance in Canada, the Government place in the hands of an all-party Committee the problem of devising a scheme of repatriation and amendment of our constitution, which Committee would avail itself of the assistance of the Ontario Advisory Committee.”

having been put, was lost on the same Division.

The main motion, having then been put, was carried on the same vote reversed—59 to 24,

And it was,

*Resolved*, That an humble Address be presented to the Honourable the Lieutenant Governor of the Province of Ontario, as follows:—

## FORTY-SEVENTH DAY

WEDNESDAY, MARCH 30TH, 1966

PRAYERS

3.00 O'CLOCK P.M.

The following Bill was introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 86, An Act to amend The Loan and Trust Corporations Act. *Mr. Wishart.*

The following Sessional Paper was Tabled:—

Annual Report of the Office of the Registrar General, Department of the Provincial Secretary and Citizenship, for the fiscal year ending December 31, 1965 (*No. 18*).

Mr. Speaker addressed the House as follows:—

Yesterday I was asked to give the House a definitive statement of the *sub judice* rule as it applies in this House, with particular reference to a recent ruling by the Chairman of the Committee of the Whole House.

At the outset, I remind the House that by Rule 1 (b) the Rules and precedents of this Legislature are binding on us and that we go elsewhere for guidance only when a point is not covered by our own Rules and precedents. However, in this instance, I find no great variance in the rules and decisions followed in this House, and in the House of Commons of Canada and of the United Kingdom.

Briefly, then, I find the situation to be this:—

A criminal action is *sub judice* from charge to final disposition by the Courts, and no reference to the case may be made by way of motion, question, including a supplementary question, or in debate.

A civil action is subject to the rule in the same way from the time it is set down for trial until disposed of, and, in case of appeal, from the time of notice of appeal to disposition thereof, subject, however, to this most important proviso, which I cannot stress too strongly: that is, that absolute discretion must be left with the Speaker to intervene at any time to stop any debate, even if the action has not been set down, if, in his opinion, there is a real danger of prejudice, nor can he permit any discussion of his ruling if he so intervenes. Relevant to this, I call to the attention of the House that a bad practice has grown up, that of debating the Speaker's or Chairman's rulings under the guise of points of order.

In all jurisdictions which have come to my notice, it is absolutely clear that there can be no discussion, question or motion relating to matters referred to Royal Commissions or referred by the House itself to tribunals or select committees of the House, until the report is made. In this connection, I should point out that whether or not the statement or question would be in contempt of court, if said outside the House, is entirely irrelevant. This is a question of law which the Speaker cannot be expected to be able to decide, nor has he any need to so decide.

I come now to the type of body with which the Chairman was concerned in his ruling to which I referred earlier. In the case of these lesser bodies, it has always been left entirely in the discretion of the Chair. The rule has consistently been held to apply to such lesser bodies but only if the Chair feels that there is a real danger of prejudice. The precedents indicate that the Chair has consistently exercised this discretion in a very generous way so as not to unduly curtail debate, and, in my opinion, this is how the discretion should be exercised in order to give flexibility. Nevertheless, the discretion should remain where it is, that is, with the Chair.

Applying this to the specific case, the Chairman was entirely within his rights to exercise his discretion in the way he did. However, I have suggested to him that, in the interests of free discussion, he might moderate his ruling to allow the discussion of salaries to be pursued during the consideration of the Estimates of the various Departments of Government, so long as no civil servant or group of civil servants is prejudiced with respect to the arbitration of salaries.

---

The Debate on the motion for Second Reading of Bill 66, The Securities Act, 1966, was resumed, and after some time,

The motion was declared to be carried and the Bill read the second time and referred to the Committee on Legal Bills and Labour.

The following Bills were read the second time and referred to the Committee on Legal Bills and Labour:—

Bill 64, An Act to amend The Labour Relations Act.

Bill 65, An Act to amend The Corporations Act.

Bill 67, An Act to amend The Corporations Information Act.

## ONE HUNDRED AND TENTH DAY

FRIDAY, JULY 8TH, 1966

PRAYERS

10.30 O'CLOCK A.M.

On motion by Mr. Robarts, seconded by Mr. Rowntree,

*Ordered*, That the Select Committees on Youth, Aging, Corporation Law and Conservation Authorities be respectively reappointed with the same powers and duties as heretofore, and that changes in the membership of the said Committees be as follows:

Mr. Price to be added to the Committee on Corporation Law; Mr. Gisborn to replace Mr. MacDonald on the Committee on Conservation Authorities; Mr. Brown to be retired from the Committee on Youth, and Mr. Smith to replace the late Mr. Troy on the Committee on Youth.

---

On motion by Mr. Robarts, seconded by Mr. Wishart,

*Ordered*, That a Select Committee of this House be appointed to review the terms and provisions of the election laws and any related Acts and regulations, in the light of modern needs, practices and concepts, for the proper representation of those qualified to vote, and to report its findings and recommendations to this Assembly.

And that the Select Committee have authority to sit during the interval between Sessions and have full power and authority to employ counsel and such other personnel as may be deemed advisable and to call for persons, papers and things and to examine witnesses under oath, and the Assembly doth command and compel attendance before the said Select Committee of such persons and the production of such papers and things as the Committee may deem necessary for any of its proceedings and deliberations, for which purpose the Honourable the Speaker may issue his warrant or warrants.

And the said Committee to consist of thirteen members to be composed as follows:—

*Mr. Bales* (Chairman), *Messrs. Beckett, Brown, Bryden, Demers, Gordon, Hodgson* (Victoria), *Letherby, Mackenzie, Noden, Rollins, Singer and Sopha*.

---

Answers to Questions Nos. 3 and 27 were Tabled (*See Hansard*).

---

The Order of the Day for resuming the adjourned Debate on the amendment to the motion that Mr. Speaker do now leave the Chair and that the House resolve itself into the Committee on Ways and Means, having been read,

The Debate was resumed and, after some time, the amendment,

That the motion "that Mr. Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means" be amended by adding thereto the following words:—

But this House:

1. Regrets that the Government by its many years of neglect, inefficiency, misleading accounting and lack of plans has brought Ontario to the position where further taxation has been forced upon it.
2. Further regrets the decision of the Government to levy oppressive, unplanned taxation that will greatly increase the heavy burden already carried by the wage earner and farmer.
3. Further regrets that the Government has failed to include action on the realignment of municipal taxing obligations in order to relieve the already over-burdened home owner from oppressive and inequitable and increasing local taxes.

having been put, was lost on the following Division:—

MAY IT PLEASE YOUR HONOUR:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1966, and the 31st day of March, 1967."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

“The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name.”

---

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

*Mr. Speaker and Members of The Legislative Assembly of Ontario:*

As this Fourth Session of the 27th Parliament concludes its labours, I voice appreciation of your zeal and energy in dealing with the heavy legislative programme initiated by the Executive Council of Ontario for your consideration.

During this Session, of the 37 Private Bills also presented, 30 received Royal Assent. Notice was given of 34 Private Members' Resolutions of which 32 were debated at length. 195 Public Bills were introduced. Government measures accounted for 170 and, of these, 165 received Royal Assent.

Originating in 19 Departments, the legislation to which you have given careful consideration and approval has covered a wide range of subject and scope. The extensive nature and importance of these enactments arose from their involvement with the health, well-being and rights, as well as the responsibilities, of the people of this Province. They also encompassed many phases of governmental administration and activity.

The importance, in our economy, of the industry of Agriculture was emphasized beyond all doubt in the Bills introduced affecting the agricultural community and in the Ministerial statements made during the House proceedings. The Crop Insurance Act, 1966 was an important advance in providing protection for the farmer against perils to crops. My Government will continue to represent the interests of the members of the farming community of Ontario, and to preserve all rights to which they are entitled, both in the area of Provincial and Federal jurisdiction, and to that end will continue to co-operate with the appropriate authorities in arriving at solutions for problems of mutual concern.

The Government's planned programme for the improvement of many areas within the community has resulted in the passage of a number of Bills, chief among which are The Consumer Protection Act, 1966, The Securities Act, 1966, The Legal Aid Act, 1966, The Public Finance Companies' Investment Act, 1966, and The Corporations Amendment Act, 1966.

Regional Development Councils have been established, and the Ontario Development Corporation was created, by legislation which was approved.

In the field of education, necessary amendments to several Acts were made. The Public Libraries Act was completely reorganized with new provisions for regional library development and the appointment of an Ontario Provincial Library Council.

The Ontario Education Capital Aid Corporation has been established as part of a programme to assure to municipalities and school boards a dependable source of funds at a moderate rate of interest through the purchase of their debentures issued for the construction of schools. These funds are also available through The Ontario Universities Capital Aid Corporation for the purchase of debentures from universities.

Provision was made for tightened control by the Ontario Water Resources Commission over water management in Ontario.

Legislation of far-reaching importance in various fields of health was enacted during this Session. The Medical Services Insurance Plan is now in operation. The first groups to benefit were those in receipt of Social Assistance who have been deriving the benefits of the programme since April 1st.

This year is observed the 50th anniversary of the proclamation in 1916 of the Act which established the Department of Highways in Ontario. One year later an Act was passed to provide for a Provincial highway system which has expanded far beyond the dreams of the planners of those days and has promoted the growth and development of Ontario, the Province of Opportunity.

In the area of labour relations, extensive revisions have been made to existing legislation to meet current needs. Section 89 of The Labour Relations Act was repealed.

The passage of The Woodlands Improvement Act, 1966 will permit entering into agreements with the owners of private lands for the purpose of conducting forestry management, and was one of the highlights of the legislative proposals of the Department of Lands and Forests. The introduction of the tubed-seedling programme will be of additional strength to the reforestation programme of the Province.

The Report of the Select Committee on Mining has been presented to the Legislature, and my Ministers are reviewing the recommendations which will be of assistance to the industry and the Department of Mines.

Important and far-reaching amendments to The Municipality of Metropolitan Toronto Act were introduced and adopted.

Amendments to The Municipal Act and The Ontario Municipal Employees Retirement System Act have provided the municipalities and their employees with the opportunity for improvements in pensions and other fringe benefits.

In its citizenship programme, the Department of the Provincial Secretary and Citizenship this year is also extending to Hamilton its summer course for teachers in teaching English as a second language combined with a concentrated programme of evening language classes for newcomers. Special features of the language training programme in Hamilton are daytime classes for shift workers. Experimental projects will also be conducted for immigrant children in co-operation with the Toronto and Hamilton School Boards.

Public Welfare legislation has been submitted and approved in anticipation of meshing with Federal enactments. The Province will thus share in a wide range of welfare services and allow the development of welfare programmes which will permit more flexibility in their operations. Under these Acts the municipalities will also benefit from increased financial aid to serve the cases for which they are responsible.

Amendments have been made to The Parole Act and to certain other Acts within the purview of the Department of Reform Institutions to bring such legislation into conformity with practices in other Departments.

Legislation was passed to provide for the registration of rates by tourist establishment operators at the time of application for a licence. Provision has also been made for the establishment of regulations which would require information centres to be licensed by the Department of Tourism and Information.

Amendments to The Highway Traffic Act have provided for the setting of safety standards for tires and for the requirement of safety devices on motor vehicles.

Legislation has been submitted and approved concerning members of the Public Service of Ontario whose dedication of purpose, and efficient service, merit our recognition and commendation, which I now extend.

With the affairs of the Province in excellent condition, and its sound financial position having had the thorough scrutiny of Honourable Members, approval has been given to provide Supply to defray the expenditures for the requirements of the Departments of the Government as in their Estimates submitted. In Her Majesty's name I thank you.

May Divine Providence guide and protect you.

The Provincial Secretary then said:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

RESOLUTIONS	BY WHOM	COMMENTS
<p>1. DUCK BLINDS: Whereas debris along the beach from blinds left out after the close of the hunting season; and</p> <p>Whereas steel stakes and posts holding blinds left in the lake bottom are dangerous to boats, water skiers and swimmers.</p>	<p>The Ontario Federation of Anglers and Hunters</p>	<p>Many duck blinds are constructed on land or water which is not within provincial jurisdiction; however, this proposal will be given further study.</p>
<p>Therefore let it be resolved that the Department of Lands and Forests include in Section 84, subsection 4 of The Game and Fish Act, 1961-62 and the Ontario Fishery Regulations, 1964, the regulating of blinds used for the purpose of hunting migratory birds.</p>		
<p>2. EARLIER CLOSING OF YELLOW PIKE PERCH SEASON TO NON-RESIDENT (FOREIGN) ANGLERS IN THE DISTRICT OF RAINY RIVER:</p>		
<p>Whereas fishing success has dropped in the past years; and</p>	<p>The Ontario Federation of Anglers and Hunters</p>	<p>Walleye populations have been subject to wide variations over the past half-century as indicated by commercial fishing statistics. We have initiated studies on Lake of the Woods and also on Rainy Lake to assess the basis for these fluctuations there. The fluctuations do not appear to be related to harvests by anglers or commercial fishermen.</p>
<p>Whereas the number of non-resident (foreign) anglers has shown a great increase after the 15th of February when the Yellow Pike Perch season is closed in their inland waters to protect spawning; and</p>		
<p>Whereas the Department of Lands and Forests has placed its faith in natural spawning.</p>		<p>We have never had fishing seasons which discriminated against a particular group.</p>
<p>Therefore let it be resolved that the Department of Lands and Forests change the closing date of the</p>		

Yellow Pike Perch season in the District of Rainy River to non-resident (foreign) anglers to the 15th day of February each year, until the population of this species increases so as to afford a longer season.

### 3. FISHING BY BOW AND ARROW:

Whereas the Ontario Fishery Regulations, 1964, Schedule 10, paragraph 7, permit the taking of carp and suckers by bow and arrow in the parts of Lake St. Lawrence and Lake St. Francis in the Counties of Dundas, Stormont and Glengarry; and

Whereas carp, suckers, gar and dogfish are in competition with sports fish in counties adjoining the above area; and

Whereas carp are very detrimental to the habitat of waterfowl by their destruction of aquatic plants; and

Whereas the above area is the only area in Eastern Ontario where fishing is now permitted by bow and arrow.

Therefore let it be resolved that the open season for the taking of carp and suckers by bow and arrow described in Schedule 10, paragraph 7, of The Ontario Fishery Regulations, 1964, be extended to include the waters in the counties of Frontenac, Lennox and Addington, Leeds, Grenville and Hastings, and also be amended to include the taking of gar and dogfish.

The Ontario  
Federation of Anglers  
and Hunters

We have no objections to extending bow and arrow seasons to areas where carp, especially, are readily available. We will look at the fishery in the areas suggested to determine if there will be a minimum of conflict with other species. It may be that only specified waters should be included.

<p>4. USE OF FOREIGN AIRCRAFT TO TRANSPORT HUNTERS AND FISHERMEN INTO ONTARIO:</p> <p>Whereas the Air Transport Board continues to grant licences to foreign-based chartered airlines to operate non-scheduled service in Northwestern Ontario; and</p> <p>Whereas the above aircraft are being used to transport hunters and fishermen into Northwestern Ontario to hunt big game and fish; and</p> <p>Whereas the above foreign aircraft are not, under present regulations, required to check out before leaving Canada, thus making it impossible for our Department of Lands and Forests Conservation Officers to control poaching of our fish and big game herds in the Province of Ontario; and</p> <p>Whereas there are sufficient Canadian-owned aircraft and chartered airlines to take care of all foreign big game hunters and fishermen in the Province of Ontario, which can be readily used for this purpose and can be properly checked at their bases by Conservation Officers.</p> <p>Therefore let it be resolved that the Ontario Federation of Anglers and Hunters strenuously object to the Air Transport Board and the Department of Transport granting licences to foreign-based applicants to fly aircraft into Canada for hunting and fishing purposes.</p>	<p>The Ontario Federation of Anglers and Hunters</p>	<p>No comment.</p>

#### 5. ACCESS ROADS ON CROWN LANDS:

Whereas the forests of the province are producing a timber crop and a fish and wildlife crop; and

Whereas the utilization of both of these crops requires forest access roads; and

Whereas the majority of access roads on Crown lands have been built by the timber operators and as such come under their management and control; and

Whereas the use of these roads by the public to crop the fish and wildlife resources is not assured; and

Whereas the timber operators may be liable for damages to anyone using their forest access roads and as a result are reluctant to allow the use of their roads by the public; and

Whereas the proper management of the renewable natural resources of the province, including timber and fish and wildlife, requires that the management agency, namely, the Department of Lands and Forests, must have control over the utilization of the resources.

Therefore let it be resolved that the Department of Lands and Forests take over the management of all forest access roads on Crown lands and be responsible for contracts for maintenance and construction of these roads.

The Ontario Federation of Anglers and Hunters

The Department has the subject of timber access roads under constant review. In many cases, arrangements have been worked out for the use of these roads by fishing and hunting groups in the area. The problems in connection with the use of these roads go far beyond use for hunting and fishing; for example, mining and other industrial uses.

The Department will consider every case on its own merits.

## RESOLUTIONS

## BY WHOM

## COMMENTS

Be it further resolved that the public be allowed use of these access roads on Crown timber leases at such times as the operators are not actively engaged in hauling over the roads.

Be it further resolved that the Department of Lands and Forests initiate action to have these roads declared public roads under The Highway Traffic Act so that liability for damages can be assessed as on public highways.

Be it further resolved that some system of levies be worked out that will allow the costs of construction and maintenance of these roads to be charged back to the timber operators and the public who use the roads in harvesting the resources.

## 6. CONSERVATION OFFICERS:

Whereas the Conservation Officers of the Division of Fish and Wildlife of the Department of Lands and Forests are being called upon to do an increasing amount of public relations work with respect to the management of our fish and wildlife resources; and

Whereas this is in addition to the normal amount of enforcement work that these officers are expected to carry out in the interests of the protection of these resources; and

The Ontario  
Federation of Anglers  
and Hunters

It is possible to obtain additional Conservation Officer staff for new programs, i.e., Waterfowl Management Units, Hunter Safety Examiners, etc., but seldom to expand present services and programs.

Whereas it is proposed to make certain Conservation Officers in each Forestry District responsible for conducting the examination of candidates under the Hunter Safety Training Program; and

Whereas the Conservation Officers have recently been put on a shorter work week; and

Whereas day-in, day-out, around-the-clock vigilance that is required to protect our fish and wildlife resources and the enlarged public relations program require many more man-hours than the present complement of Conservation Officers can hope to accomplish.

Therefore let it be resolved that the Department of Lands and Forests be requested to take immediate steps to double the complement of Conservation Officers and that this be completed by the end of 1967.

#### 7. POLLUTION:

Whereas there is now considerable substantiated evidence of the detrimental effects from the so-called exotic chemicals, found in, and the basis of, many of our present-day insecticides, pesticides, herbicides, synthetic detergents and fertilizers; and

Whereas industrial and municipal wastes and sewage will continue to be a menace until the controls are more rigidly enforced; and

The Ontario Federation of Anglers and Hunters

The Ontario Water Resources Commission has the main jurisdiction on pollution. Co-operative arrangements have been recently made to include officers of the Department of Lands and Forests under Sec. 28b of the OWRC Act as agents of the Commission, which permits them to inspect and enforce such regulations as required.

## RESOLUTIONS

Whereas improper farming practices, which cause silting and subsequent waste of our valuable top soils, plus the damage done by the indiscriminate and hazardous use of pesticides and chemical fertilizers; and

Whereas the indiscriminate and wholesale spraying of herbicides, done not only by our government agencies, but by the municipalities, along roadsides and hydro-pole lines, not only cause a brown scar on our countryside but kill off much of our beneficial wildlife.

Therefore be it resolved that the Cabinet of the Province of Ontario give due consideration to the evidence at hand, some of which is hereinafter stated, and take immediate action to initiate the suggested legislation, in order to enable our Province to have a more positive control of existing pollution, and halt further pollution of our air, soil and waters. Also, to take the initiative in Canada in establishing a Federal Pollution Testing and Control Commission.

To establish a strong, independent, non-political Pollution Commission, incorporating it with our existing Water Resources Commission, one member being appointed from each of the Province's Forestry Districts. This Commission to control all areas of pollution, air, soil and water, industrial, municipal and domestic.

This Commission should be empowered to establish and enforce stringent regulations governing all types of pollution, and also be empowered to impose stiff penalties for any and all infractions.

The Commission should, at all times be in close liaison with the Ministers of the following branches of our Provincial Government for the stated reasons:—

- (1) The Department of Health—for the testing of existing and future marketable products which may endanger our health and welfare. Also for the effective control of domestic pollution.
- (2) The Department of Agriculture—for a sound educational program for farmers, to control pollution caused directly by improper farming methods.
- (3) The Department of Lands and Forests—for the control of all spraying, to ensure proper logging and pulp-cutting practices and reforestation procedures in order to help maintain our water tables and prevent the silting of our lakes and streams.
- (4) The Department of Mines—for the prevention of all pollution caused by mine and mill wastes.
- (5) The Attorney-General—for the collection of any fines for violations of the regulations, and otherwise aid in the proper enforcement of the said regulations to combat the pollution menace.
- (6) The Municipal Board—to assist the municipalities financially in the construction of proper sewage treatment plants.

- (7) The Department of Education—to establish scholarships for qualified but needy high school graduates, which will enable these students to carry on their studies in the fields of biology, biochemistry or any allied courses. REASONS FOR THE NEED OF THIS PROPOSED LEGISLATION  
 From THE FINANCIAL POST, August 13, 1960, on air pollution: "Anti-pollution laws are not strong enough. In Toronto, for instance, a violator can be fined only up to \$50.00 on the first offence, only up to \$100.00 on the second offence and only up to \$200.00 on the third and following offences. Manufacturers sometimes feel it is cheaper to pay the fine than obey the laws. In new York, offenders can be fined up to \$500.00 or imprisoned for six months, or both. In Los Angeles, the Air Pollution Authorities can shut down a plant after repeated offences. Canadian Air Pollution laws are not as stringent in their regulations as they are in many U.S. Cities."

From the Toronto Globe and Mail, December 13, 1962: "U.S. Surgeon General, Luther Terry, said today there is evidence that air pollution is linked to lung cancer and other respiratory diseases. Dr. Terry told the U.S. National Conference on Air Pollution that evidence has now accumulated, which makes it un-

mistakably clear that air pollution is associated with important respiratory diseases such as lung cancer, emphysema, asthma, and chronic bronchitis."

From the Associated Press, May 1964: "A U.S. Public Health Service Scientist said Tuesday the Pesticide Endrin had been found in every dead and dying fish examined after a massive fish kill in Louisiana. The testimony came from K. E. Biglane, a former aquatic biologist for the Louisiana Wildlife and Fisheries Commission."

From the Canadian Press, May 1964—"A. E. Berry, retired General Manager of the OWRC, says that, despite the current low lake levels, Ontario has plenty of water and the real problem is controlling pollution."

From the Canadian Press, November 13, 1964: "Dr. J. A. Vance, Chairman of the OWRC, said today one uranium mining company, now inactive, was responsible for radioactive pollution of waters in the Elliot Lake area. Dr. Vance said this company, which he would not name, was less co-operative than others in the area when *asked* by the OWRC to take adequate measures to contain dangerous ore tailings. A fault in the construction of a containment area led to the radioactive wastes reaching the waters of the Serpent River watershed, he said. A check of the annual reports of the OWRC showed that in 1959 it accused some mining companies of failing to supervise containment areas closely. The report said that because of this the threat of pollution was ever present."

## RESOLUTIONS

From a report of a survey made by the OWRC in 1964: "... That the waters of the Roberts River are polluted and void of aquatic life for four miles downstream from an iron ore mine and smelter, due to faulty settling and containment areas for the mine and mill wastes."

The above are only a few of the instances, showing the urgent need for an immediate change in our combat of pollution.

## 8. CRAPPIE LIMITED:

Whereas there is at present no limit of take on Crappie; and

Whereas the absence of a limit of take has depleted the Crappie in the Rainy Lake and Lake of the Woods areas; and

Whereas crappies are a much sought-after specie by visiting fishermen; and

Whereas the crappie is a valuable resource of the Province.

Therefore be it resolved that a limit of not more than 40 crappies per day, per person, be put into effect immediately in the Rainy Lake and Lake of the Woods areas.

North Ontario  
Tourist Outfitters'  
Association.

The crappie populations in Northwestern Ontario are characterized by wide fluctuations in year-class strength. This may be because they are near the limit of their distribution. In some years, large numbers of "jumbo" fish are available, and crappie angling for two months in the winter and in the spring becomes excellent.

There is no evidence to suggest crappies are being depleted. Continued interest by anglers will open up new areas not recognized for crappie fishing.

If evidence becomes available that crappies are over-exploited, a 40-per-day limit would hardly be effective in protecting the populations.

#### 9. SPECKLED TROUT SEASON:

Whereas the opening of the speckled trout season in Northern Ontario on or about February 27th creates additional pressure on a species of game fish which cannot stand this additional pressure without seriously damaging the population.

Therefore be it resolved that the opening date for the speckled trout season in Northern Ontario be put back to its former opening date of May 1st.

Northern Ontario  
Tourist Outfitters'  
Association.

Department field staff are maintaining a close check on winter angling activity throughout the province. To date, we have little evidence to indicate that the earlier season is harmful to the brook trout fishery.

The earlier season has provided for greater utilization of the resource which previously was not being adequately harvested by summer angling alone. This is particularly so in the more inaccessible waters which can be reached more easily by winter fishermen with snowmobiles. The winter fishery is providing for the more extensive use of hatchery-planted fish which are stocked mainly in the more accessible waters and which, for the most part, have been under-harvested in the past.

#### 10. STANDARD MARKING FOR ALL GILL NETS:

Whereas the tourist industry contributes a very large portion of the economy of the Province of Ontario; and

Whereas the tourist industry derives a large portion of this income from summer angling; and

Whereas summer anglers have no way of knowing how or what a gill net is marked with to indicate its position in the waters; and

Northern Ontario  
Tourist Outfitters'  
Association.

This matter is being reviewed with Lake of the Woods fishermen and tourist operators.

It is doubtful that one standard marker is feasible for the whole of Ontario, since the requirements for the Great Lakes, large lakes like Lake of the Woods, and small northern lakes are considerably different.

## RESOLUTIONS

Whereas many anglers have their lures and lines entangled in these nets, in many cases resulting in the loss of this equipment; and

Whereas this loss of equipment and lack of knowledge of the markings of these gill nets are causing a great deal of hard feelings between the summer angler and the commercial fishing industry.

Therefore be it resolved that the Department of Lands and Forests in co-operation with the Commercial Fishing Industry arrive at a standard marker to be placed at both ends of all nets. This marker to be a standard colour, size and shape, and that due publicity be given this marker in all publications put out by the Department for the information of the angling public and non-resident fishing licence buyers.

## 11. CONSERVATION OFFICERS:

Whereas, despite persistent appeals by all interested parties and the tourist industry in particular, there remains a very serious and continuing lack of conservation officers throughout Northern Ontario. Of the few officers we do have, it has been noted that morale and interest have, at times, in the recent past hit dangerously low points. Good officers have left their jobs in search of employment with more satisfactory compensation; and

Whereas the present educational and practical ex-

## COMMENTS

This problem is at present being tackled at a local level on Lake of the Woods. The commercial fishermen are agreeable, and the district is working with them to design a suitable marker.

perience requirements as laid down by the Department for new officers and for advancements in grade of present officers, though desirable, are not realistic when compared to the relative pay scales. This seems especially true now that these men officially have the status of Peace Officers with all the attendant responsibility; and

Whereas we believe that, if the Department is going to effectively compete in the labour market today in obtaining and holding good men with the qualifications desired, the compensation and benefits must be considerably higher. It should compare favourably with industry and other law enforcement bodies in Ontario. This applies also in holding the present staff.

Therefore be it resolved that the Department of Lands and Forests be requested to take action on the following points:—

- (1) Maintain the present requirements when hiring new men but allow an appropriate promotional body to promote men now within the Department when their experience, character, ability and integrity show that a promotion is due, even when they do not have all the formal education required.
- (2) Review the present pay scales with the intention of increasing pay for all grades to a level compatible with today's living costs and commensurate with the qualifications required in each grade.

This is currently under investigation and study.

Pay scales are under constant review. Qualifications have been raised with commensurate raise in pay scales.

RESOLUTIONS	BY WHOM	COMMENTS
(3) Embark on a hiring program that will obtain new conservation officers, and then provide more of these men throughout Northern Ontario.		Conservation Officers have been obtained from the ranks of other services within the Department as well as from the Ontario Forest Ranger School, Dorset. Qualified personnel of a suitable calibre who wish to become Conservation Officers are difficult to find.
12. FISHING AND HUNTING LICENCE FORMS:		
Whereas the issuance and recording of licence forms for both fishing and hunting licences require a great deal of time and effort on the part of the licence issuer.	Northern Ontario Tourist Outfitters' Association.	New systems and procedures are currently under study, and the system suggested or one like it will be given serious consideration.
Therefore be it resolved that the Department of Lands and Forests be requested to set up a system of issuing these forms in triplicate to eliminate this unnecessary work, and that more space be provided for the name and address on the licences.		
13. REMOVAL OF LOGS AND DEBRIS IN THE MONTREAL AND COW RIVERS, DISTRICT OF ALGOMA:		
Whereas the Montreal and Cow Rivers have been raised twice in the last 15 years to facilitate power development; and	Northern Ontario Tourist Outfitters' Association	The Department is conducting meetings with Great Lakes Power Corporation this winter in an effort to have the matter of logs and debris cleaned up.
Whereas logs and debris have been left to float around thereby creating a hazard to navigation on these rivers, with the upper part of the Cow River completely impassable for two miles; and		

Whereas the Department of Lands and Forests have been requested on several occasions to have this condition cleared up, but have taken no action.

Therefore be it resolved that we again request the Department of Lands and Forests to take immediate drastic action to have this situation cleared up; and

Be it further resolved that, if it is beyond the power of the Department of Lands and Forests to resolve this matter, it be turned over to the Federal Department of Transport for their necessary action.

#### 14. BAG LIMIT ON BEAR IN ONTARIO:

Whereas under present regulations there is no bag limit on bear in Ontario; and

Whereas some hunters are taking advantage of there being no bag limit on bear and are shooting bear in large numbers; and

Whereas these persons are killing bear only for the sake of killing an animal, the pelts and carcasses being left to rot where they fall; and

Whereas bear are not so plentiful that this killing can go on without some serious effect on the bear population; and

Northern Ontario  
Tourist Outfitters'  
Association

At the present time black bear are common to abundant across Northern Ontario. Reports of nuisance bears destroying property and invading towns are numerous. Although interest in bear hunting has increased since 1961, the present number of bear hunters is considered too small to have any appreciable effect on the bear population. There would appear to be no reason at present why bear limits should be imposed.

## RESOLUTIONS

Whereas bear are now classed as game animals, to be hunted only under the authority of a licence, but are treated as pests rather than as game.

Therefore be it resolved that beginning in 1966 there be imposed a bag limit on bear. It is the recommendation of this association that the bag limit be one bear per licence in each season.

## 15. MOOSE SEASON:

Whereas the Department of Lands and Forests biologists report that the Red Lake area has an over-abundance of Moose; and

Whereas the area north of the 10th base line has an early freeze-up so that hunting must terminate approximately October 15th; and

Whereas the area north of the 11th base line has an open season for moose from September 15th; and

Whereas the area just south of the 11th base line definitely appears to be more heavily populated with moose and is closer to reach.

Therefore let it be resolved that the moose season open September 15th north of the 10th base line.

Big game seasons for Northern Ontario were set on a three-year basis for 1965-66, 1966-67 and 1967-68. The change recommended will be considered with a view to amending the regulations. According to data collected at the Red Lake check station, very little moose harvesting took place north of the 11th base line after September 15th or north of the 10th base line after October 2nd.

Northern Ontario Tourist Outfitters' Association.

#### 16. MOOSE SEASON IN THUNDER BAY DISTRICT:

Whereas the moose season opening date in Thunder Bay District is set at October 1st; and

Whereas the northern part of this District is accessible only by air and, with the early freeze-up in the area, can only be hunted during the first 10 days of the present season; and

Whereas the moose in this part of the District cannot be harvested in sufficient numbers to keep a sensible balance in the herd.

Therefore let it be resolved that in 1966 and thereafter, moose season begin on September 15th in that part of the Thunder Bay District lying north of the CNR main line.

#### 17. MOOSE MANAGEMENT:

Whereas the present policy of allowing moose hunters to hunt at will during the open season for moose results in excessive hunting pressure in readily accessible areas and results in over-harvesting of moose population in such areas; and

Whereas other areas less accessible in many cases are not being harvested; and

Whereas field surveys by local Conservation Officers give good indication of hunting pressure allowable for good moose management.

Northern Ontario  
Tourist Outfitters  
Association.

See Resolution No. 15. District staff will be consulted regarding this proposal.

Northern Ontario  
Tourist Outfitters  
Association

For moose management purposes, Ontario is subdivided at present into four major management regions: the Western (including the Forest Districts of Fort Frances, Kenora, Sioux Lookout, Port Arthur and part of Geraldton); the Northern (Forest Districts of Cochrane, Kapuskasing and parts of Geraldton and Gogama); the Central (Forest Districts of White River, Chapleau, Swastika and parts of Sudbury, Sault Ste. Marie, Gogama and North Bay); and Southern (Forest Districts of Tweed, Lindsay, Pembroke, Parry Sound and parts of North Bay, Sudbury and Sault Ste. Marie).

RESOLUTIONS

Therefore let it be resolved that the Department of Lands and Forests investigate the possibility of setting up management units to control the distribution of moose hunters appropriate to the moose population in a given area.

18. PARTRIDGE SEASON IN NORTHEASTERN GEORGIAN BAY AREA:

Whereas it is considered that the 1965 partridge season in the northeastern Georgian Bay area was too long.

Therefore let it be resolved that the Department of Lands and Forests be requested to revert the partridge season in the northeastern Georgian Bay area to the old regulations of one week in October and one week in November, or for a shorter season than in 1965 at the discretion of the Department.

19.—(1) AIM: The aim of this brief is to point out a situation which is irritating to hunters and to owners of private, unfenced woodland properties alike, in that owners of such properties in Ontario are not required by law to post "no trespassing" signs during the hunting season to notify hunters.

COMMENTS

For inventory and harvest data, sub-regional units may be used but it is impracticable to think of still smaller units for control of hunter distribution. As much as possible moose hunters are directed to the more inaccessible areas for their hunting so that these moose may be usefully harvested.

Census and harvest data indicate that the grouse population in south-central Ontario is on the up-swing. The season recommended would reduce hunting opportunities drastically and would not materially aid in keeping grouse numbers high. Studies have shown that the bulk of grouse hunting occurs during the initial period of leaf fall, hence grouse harvest numbers are largely independent of a season's length. The well known "grouse cycle" has nothing to do with hunting and the birds become scarce periodically, where they are not hunted, and abundant even when they are heavily hunted.

Trespass is not confined to entry of hunters. We would question any legislation purporting to deprive a land owner of the right to give oral notice.

(2) **BACKGROUND:** Hunters and some owners of unfenced woodland properties have been at odds for several years over the situation where hunters have been ordered off privately owned woodlands by the owners during the hunting season. When the question regarding posting of "no trespassing" signs is put forward, many property owners claim that they are not required by law to post such signs.

(3) **DISCUSSION:** This is an absurd situation and leaves much to be desired from both the hunters and the property-owners' points of view. If the property owner wishes to control hunting on his property, he should be required by law to post signs to this effect. In many areas, privately owned woodlands are adjacent to Crown lands, and it is not uncommon to find the two types mixed in such a way that the hunter has very little chance of finding out which is which, unless he provides himself with a detailed and up-to-date map of the intended hunting area and is able to properly and accurately locate his position on the map at all times; if he did this, he would have little or no time to look for game.

Furthermore, if posting of private woodlands is not required by law, hunters could be, and indeed have been ordered off property by other hunters posing as the property owners. The honest hunter has little chance to obtain proof of ownership, owner's name, place of residence, etc. It is not uncommon to discover that the owner resides many miles from the property concerned.

The legal imposition of a requirement that all private lands where hunting is not permitted be posted would tend, eventually, to close all private lands to hunting.

## RESOLUTIONS

At the same time, where the property owner wishes to control hunting or travel on his property, and this is not unreasonable, the posting of his property would help to relieve him of the task of keeping hunters from trespassing since he would have the benefit of the law.

It is indeed an awkward situation when the hunter is rudely ordered to remove himself from an unposted woodland by person or persons posing as, and well might be, the owner or owners of the property, when in many cases the "owner" does not give his name or address, nor will he provide definite proof by way of a deed or other document that he is the owner.

Many property owners use the argument that, while they pay taxes on their properties, hunters from localities many miles away come to hunt the game. This, of course, is a weak argument, since all wild game is the property of the Crown and the hunter pays for the privilege of hunting the game by purchase of a hunting license.

(4) **RECOMMENDATION:** It is recommended that, if no other adequate measures have or are now being taken with respect to posting of privately owned woodlands to notify the hunter, legislation should be passed to require property owners to do so, showing the owner's name. In addition, the rights of hunters and property owners with respect to hunting on posted and unposted woodlands should be summarized in the game regula-

tions, or preferably as a supplement to the hunting licence, as it is considered that this would help to clear up some of the misunderstandings between hunters and property owners, and would also help to eliminate the unpleasant situations and ill-feelings that are prevalent during the hunting seasons.

20. —(1) **BACKGROUND:** The present system employed in the vending of resident and non-resident hunting licences and non-resident fishing licences in the Province of Ontario is considered to be uneconomical, and does not lend itself to proper and efficient control, particularly in the sale of hunting licences and efficient follow-up action where infractions of the fish and game laws are involved.

(2) **AIM:** The aim of this paper is to emphasize the need for better control over the sale of hunting and fishing licences in the Province of Ontario and to recommend an economical method of vending these licences, which would lend itself to better control and follow-up action where required.

(3) **DISCUSSION:** At present, hunting and fishing licences are sold at selected or approved outlets in sporting goods stores, hardware stores, grocery stores and others. The vendor is paid approximately 15 per cent of the cost of the licence, which varies according to the type of licence sold; for example, a vendor is paid 15c on a \$1.00 licence, 75c on a \$5.00 licence.

## RESOLUTIONS

In 1961 there were 409,873 non-resident angling licences sold in the Province of Ontario; 426,775 in 1962, 474,568 in 1963. It was estimated that 2,000,000 anglers were in the field in Ontario in 1964. The revenue from all types of angling and hunting licences sold in Ontario each year amounts to a considerable sum, 15 per cent of which goes to vendors who apparently do little more than scribble a few words on a form. When checking into game law violations, etc., the scribbled stubs of licences make the task of obtaining accurate licence particulars a difficult one, even though licences bear serial numbers. Furthermore, the present system of licence vending does not seem to be adaptable to following a game law violator who has been placed on restriction, especially if he moves to another Province. Also, it has been reported that aliens in Canada who have not taken out citizenship papers have been able to obtain hunting licences and to bear firearms, contrary to the laws of the country.

(4) RECOMMENDATION: It is recommended that all hunting and fishing licences issued in the Province of Ontario be sold by the Provincial Vehicle Licence Bureau only. As the sale of vehicle licences would be at its annual low during the hunting and fishing seasons, this task should not impose hardship on vehicle licence issuing personnel. This system has several advantages, the more important being a saving of 15 per cent on each licence sold; typed forms with social security numbers shown, for easier and more accurate records

purposes; easier and faster means of checking into the issue of more than one hunting licence to a person in a given season, and the issue of hunting licences to aliens and others who are not entitled to bear firearms. In addition, the orderly conduct of the sale of hunting and fishing licences through a Provincial Bureau would add prestige to the Department of Lands and Forests, and would make licensees more appreciative of the privileges they enjoy in the harvesting of Provincial resources.

(5) While it is realized that adoption of this recommendation would necessitate considerable liaison between the Department of Lands and Forests and the Department of Transport, it is considered that the advantages would far outweigh any foreseeable disadvantages.

21. AIRCRAFT AND FACILITIES ON PORCUPINE LAKE:

Whereas the installation of public docking facilities on Porcupine Lake will mean an increase of air traffic in the Cochrane District; and

The Ontario Northland Conservation Federation	The current production from the Hill Lake trout rearing station is at present adequate to meet local requirements for hatchery stock. The North Bay trout rearing station is scheduled for complete renovation in 1966, and the increased production from this station, as well as that from the Hill Lake station, is expected to be more than adequate to meet the demand in the north-central area for the foreseeable future.

#### 24. EXTENDING THE MOOSE SEASON BEYOND THE PRESENT TIME:

Whereas we believe that the number of hunters actually hunting to the end of January will be very low; and

Whereas we believe that it may be beneficial to relieve areas of over-population or other problems.

Open season on moose were set on a three-year basis for the seasons of 1965-66, 1966-67, and 1967-68. Barring any sudden changes in conditions, it is not planned to alter the seasons until the regular review prior to the 1968 season. The effects and efficacy of the increasing use of power toboggans on moose populations must be studied prior to the setting of future seasons.

The designation of small special moose management areas is not planned, since this would only introduce an element of confusion regarding open and closed areas.

27. CLOSING OF THE DEER SEASON:

Whereas during the past twenty years there has been a steady decrease in the scattered deer herds in Cochrane District; and

The subject of this Resolution is basically the subject of that submitted by the Ontario Federation of Anglers and Hunters regarding access roads on Crown lands.

The Department will consider any question based on the merits of each particular case.

Areas licensed under The Crown Timber Act are open for hunting and angling, subject to the regulations under The Game and Fish Act, 1961-62, except where a working area, within that licensed, is posted to indicate operations are being carried out and that hunting is prohibited.

The Cochrane deer herd is a small remnant herd at the extreme limit of the continental deer range. As such, animals in this area are especially vulnerable to weather and other factors which severely reduce their numbers. This area should be managed primarily for moose, and the Department questions the advisability of encouraging any expectation that deer will ever increase.

Therefore let it be resolved that the Government erect a public dock at Twin Falls in the immediate future.

**29. THE STOCKING OF TROUT IN RIVERS AND STREAMS:**

Whereas these rivers and streams have been very productive in the past; and

Whereas many of these rivers and streams have changed very little in the past twenty years; and

Whereas the Department of Lands and Forests seems reluctant to stock these rivers and streams, possibly due to the excessive costs.

Therefore let it be resolved that many of our rivers and streams be stocked with trout, with the help of the local Fish and Game clubs if necessary.

The District Forester has been asked to investigate the possibility of providing docking facilities under the lake access points program.

Results from creel census studies, conducted on stream environments where exploitation is low, generally indicate relatively poor survival or minimal returns from hatchery-planted stocks.

Unless stream plantings are undertaken on a "put and take" basis, the return from plantings of hatchery-reared fish in streams is often so small as not to justify continued restocking.

Where there is doubt, the planting of marked hatchery fish and an intensive creel census can indicate the proportion of the hatchery stock to the angler.

30. LOG BOOMS:	Temagami Lakes Association	Under all circumstances a constant lookout is required of vessels when navigating on water in order to prevent collisions with floating objects.
Whereas lumber companies, using Temagami Lake to float log booms for distances up to 30 miles, do not appear to have regard for the safety or pleasure of May and June fishermen or vacationers. They allow loose logs to roam the lake surface before a clean-up is attempted at the end of the towing season. This often results in many saw logs getting so far away on the hundreds of miles of shore line that they are a menace to vacationers all summer.	It is impossible to find all the logs that get away from booms, so without doubt the few that do get away present a hazard but it is evident that no great damage has been done having regard to the traffic on Lake Temagami.	It is recognized that care should be taken by the logging companies and it would seem that on account of the value of the logs no company would be very careless about allowing any number to get away or to be unrecovered at a monetary loss. In other words, self-interest on the part of the logging companies must tend to keep this loss at a minimum.
Therefore be it resolved that the Department of Lands and Forests establish a patrol of these waters during this period, at the expense of the lumber companies involved, to collect all these loose logs before they stray all over the lake and cause accidents that could be fatal. Many of these loose logs have been hit by unsuspecting tourists; fortunately, there have been no fatal results so far.	Temagami Lakes Association	Log booms are required to be off the lake by June 1st. The District Forester keeps in contact with the companies and they are requested to sweep the loose logs.
31. 18-MILE OBABAKI LAKE AND 10-MILE GULL LAKE SURVEY:	Temagami Lakes Association	A preliminary lake survey was completed on Obabaki Lake in 1965, and a similar investigation is planned for Gull Lake in 1966. Both
Whereas in our opinion 18-mile long Obabaki Lake and 10-mile long Gull Lake, which are host waters for lake trout, small mouth bass and northern pike, should		

be tested in 1966 to find out why there are no walleyes in these waters. All conditions seem to be similar to other lakes in the area where walleyes are found, but to the writer's knowledge, after many years of checking, no walleye seem to inhabit these waters.

Therefore be it resolved that water tests be made in 1966 and preliminary survey of possible spawning grounds be made to help prove the possibilities of stocking walleye in these lakes. If successful, this would be a great help in relieving pressure in Temagami and other nearby lakes on their walleye population.

### 32. NEW HATCHERY—NORTH BAY:

Whereas it was a great disappointment that the Department failed to build the new hatchery so badly needed at North Bay in 1965. The writer made a visit there recently and there was not enough fish left for a meal.

Therefore be it resolved that the new hatchery as planned, and which we hope will be built and ready for eggs by the fall of 1966, has plenty of room for lake trout spawn and also is equipped to hatch walleye eggs, so the Department will have a supply close at hand to restock lakes in the northern part of Ontario.

lakes are typical lake trout waters and they are at present being managed for this species. Bass and pike are also present, but these fish are confined to the more shallow water areas.

The introduction of walleye may cause conflict with the native species, particularly lake trout. Results from similar-type introductions of walleye into lake trout waters have proven to be detrimental to the lake trout population. Walleye are widely distributed in the area. Emphasis is being placed on maintaining these important, select lake trout fisheries at as high a level as possible.

The reconstruction of the North Bay hatchery is scheduled for 1966. The new station will include a modern hatchery building and outside rearing facilities designed primarily for the production of brook and lake trout. Construction should be completed this year and the station should be in production next winter.

No facilities are proposed for the incubation of walleye eggs. A special type of incubating unit known as a "jar battery" is required for incubating and hatching walleye eggs. Adequate facilities for jar culture of walleye at Little Current and Skeleton Lake hatcheries meet the present requirements for this species in the north-central region of the province.

## RESOLUTIONS

## 33. ASSISTANCE BY ASSOCIATIONS:

Whereas, upon looking over all the resolutions submitted to your Department in the past by all the Fish and Game Clubs, Conservation Organizations, etc., it is noted that most of these organizations offer your Department assistance in financing and co-operation in any survey plans they might want done. Why is this sincere effort on their part brushed aside as if they were ignorant of any of the conditions where they have lived for a good many years? Wouldn't an atmosphere of co-operation and closer contact be a greater advantage to your Department personnel without any danger of usurping your Department's authority?

Therefore be it resolved that your Department, when planning any fish or hunting programs in certain areas covered by conservation or fishing and hunting clubs, notify the officers of the respective organizations and invite them to a closed off-the-record meeting to discuss the programs before the plans are made definite. This close co-operation with responsible representatives, no doubt, would avert a lot of later complaints sent to the Departmental heads in Toronto, complaints that could be straightened out at the local level where the Department's personnel is usually acquainted with the area concerned. The writer's past experience in the close co-operation with the local Departments of Lands and Forests, Police and others, has been a tremendous help in our mutual endeavours to solve some of our problems.

## COMMENTS

The Department is always appreciative of any assistance provided by conservation agencies, and the assistance which the Temagami Lakes Association has provided is most welcome. Although the Department is not planning to undertake a lake trout spawn-collecting program on Lake Tamagami in 1966 (a previous attempt in 1962 proved uneconomical mainly because of the widespread distribution of spawning fish), it would certainly welcome assistance in the collection of complete creel census records throughout the entire fishing season. The collection of complete and accurate data on the sports fishery would assist greatly in the management of this important fishery.

Be it further resolved that your Department accept the following offer on behalf of our Association to assist, free of charge, on any fish management program your Department might have for Temagami Lake in 1966, especially in any new efforts to get lake trout eggs for the new hatchery at North Bay. If Temagami Lake itself does not seem suitable on account of weather, there are other lakes that would be very accessible such as Ko-ko or the more sheltered arms of Temagami Lake. Without any obligation on your Department's part, we offer the following assistance during the lake trout spawning season of 1966: We will supply, free of charge, two men, boats, motors needed, suitable daily transportation of eggs to North Bay hatchery by car or aircraft, first class accommodation, including meals for ONE of your experienced hatchery men from North Bay. All authority and responsibilities would be vested in your representative, and our Association assistants would be strictly under his control. In return we would expect a reasonable percentage of returns of the success of the operation.

## 35. PROHIBITION OF ICE FISHING:

Whereas the Temagami Lakes Association has a membership of 265, comprised of private cottagers and commercial tourist operators. The general annual meeting of the Association was held August 17, 1965. At this meeting a resolution was unanimously passed that the Department be strongly urged to prohibit ice fishing on Temagami Lake, at least until after the fish survey and creel census which the Department has planned for the next three years is completed.

Therefore be it resolved that after the survey and creel census is completed, information should be available to decide if Temagami Lake can withstand the increased pressure of winter fishing without destroying the main attraction of the summer visitor, which is still the fishing. Out of about twenty-five commercial camps on Lake Temagami, only one, a newcomer, is in favour of ice-fishing. This alone should go a long way toward providing the unpopular feeling towards ice fishing. It is well known and being advertised that 1965 was the poorest season ever for fishing on Temagami Lake irrespective of weather.

## BY WHOM

Temagami Lakes  
Association

Winter closure was established for Lake Temagami in 1956 but this was revoked almost immediately when the local people objected to the restriction. As far as the Department is aware, the local Chamber of Commerce and many of the local sportsmen are still very much in favour of a winter fishery.

Biologically, the department has no evidence to indicate that winter fishing is detrimental to the fish population in Lake Temagami. It is estimated that the lake produces about 25,000 lbs. (about  $\frac{1}{2}$  lb. per acre) of lake trout per year. Winter creel census data indicate that approximately 10 per cent to 15 per cent of this harvestable crop is taken during the winter season. Unfortunately, comparable creel census data are not available for the summer fishery, but, on the basis of the information available, it would appear that the total harvest is well below that of the total production for the lake.

The Fisheries Management Unit being established on Lake Temagami will be better able

to determine the effect of winter angling, if there is winter angling going on during the study.

We are interested and concerned with the development of the sports fishing industry and in the benefits derived therefrom by the local communities. However, this interest is developed only on the basis of the available resource. If and when there is evidence to indicate that the fishery is being over-exploited, appropriate controls in the form of creel limits, seasons, etc., will be recommended for the protection of the resource.

#### Temagami Lakes Association

### 36. ECONOMICS VS. WINTER FISHING:

The main objection your Department has expressed in the past for not closing the ice fishing on Temagami Lake seems to have been the economic advantages it was supposed to have created for the village of Temagami and area. Any economic advantages in our opinion, are negligible. However, that doubtful reason is now out the window for good. The economic situation last fall and for years to come is that the Sherman Iron Mine is providing more economic stimulant than the Village of Temagami and surrounding area can handle already. The proposed new Sherman townsite at Goward on the shores of Net Lake will certainly add to the fishing pressure there as well, as it is also a lake trout body of water. With the development of Sherman Mine, we have lost at least four fishing lakes. The discovery of a new iron mine in Parkman Township plus the possibility of the iron deposit in Flett Township will soon add to the pressures on fishing and hunting in these favourable adjacent areas and must be seriously considered before it is too late.

Mr. Armstrong of your Department, at Maple, Ontario, suggested that the extension of speckled trout fishing into the winter would relieve the pressure on the slow-growing lake trout. It might help in some areas but, in our opinion, it certainly is not the answer to conserving some of our natural resources of fish and game for the future.

Therefore be it resolved that your Department will take into consideration the above views of our Association's vital interest in conservation for the benefit of all, and recommend legislation in favour of conservation and less in favour of extermination by closing lake trout fishing on Temagami Lake from October to the first of the following May each year.

### 37. ADDITIONAL CONSERVATION OFFICERS:

Whereas Temagami Lake is a very large body of water to patrol and a lot more people are arriving every summer, the need for much better supervision by a game overseer is long overdue.

Temagami Lakes

Special appointments have been made as Conservation Officers for the Temagami senior personnel and in addition a number of the forest technician group have been appointed as Deputy Conservation Officers, some working out of Bear Island. A full-time Conservation Officer for Bear Island may not be possible with present funds.

Therefore be it resolved that a fully qualified game overseer be stationed at the Lands and Forests headquarters at Bear Island. Bear Island is centrally located and would be available on short notice.

### 38. ORGANIZATION OF RESOLUTIONS:

The Department requested last year to have these resolutions submitted in plenty of time to look them over and make their comments.

Temagami Lakes

The Resolutions are addressed to the Committee; the comments are provided by the Department for the Committee. Anyone is free to address the Committee at its open meetings.

Therefore be it resolved that the Department reciprocate by returning the copy of the resolutions and comments to senders, at least one week, before the time set for the hearing. This would enable the delegates to prepare rebuttal on some issues and save time at the meeting.

39. CONSERVATION OFFICERS:

Whereas there is a decided increase in the number of hunters and anglers in the field today plus a large influx of American anglers and hunters in the Niagara District; and

Whereas present Conservation Officers have too large an area to patrol.

Be it resolved that an additional Conservation Officer be appointed in the Niagara District.

40. CONSERVATION OFFICERS:

Whereas we consider that the Conservation Officers are underpaid for the nature of the duties they are required to perform in the enforcement of The Game and Fish Act, 1961-62.

Be it resolved that further reviewing of salaries of Conservation Officers be implemented.

41. CONSERVATION OFFICERS:

Whereas it is felt that Conservation Officers are required to spend considerable time in research work and educational duties and that more time spent patrolling and making routine check-ups would have a great effect on the enforcement of the laws.

Be it resolved that Conservation Officers be detailed to do more patrolling and enforcement of the Act, rather than research and educational duties.

## RESOLUTIONS

## 42. MAGISTRATES:

Whereas in many districts throughout the province the fines imposed by some magistrates do not suggest that the enforcement of the Game and Fish Act, 1961-62, is of much importance to the natural resources of the province or to the recreational value of the people who enjoy the great out-of-doors; and

Whereas the minimum fine has been deleted from the Act.

Be it resolved that the Department of Lands and Forests request the Attorney-General's Department to instruct the magistrates as to the seriousness of game and fish violations and request heavier fines and cancellation of licences to hunt and fish.

## 43. BACK BADGES

The St. Catharines and Lincoln County Game and Fish Protective Association Inc. strongly endorses the Regulated Game Preserve Area system, which controls the concentration of hunters in any one area, as most essential to good "Farmer-Sportsman Relations".

The best returns of pheasants occur when adult birds are released just prior to the opening of the season. It is acknowledged that the release of poults is not as fruitful as adult releases.

Natural reproduction depends on availability of suitable cover, good nesting and hatching success, minimal weather and predator influences, and compatible agricultural practices. Over much of Ontario's pheasant range, all these conditions cannot be met to ensure successful annual reproduction of pheasants.

<p>48. STOCKING OF LAKE ST. LAWRENCE</p>		
<p>Whereas since prior to the flooding of man-made Lake St. Lawrence, our Conservation Council have asked for stocking of this lake;</p>	<p>Conservation Council of Stormont, Dundas, and Glengarry</p>	<p>As requested, the department made an introductory planting with Kokanee in Lake St. Lawrence in 1965. A similar planting is scheduled for 1966.</p>

Therefore be it resolved that in the interests of tourism, campers and area residents, our Council strongly urge the Department to continue this stocking of Kokanee Salmon for at least 5 years; and consider the feasibility of stocking Lake St. Lawrence with rainbow trout as well.

49. POLLUTION, FISH AND WATER SURVEYS:

Whereas one of the curses of our present-day way of life is pollution in the water and in the air;

Whereas due to many complaints to the Water Resources Commission—political and otherwise, with proof for many of these complaints submitted to the authorities;

Whereas conservation groups, angling sportsmen, and the citizens at large are now beginning to recognize and take action to eliminate where possible the causes of such pollution;

Therefore be it resolved that our Conservation Council strongly urge the continued co-operation of the Department of Lands and Forests with the Water Resources Commission to curb or where possible to eliminate such pollution to our waters.

Conservation Council of Stormont, Dundas and Glengarry

The Department will continue to co-operate with the Ontario Water Resources Commission wherever possible, and plans to continue the investigational work in the St. Lawrence River area.

## RESOLUTIONS

Be it further resolved that our Council ask the Department to continue with their water and fish surveys in the area east of the Robert Saunders Power Dam to Lancaster which borders the counties of Stormont and Glengarry.

## 50. ESTABLISH FISH HATCHERY:

Whereas throughout our Province in different geographical locations, Departmental fish hatcheries are established;

Whereas our Council feels that for many years, until recently, the southeastern part of the Province was completely forgotten with respect to Conservation and Tourism;

Whereas the year 1967 is going to be our centennial year and Cornwall will be the closest city in Ontario to the Expo exhibits and other attractions.

Therefore be it resolved that our Council feels, in the interests of our Province, our Eastern Ontario citizens, the many thousands of visitors coming into Ontario and Canada in 1967, and the education of our area children, as well as the propagation of our fish, we ask the Department of Lands and Forests to consider an area south of our Cornwall Canal in the city of Cornwall to be the area for our next fish hatchery for the Province.

Water supply and quality are prime requisites in the establishment of any potential hatchery site. The question of the species of fish required is also of paramount importance since the requirement for water quality differs greatly, depending upon the species required.

For example, the development of a suitably large trout-rearing station requires a continuous supply of 2,000 gals. per minute of good quality spring, or ground, water. The requirements for a pond station, similar to the one already in existence at Westport, which is used primarily for bass production, are less stringent. Stations of this type may be developed with a continuous flow of a good quality surface water from a lake or river.

The Department's staff is at present engaged in investigations in co-operation with the Ontario Water Resources Commission to determine if a suitable spring or ground water supply is available in southeastern Ontario

which would be satisfactory for the development of a large fish-rearing station.

Negotiations to solve this problem have not developed at the speed or to the stage that we would like. We will continue to investigate and attempt to negotiate through all channels open to us to bring about uniformity in border areas.

Considerable attention has been given this matter during the past year.

We are constantly attempting to provide additional recreational opportunities insofar as these do not conflict with other activities. Sunday hunting is generally prohibited south of the French and Mattawa Rivers at present.

51. QUEBEC-ONTARIO BOUNDARY IN LAKE ST. FRANCIS:

Whereas our Council, area sportsmen and local citizens have for many years been trying to get "boundary waters" established in Lake St. Francis.

Whereas over the years, area citizens have been embarrassed and fined by officials from the Province of Quebec over disputes regarding an established boundary for fishing and duck hunting.

Therefore be it resolved that the Department of Lands and Forests officials use their vested powers in trying to arrange a meeting between Quebec, Ontario and Federal authorities to resolve a boundary agreeable to all parties concerned.

52. WATERFOWL SHOOTING ON SUNDAY:

Whereas the waters of Lake St. Francis border the waters of Quebec, and the waters of Lake St. Lawrence border the waters of New York State;

Whereas Sunday hunting and shooting of waterfowl is legal in said border waters of Quebec and New York State.

Therefore be it resolved that it be legalized to shoot ducks on Sunday in Lake St. Francis and Lake St. Lawrence, during the legal season for hunting ducks.

RESOLUTIONS	BY WHOM	COMMENTS
53. WOLF CONTROL:	Conservation Council of Stormont, Dundas and Glengarry	At least one Predator Control Officer has been appointed in each Forest District and he has devoted a considerable proportion of his time to the establishment of control-measures such as trapping, snaring and the organization of wolf hunts.
Whereas the reports received by our Council from members of our clubs, who have hunted in many different geographical locations of Ontario during 1965 deer hunting season, lead us to submit this resolution ;  Whereas most of the complaints have been turned in by hunters having many years bush-and-hunting experience. All view the situation as a grave one and that the wolves and wolf signs are on a definite increase even in farming areas with surrounding bushlands.		
Therefore be it resolved that our council strongly recommend to the Department that immediate steps be taken to survey and curtail where necessary this increase of the wolf population. In doing so, our deer herds will have a greater chance of survival and for the propagation of their species.		
54. HUNTING ACCIDENTS:	Conservation Council of Stormont, Dundas and Glengarry	It is not possible to show "criminal intent" in pressing charges for hunting accidents. Department officers rely on the opinion of the Crown Attorney as to whether charges should be laid for "careless hunting" under The Game and Fish Act, 1961-62, or for "criminal negligence" under the Criminal Code.
Whereas each year, with increased hunting appeal to sportsmen, larger and larger numbers are invading our woods, swamps, and uplands in quest of recreation and game.		
Whereas after each year's hunting season ends the nation's press carries numerous headlines of hunters being killed or wounded, most of the time through someone's carelessness.		

Therefore be it resolved that our Council urge the Department to help bring about changes in our Criminal Code whereby hunting privileges can be taken away from any guilty party, and also to urge increasing the minimum in financial penalties to any person found guilty of carelessness that causes a hunting accident or fatality.

#### 55. PURCHASE LAND FOR PUBLIC HUNTING:

Whereas it has been our Council's policy over the past few years to urge the Department of Lands and Forests to purchase suitable hunting areas in the counties of Stormont, Dundas and Glengarry; and

Whereas with the number of hunters afield and with the increased number of "No Hunting" signs posted on Private Property; the sportsmen are being crowded into smaller and smaller areas as each season rolls around.

Therefore be it resolved that the Department continue its search for suitable lands, and when purchased to distinguish such properties with the necessary government signs designating the areas open to public hunting.

Our Land Acquisition program has been accelerated and attention has been given to provision of additional public hunting grounds on a high priority basis.

<p>Whereas apparently the Department sent out circular letters to all non-resident hunters notifying them of the fact that this new area was opened for moose hunting.</p> <p>Therefore be it resolved that, if our findings in this regard are fact, we feel that all resident hunters should have been notified in some way to the effect that these new sections were opened for hunting moose.</p>		<p>Non-resident hunters were not accorded special notification; however, it is known that at least one prominent outdoor magazine in the United States provided considerable publicity to the re-opening of this area. The volume of inquiries from both resident and non-resident hunters alike indicates that the majority of Ontario moose hunters were aware of this change.</p>
<p>57. DISRESPECT FOR LAW: The disrespect for law, which appears to be a growing feature of our life, seems to be invading the Game and Fish field. Whereas formerly persons erred from ignorance, now it seems that game laws are broken for selfish reasons.</p>	John Hauser	<p>A great many of the serious offences committed against The Game and Fish Act in the past were not out of ignorance. The ever-increasing numbers of anglers and hunters may give rise to this impression but most are law-abiding.</p>
<p>58. INSTRUCTION COURSES: The instruction courses for the young seem very beneficial in general; would it not be possible for the Department to use, by radio and T.V., subtle propaganda aimed at the adult, principally regarding game laws and the reasons therefor. Most city people are absolutely ignorant of the facts of the propagation of wildlife and the reasons for protection of wildlife. The average person thinks of things only as they concern his immediate requirements. Education in this line presents an interesting problem.</p>	John Hauser	<p>While our budget does not allow for a complete radio and television program covering this subject, we have included two sections covering this in our new series of television shorts. It has also been included for the appropriate seasons in the radio spots in the past and will be again this year.</p>

## 59. HORNET RIFLE:

This very loud and dangerous weapon is a positive menace when used in or near a populated area. I understand it is banned; yet there was no mention of it on the sheet published for popular use; I found one imbecile firing with such a weapon from his car across a valley with cattle in the vicinity.

John Hauser

The hornet rifle, a centre fire .22 calibre, was not banned. Its most serious objection is its noise. Rifles of greater calibre than a .275 calibre have been banned. This has controlled indiscriminate use of surplus military rifles in and around highly populated areas.

## 60. SUNDAY HUNTING:

Keep the Ban on Sunday hunting and shooting; there is enough unnecessary noise now in the countryside, and in any case the pitiful remnants of wildlife need a rest.

John Hauser

See Resolution No. 52.

## 61. GAME WARDEN'S DEPUTIES:

Game Warden's Deputies should either be paid or at least should be allowed to claim for gas used. It is too much to expect men to give time and money for nothing.

John Hauser

Deputy Conservation Officers offer their services on a voluntary basis without remuneration. This interest in Conservation is appreciated, and occasionally these people are hired part-time for special projects. There is no administrative control over Deputy Conservation Officers except to recommend appointment or cancellation of appointment.

## 62. CONSERVATION WORK:

It would be nice to see more conservation work done; however, this costs, and our taxes are too high as it is, unless more of this work were financed by those who benefit.

<p>63. CONTROL BOTH OF GUNS AND OF HUNTERS: It is still too easy to get guns, ammunition and licences. Witness the shooting recently in the Windsor area. We need more control both of guns and of hunters.</p>	John Hauser	Considerable progress has been made in training hunters before a first licence is granted, and plans are going forward to stiffen requirements of hunting licence applicants.
<p>64. MORE GAME WARDENS: More Game Wardens are an absolute need. It is pathetic to see the area and amount of running that one man has to do. Why not allot extra wardens where the population is larger? The amount of illegal hunting between Lake Ontario and Simcoe is very high and difficult to cover.</p>	John Hauser	The largest percentage of the present complement of Conservation Officer staff is now assigned to the highly populated areas of southern Ontario. The possibilities of increasing this service through additional Conservation Officers is currently under study.
<p>65. NUMERALED TAGS: Some numeraled tags were issued around here, and I noticed that, whereas the number was supposed to be exhibited prominently, it was carried on the crown of the hat so that it could not be seen.</p>	John Hauser	This probably refers to the Back Badge. These are intended to be worn on the back, but the law requires only that they be displayed in a prominent place. Since the back badge is an innovation, there are a number of problems still to be worked out.
<p>66. SUNDAY HUNTING: Whereas Quebec permits its residents to hunt on Sundays and many Ontarians buy the non-resident licences in that Province solely for that purpose; Americans do likewise. If Ontario would amend its laws to open hunting on Sundays, a good portion of our hunters who buy non-resident Quebec licences would stay in Ontario.</p>	Maisonneuve Fish and Game Association (Rockland, Ontario)	See Resolution No. 52.

Therefore let it be resolved that arrangements be made to open hunting on Sundays in our district.

67. CONSERVATION OFFICERS:

Whereas due to the large number of lakes in the Lanark and Leeds area, the present number of Conservation Officers find it impossible to properly police poaching in this area; and

Whereas these officers are the lowest paid Civil Servants.

Therefore let it be resolved that eight more officers be appointed, four each in Lanark and Leeds, at an increased salary.

68. FROGS:

Whereas people from the cities flock to lakes in Lanark County during the breeding season to catch frogs for eating purposes, and thus seriously deplete the supply for bait.

Therefore let it be resolved that a closed season from October 15 to July 1 be imposed on frogs immediately.

## 71. PETITION TO OPEN ALGONQUIN PARK TO CONTROLLED DEER HUNTING:

Whereas in Algonquin Park we have a very large deer population. These deer, we are told, do not live to any old age but usually starve to death during the winter once they start to get old. Deer yards in a hard winter become over-crowded, and each spring a great many fawn and older deer are found dead from starvation; and

Interprovincial  
Conservation  
Council

We have no evidence of any degeneration of the Algonquin Park deer herd or of any mortality during severe winters, which cannot be duplicated elsewhere. There are, however, enough deer that forest regeneration suffers as compared with outside areas, and hunting would not have an adverse effect on deer, though restriction in certain areas would be desirable to preserve tameness. The real problem would be to devise a system of hunting and access that would not destroy the wilderness character of the park.

Whereas we feel that controlled hunting in the park is a way to keep the deer population healthier and the hunters and tourist outfitters happy, and to relieve hunting pressure from other parts of the province; and

Whereas the precedent has already been established in the Province of Quebec where their Provincial Parks have had a very successful controlled hunt—areas are drawn for by computer, hunters are dispensed over a wide area, game is being harvested instead of being left for the wolves.

Therefore let it be resolved that as each year we have more hunters in Ontario and less land available to hunt on, this petition is being submitted as providing a better use of land and of the present deer herds, an excellent tourist attraction that would benefit the area, and much greater safety for hunters.

#### 72. PETITION REGARDING SUNDAY HUNTING:

Whereas the tourist industry in this area would benefit since more hunters would make a trip when they could hunt for a weekend. In the Ottawa area a great many hunters buy a Quebec Non-Resident licence and spend their hunting season (and money) in Quebec where they may hunt from Friday night until Sunday night; and

Whereas the Quebec conservation officers and biologists say they feel that Sunday hunting does not make hunting pressure too heavy; they view it the same way as fishing on Sunday; and

Whereas at present a season of about 56 days before winter to a hunter means only days when he isn't working; with Saturdays and holidays this makes for only 9 days hunting for ducks, geese, partridge, etc.

## RESOLUTIONS

Therefore let it be resolved that we wish to petition that Sunday hunting be allowed in that part of Ontario lying north and west of Highway 41 during the normal Fall season, as set out by the Department of Lands and Forests, for partridge, deer, moose and migrating birds. This boundary is already established, being laid out in the fisheries regulations, and most of the land in this area is Crown land.

73. Therefore let it be resolved that the Department of Lands and Forests be requested not to change the present regulations in regard to the number of fish that may be taken on any given day and that, more specifically, the daily limit of 35 remain on perch for non-commercial fishermen.

## 74. ICE FISHING:

Whereas the Temagami and District Chamber of Commerce is of the opinion that winter fishermen do not deplete the fish population nearly as much as summer fishermen, and, consequently, winter fishermen should be given as much consideration as summer fishermen; and

Whereas due to the large number of coarse fish caught by ice fishing, such as ling and whitefish that are rarely caught by fishing in the summer, ice fishing can be a benefit to the fish population by helping to keep the fish species in balance, so necessary for survival; and

Township Council of

See Resolution No. 35.

Whereas the winter ice fishing in the Temagami area is playing a very important role in its economy, as well as providing healthy outdoor recreation for the people.

Therefore let it be resolved that the winter sport of ice fishing be continued in this area.

75. MINING:

Be it resolved that the Department of Lands and Forests be asked to maintain constant supervision of the tailings of the new iron ore development in Temagami to verify their purity in order that no waters in this area be polluted or destroyed, with the exception of Iron Lake and Vermillion Lake, which, it is understood, are necessary for mining operations.

76. FREE LICENCES:

It has been brought to the attention of the Association that some people holding free licences are abusing their use by killing and selling pheasants. We realize that there are many holding these licences and it is difficult for the Department to constantly check on them. Therefore we ask that the Department reduce the number of birds allowed to be kept under free licence to six (6). We feel this restriction would eliminate this abuse.

77. TAGGING:

We ask that the regulation be amended to permit the sale of dressed pheasants without wing tagging, provided each individual bird is in a container (e.g., Cryovac plastic bag) that clearly exhibits the name and

The Ontario Water Resources Commission will control and set criteria for outflows from tailings disposal areas created by the iron mining operation at Temagami.

The Department will cooperate wherever possible with the OWRC in this matter.

Ontario Game Bird Breeders Association

The sale of pheasants under the authority of the free "captive permit" or the "propagation permit" is a contravention of regulations and, if evidence is obtained, charges may be laid. Instances of illegal activities should be brought to the attention of the nearest Department Officer immediately. The restriction of birds under the "free" permits to six (6) would appear to cause an undue hardship.

## 78. COMMERCIALIZATION OF HARE:

Whereas the members of the South Bruce Game and Fish Club, along with many true sportsmen are rather alarmed at the number of European Hare and Varying Hare that are being hunted commercially; and

Whereas hare and fox are the only game left to hunt during the months of January and February.

Therefore let it be resolved that the Minister and the Fish and Game Committee of the Ontario Legislature consider deleting subsection 2, Section 43, of The Game and Fish Act, 1961-62, of Ontario.

## 79. HARE SEASON:

Whereas we feel that the hunting of hare and cottontail rabbit should be prohibited in the Counties of Grey and Bruce after February 28th of each year, the same as in other municipalities throughout Ontario; and

Whereas breeding among hare and rabbits takes place as early as January and February and continues throughout the month of March.

Recent studies conducted by the Hespeler staff do not indicate over-harvesting of hares. It should be noted that agriculturally some damage is done by hares, and farmers are generally in favour of hare control.

No evidence was uncovered in the detailed studies to suggest that any risk to the reproductive potential of the rabbits and hares was being experienced. The European hare is not a native Ontario animal and, though it does have young in January and February, studies

Whereas the stocking of brown trout in suitable waters has proven very successful in the past.

Therefore let it be resolved that the Department of Lands and Forests look into the possibility of restocking suitable waters with brown trout.

81. HUNT CAMPS:

We strongly request that regulations be set up, making it necessary for hunters, who use tents or trailers for camps when hunting, to park their trailers or pitch their tents at least one and one-half miles from a leased or registered camp when deer hunting.

have shown that young of the first litter rarely survive severe weather.

Department field staff are at present engaged in a number of stream surveys in the Bruce Peninsula area for the purpose of developing appropriate fishery management plans. Brown trout are one of the considerations in these surveys.

Our brown trout fishery in a majority of waters is as strong now as previously when regular plantings were made.

Brown trout are not as harvestable as rainbow or brook trout and contribute a very small percentage to the catch of anglers.

The established hunt camps do not have exclusive rights to Crown lands for hunting, and no control could be exercised over camping on private lands or hunting by the day from an outside base.

The practicability and enforcement of a separate season for transient hunters are questionable. A difficulty arises in the field to distinguish between a casual hunter and a hunter from an organized camp.

BY WHOM

Therefore be it resolved that the Back Patch, approved by this Commission, serves a good purpose. However, it is considered that the patch should be made from stronger material or protected in some way. The present material goes soft in wet weather.

92. LICENCE FEES:

Be it resolved that, due to the small number of licences sold to bona fide farmers and mainly to the increasing cost of raising pheasants, this Commission recommends that the township licence fees be raised as follows:

- (a) Township Residents . . . . . \$2.00
- (b) Non-residents . . . . . 5.00

93. GUN LICENCE:

Be it resolved that the name of the Gun Licensee be inscribed in BLOCK LETTERS similar to the way it is shown on car licences.

94. PHEASANT SEASON:

Be it resolved that the pheasant season be from Wednesday, 19th of October, to Saturday, 17th December. This will conform with the duck and partridge season in the Amalgamated Game Reserve.

95. DISCONTINUE DEER SEASON IN SOUTH ONTARIO:

Whereas it is very doubtful that the 3-day open season on deer in Southern Ontario counties has proved of any value.

The matter of the fees charged for regulated township licences will be reviewed.

Amalgamated Game Commission

Licence issuers are expected to ensure that the name of the licensee is legible.

Amalgamated Game Commission

This will be considered in the establishment of small game hunting seasons for 1966.

Amalgamated Game Commission

The deer season in southern counties is set in response to local demand and in conjunction with local municipal councils. It is desirable

Mrs. Gay Mills,  
R.R. No. 1, Hannon,  
Ontario

Therefore I would suggest an indefinite discontinuation.

to provide such recreational opportunities, and control of the deer herd assists in reducing crop damage and deer-vehicle collisions. By setting the season to run concurrently with that of the main deer range further north, overcrowding is reduced and local residents have preference in the hunt.

#### 96. BAN HUNTING NEAR INHABITED DWELLINGS:

Whereas, in spite of certain Game and Fish Acts and other legislation, the small landowner, whose property is bounded by unposted lands, has practically no protection from harassment by hunters on the unposted lands.

Mrs. Gay Mills,  
R.R. No. 1, Hannon,  
Ontario

Few accidents have been reported in the vicinity of farm buildings. The discharge of a hunting firearm without due care and attention or without reasonable consideration for persons or property is already an offence.

Therefore be it resolved that hunting be banned within, say, 300 yards of a dwelling, or that hunting be banned in densely populated rural areas. (I live on a concession road where at least 80 school children live within a one-mile stretch. Yet we are constantly harassed by hunters.)

#### 97. PLACE ONUS ON HUNTERS TO HUNT BY PERMISSION ONLY:

Whereas landowners who post their property against hunters find the notices are used as targets, or are torn down or simply ignored.

Mrs. Gay Mills,  
R.R. No. 1, Hannon,  
Ontario

It is indicated on resident hunting licences that the licence does not convey any authority to go upon private lands without permission of the owner.

Therefore be it resolved that the onus should not be on the landowner to post his property but that the hunter should be required to obtain permission from the landowner to hunt on his property.

## RESOLUTIONS

## 98. PROHIBIT SUNDAY HUNTING:

KEEP the ban on Sunday hunting. One day of peace free from the worry of stray pellets is very sweet.

## 99. TAKING OF PICKEREL, NORTHERN PIKE AND PERCH DURING SPAWNING SEASON IN THE NORTH CHANNEL OF LAKE HURON:

Whereas there is a continuous increase in angling for the declining population of pickerel, northern pike and perch, and the taking of these fish in spawning season is detrimental to their present and future population; and

Whereas the Department of Lands and Forests forbids the taking or molestation of most fish in inland waters while spawning; and

Whereas the depletion of these very valuable fish will have serious repercussions on the tourist industry, the Ontario sportsmen, commercial fishermen and the over-all economy of Ontario; and

Whereas the value of the sports fishery has greatly increased over the last number of years, but the commercial landings and value have declined accordingly.

Therefore be it resolved the Department of Lands and Forests be requested to forbid the taking of pickerel, northern pike and perch by any means during their spawning period in the North Channel of Lake Huron.

## COMMENTS

See Resolution No. 52.

We have started a major analysis of the effect of the commercial fishery at certain times of the year on the supply of pickerel. There is a commercial fishery and sport fishery in the North Channel and Georgian Bay. We have to consider both uses. We have tried to establish this by an alternate closure of that area. We would like to continue this. There were only 700 lbs. of walleye taken. Primary fishery is for whitefish. This will be reviewed further.

100. BOW AND ARROW FISHING:

Whereas carp are a scavenger fish and of no value to sport or commercial fishing; and  
Whereas the bordering counties permit bow and arrow fishing in the St. Lawrence River.

Rideau Lakes Conservation Association

We will go into the matter of extending the bow and arrow fishing regulations in Eastern Ontario. (See Resolution No. 3.)

Therefore be it resolved that bow and arrow fishing be permitted in the St. Lawrence River bordering Leeds County, provided the carcasses are properly disposed of.

101. POLLUTION:

Whereas ice fishing is increasing on the inland lakes through the medium of fishing huts; and

Rideau Lakes Conservation Association

Section 27a of The Publics Lands Act makes it an offence to throw any material on public lands covered with water without written consent of the Department.

Whereas the debris left on the ice at the end of the season is becoming a serious threat to pollution.

Therefore be it resolved that a clause be added to The Fish and Game Act, 1961-62, providing a penalty of not less than \$50.00 for the first offence and \$100.00 for the second offence, for any person or persons failing to remove garbage, ashes, or debris of any nature from the ice surface by February 28th.

By periodic checks where problems arise, conservation officers have been quite effective in preventing ice-fishermen's littering.

102. RE: NON-RESIDENT STATUS, SEC. 54 (3):

Whereas fishing and hunting are considered a sport in which any non-resident may participate with the purchase of a licence; and

Rideau Lake Conservation Association

The present wording in the Act makes it possible to issue a licence to a landed immigrant who has fulfilled his resident requirement under The Game and Fish Act, 1961-62.

<p>103. RESIDENT LICENCE:</p>

- 104. DUCK HUNTING:** Therefore be it resolved that duck hunting be continued in Point Pelee until such arrangements are made by Federal Government to provide a suitable and similar duck hunting area.
- 105. CLOSED SEASON ON RACCOON:** Whereas the price of raccoon pelts has steadily increased in recent years from an average price of \$1.70 in 1960-61 to an average price of \$5.65 this year; and
- Whereas the harvest by trapping and hunting is expected to be much greater in the future owing to a higher value of the pelts; and
- Whereas, according to reports from trappers in the southwestern part of the province and particularly in the Lake Huron, Lake Erie and Lake Simcoe Districts, the number of raccoon appears to be decreasing; and
- Whereas raccoon are not carriers of rabies to the same extent as are skunks and some other animals; and
- Whereas there have been only seven cases of rabies found in raccoon during the past twelve months in Ontario as compared to 207 in skunk; and
- Whereas no such cases have been reported in raccoon since last August.
- Noted.
- The Windsor Sportsmen Club
- The Ontario Trappers' Association
- In the 1965 trapping season only 8,280 raccoon were taken by trappers and reported. Raccoons are a problem in the corn-growing areas of Southwestern Ontario, and hunting for them presents considerable recreational opportunities. A biological study of the raccoon situation would be desirable.

## RESOLUTIONS

Therefore be it resolved that raccoon be again placed on the list of fur-bearing animals with the open season for trapping and hunting to be from October 15th to February 28th and that the royalty be ten cents per pelt.

## 106. CLOSED SEASON ON FOX:

Whereas the number of foxes has decreased to a point where they are actually scarce in some districts; and

Whereas the value of the pelt has increased from an average price of \$1.70 in 1960-61 to an average price of \$13.00 this year; and

Whereas the additional hunting and trapping pressure resulting from these higher prices will increase the annual harvest and keep this valuable fur-bearer down in number; and

Whereas the number of cases of rabies in foxes has shown a definite decrease over the past twelve months.

Therefore be it resolved that foxes again be placed on the list of fur-bearing animals with the season for hunting and trapping to be from October 15th to February 28th and that the royalty be ten cents per pelt.

## BY WHOM

The Ontario  
Trappers'  
Association

It is doubtful that the hunting of foxes has interfered seriously with the efforts of the trappers to take this species. Further, in view of the fact that the fox is a carrier in the spread of rabies, it is desirable to permit the hunting of them in the agricultural areas. Throughout most of Ontario, foxes are available to the trapper since they are seldom hunted.

## COMMENTS

## 107. ROYALTIES:

Whereas it has been many years since the royalties on the fur-bearers of Ontario were set; and

The Ontario Trappers' Association

The royalties on fur-bearing animals will be studied.

Whereas there is a distinct difference in the royalty on many species between Ontario and other provinces; and

Whereas in Ontario the royalty on beaver is one dollar per pelt regardless of size; and

Whereas in Quebec the royalty is 75 cents regardless of size and in Saskatchewan it is 50 cents; and

Whereas the royalty on fisher is the same as it was when the pelts were worth three times their present value; and

Whereas the trapper is the one that pays the royalty as it is deducted from the price he receives for his pelts.

Therefore be it resolved that the present royalties on all fur-bearing animals in Ontario be studied and brought more into line with those of other provinces and with the current prices being received by the trappers for their pelts, and that the amended royalties go into effect before the 1966-67 trapping season commences in October, 1966.

RESOLUTIONS	BY WHOM	COMMENTS
<p>108. WOLF BOUNTY:</p> <p>Whereas wolves in some sections of the province have become over-abundant and are wiping out the deer herds and attacking beaver colonies; and</p> <p>Whereas, because of the shortage of deer in those districts where there is a high wolf population, the tourist outfitters and guides will have greatly reduced revenues from hunters; and</p> <p>Whereas the trapper is also feeling the result of the high population of wolves as they are taking beaver when the beaver come out after breakup in the spring; and</p> <p>Whereas every beaver taken by wolves is \$18.00 taken from the fur harvest and \$1.00 royalty taken from the provincial treasury; and</p> <p>Whereas the Parry Sound District is suffering greatly from a high wolf population; and</p> <p>Whereas it is ideally situated for the purpose of experimenting with a change in the bounty to encourage hunters and trappers to take more wolves.</p>	<p>The Ontario Trappers' Association</p>	<p>Departmental research on wolves is directed towards building up a reasonable amount of scientific knowledge as a basis for management of this species. Such a management program should take account of the relationship of wolves to other game species. It should be noted that Department officers have been, without success, urging trappers for several years to take more beaver than they are doing. The proposal to raise the bounty in one District of the Province would present almost insurmountable administrative difficulties.</p>

Therefore be it resolved that the wolf bounty be raised in the Parry Sound District to \$50.00 per wolf from September 1st, 1966, to September 1st, 1967, on an experimental basis to discover what difference it makes in the wolf harvest.

109. SALES TAX:

Whereas the trappers of Ontario are primary producers similar in many respects to farmers; and

The Ontario Trappers' Association

This matter will be referred to the Treasury Department.

Whereas many items of equipment used by farmers in their work are exempt from the provincial sales tax; and

Whereas some types of fuel used to operate the aforementioned equipment are also tax exempt.

Therefore be it resolved that equipment such as motor toboggans, motors, etc., used by trappers in their trapping operations and the fuel to operate them, be exempt from the provincial sales tax.

110. PROGRAM OF COMBINED AERO-MAGNETIC AND AERO-ELECTRO-MAGNETIC SURVEYS:

Whereas the Prospectors and Developers Association goes on record and appeals to the Province of Ontario and the Federal Government to institute a program of

combined aero-magnetic and aero-electro-magnetic surveys over that vital area of Northern Ontario from NNW of Timmins easterly to Lake Abitibi, thence southerly to east of Kirkland Lake, thence westerly to just east of Matachewan, thence southerly to near Makobe Lake, thence westerly to just south and west of Shingtree and from there to the starting point NNW of Timmins. This area is more particularly described as being at present covered by the obsolete Dominion Bull aero-magnetic maps Nos. 284G to 287G inclusive, 289G to 291G inclusive, and 293G to 298G inclusive.

Therefore be it resolved that this Association is of the opinion this joint program would rehabilitate an area which our members feel, has important mine-making potential, and this project should be given a priority rating over airborne magnetic surveys already in force.

## 111. EDUCATION COURSE (Outdoor Life):

Whereas the Prospectors and Developers Association respectfully requests the Provincial government, with the assistance of the Federal government, to institute an educational course to train young people in the habits of outdoor life and the use of the necessary equipment required for the development of our natural resources: the course to cover a two-to-three months' period during the winter; the location to be determined by the number of trainees enrolled in a given area with

Developers  
Association

the class to constitute not less than fifteen. During the training period the trainees would be paid a sufficient wage to take care of their living costs.

Therefore be it resolved that the Prospectors and Developers Association's role in this venture would be to find the qualified trainees to take the course, help with the training and find work for the trainees at the completion of the course.

112. RAINBOW TROUT SANCTUARY DURING SPAWNING PERIOD:

Whereas a great amount of money and time is being spent to protect rainbow trout before May 1st; and

Whereas, due to the extent of water inhabited by rainbow trout in the Stayner-Collingwood area, it is impossible to protect all waters under present conditions; and

Whereas if these waters were a sanctuary, the fishermen attempting to take coarse fish would not be allowed to do so. This would greatly protect the Rainbow Trout during the spawning season.

Therefore let it be resolved that the waters known as and found in the Township of Nottawasaga, namely, the Silver Creek, Pretty River, Batteau Creek, be declared a sanctuary until the Department of Lands

The Ontario Federation of Anglers and Hunters

We will study the need for further protection in these specific waters.

and Forests, disregarding May 1st as the opening day, is satisfied that the rainbow trout have spawned.

113. EXTENSION OF PROHIBITION PERIOD FOR CARRYING FIREARMS WHERE GAME INHABIT:

Whereas the opening date of the hunting season for migratory birds and upland game does not commence until late September in the Central District and early October in the Southern District; and

Whereas it is legal to carry a firearm for the purposes of hunting unprotected game as of September 1st; and

Whereas this has proven to be a problem to conservation officers and landowners alike:

(a) conservation officers find it impossible to protect our wetlands from poachers.

(b) The landowners in many cases are still working in the fields.

Therefore let it be resolved that The Ontario Federation of Anglers and Hunters petition the Department of Lands and Forests to extend the prohibition period for carrying firearms, in an area where game inhabits, to the respective opening date for migratory birds and upland game in the Southern and Central Districts.

There is no closed season on crows, blackbirds, starlings, sparrows and groundhogs. The season for foxes and raccoons is open. There is no reason why hunting for the above should not take place from September 1st. In the Southern Zone (with respect to the gun licence) the licence is not valid until September 20th. This system has worked well, and complaints have been reduced in the main agricultural areas.

The Ontario Federation of Anglers and Hunters
