Minister of Government Services.

Tuesday, the ninth day of March, 1982, being the first day of the Second Session of the Thirty-second Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable John Black Aird, An Officer of the Order of Canada, One of Her Majesty's Counsel Learned in the Law, Bachelor of Arts, Doctor of Laws, Lieutenant Governor of Our Province of Ontario.

3.00 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

This House reconvenes at a time when this Province, the Nation and, indeed, the entire Western World, are faced with severe economic difficulties. While it is clear that the legislators of Ontario cannot be expected, by themselves, to reverse these difficult circumstances, we must, nevertheless, devote our abilities and our energies to putting Ontario on a more positive economic track.

Ontarians face an array of economic challenges. Unemployment and inflation, slow growth and lower productivity have characterized our national economy for almost a decade.

We in the Government of Ontario have always believed that the creation and maintenance of productive employment must be our central concern. As such, we have urged the Federal Government to join with us in a program of economic recovery, designed to stimulate non-inflationary growth and create jobs for Ontarians.

But more recently, we have been asked by the Federal Government to bear the additional burden of high interest rates. High interest rates remove incentive, make risk less attractive, particularly to the small business community, and as a result, cause homes and farms to be lost or make it impossible for many of our citizens to even contemplate owning a house. They limit investment, reduce consumer purchases, and reduce the demand for manufactured and other products to which employment in this Province is so closely tied.

At the First Ministers' Meeting on the Economy, held just over one month ago, the Prime Minister and his Minister of Finance set out the reasons why they were maintaining a high interest rate policy for Canada and suggested that certain consequences would follow if this approach were not maintained. One province after another outlined massive unemployment and slowdown in economic activity that was being caused by the Federal policy and stated that the human and social costs arising from such a policy were unacceptable. In spite of this united opposition, the Government of Canada remained firm in its position that its current monetary policy, with all of the hardships that it causes, must be maintained if inflation is to be brought under control. While Ontario will continue to urge reconsideration of this approach, we must be realistic in recognizing that Provincial plans may have to be developed on and around this Federal intransigence.

Canada's difficult economic situation has been further exacerbated by a number of measures included in the recent Federal budget, as well as attempts by the Federal Minister of Finance to transfer a larger share of the federal responsibility for the costs of health, post-secondary education and social services to the provinces. In terms of encouraging both consumer and investor confidence, and in terms of developing the type of federal/provincial cooperation essential to economic recovery, the timing of these measures could not have been worse.

Ontario will therefore continue to press the Government of Canada to develop a fiscal strategy more appropriate to the need for renewed economic confidence, investment and growth. In this context, we will continue to ask for a streamlining of the administrative procedure of the Foreign Investment Review Agency, to ensure that beneficial investment is not prohibited from entering the country.

Similarly, Ontario will stress the need for a continued renegotiation of the cutbacks of social services funding proposed by Ottawa.

If increased employment opportunities, for both the short and medium terms, are to be created in order to get unemployed Canadians back to work, effective federal/provincial cooperation will be required.

Nous sommes par conséquent très préoccupés par la position adoptée récemment par le Premier ministre du Canada lorsqu'il a déclaré publiquement que le principe du fédéralisme coopératif ne régissait plus l'exercice des relations fédérales-provinciales dans notre pays. Le gouvernement de l'Ontario a la ferme conviction que les deux paliers de gouvernement doivent collaborer si nous voulons réaliser le potentiel économique qui constitue notre patrimoine national commun. L'Ontario, comme par le passé, est toujours prêt à jouer son rôle.

Consequently we are extremely concerned with the public position recently adopted by the Prime Minister that the principle of cooperative federalism no longer governs the exercise of federal/provincial relations in this country. It is the strongly held view of the Government of Ontario that both levels of Government in Canada must work together if we are ever to achieve the economic potential which is our common national heritage. As such, Ontario, as in the past, stands ready to play its part.

Ontario realizes, however, that with or without Federal cooperation, and despite the limited impact that any single province can have upon a situation that is caused by both national and international circumstances, we must take those initiatives which we consider to be both helpful and appropriate to combat the impact of high interest rates, high inflation and high unemployment upon our citizens.

Later in this Session the Treasurer will introduce a budget designed to address those economic challenges we face together as Ontarians. For example, this budget will provide for job creating measures of the following nature:

- Global funding for youth employment will be increased and greater emphasis given to creating job opportunities for out-of-school youth on a year-round basis;
- The capital works program supported by this Government will be accelerated thus providing employment in the construction industry in a number of Ontario centres at dates earlier than had originally been scheduled;
- A wide range of initiatives will be taken to increase the stock of rental housing, particularly in the area in and around Metropolitan Toronto, thus meeting a pressing social need, while at the same time creating jobs in the building trades.
- The recently announced Forest Improvement Project will be expanded. This will allow the forest industry in Ontario to recall laid-off workers and maintain payrolls, to the fullest extent possible, during the current downturn in the market;
- Special employment initiatives will be adopted by the Ministry of Natural Resources to upgrade and accelerate the construction of resource access roads, thereby creating hundreds of new jobs;
- Federal authorities will be encouraged to consider new programs by which funds normally paid as unemployment insurance can be directed and supplemented to provide employment in other areas of worthwhile endeavours;
- The current economic downturn has led to a number of plant closures and bankruptcies. In order to enhance the chances of saving such companies, the Government will attempt to determine which companies can be saved through our highly successful "buy-back" program.

We are particularly conscious of the difficulties being experienced in the farming industry. While all sectors of the economy are suffering in these difficult times, agriculture is least able to withstand high interest rates and a cost price squeeze.

We have already provided major financial support to beef producers to help them weather a difficult year. In addition, we have recently implemented a broad-based farm assistance program to reduce the interest burden and maintain the supply of essential working capital.

My Government will bring forward, in this Session, a package of additional measures to further assist agriculture.

- Federal aid mechanisms such as the Farm Credit Corporation and small business bonds are inadequate to meet current financing needs of the farming community. Therefore, Ontario's Farm Adjustment Assistance Program will be broadened to help a greater number of farmers.
- The Government recognizes the problems faced today by young farmers. It places a high priority on continuing to attract young people to establish themselves in this vital sector of our economy and will introduce a new measure to provide them with start-up capital assistance.
- The Government will legislate improved financial protection to ensure that producers are paid in the event of financial default by buyers.
- The Government will increase the funding for the Foodland Ontario Program and introduce new identification standards for food products in order to stimulate sales of Ontario food products and reduce our dependency on imports. This emphasis, along with export expansion and research will be incorporated in a reorganized program and administrative structure to be announced by the Minister of Agriculture and Food.
- The Government is committed to improved income security for our farm producers through an effective long term stabilization plan for national commodities. Ontario is prepared to take a leadership role in developing and financing such a national plan which would involve the federal and provincial governments, as well as the producers.

While Ontario is taking these, and other measures as may prove feasible and necessary during the course of this Session, attention must continue to be paid to the need for an economic base for the medium and longer term. Such positive actions will be aided considerably by a general upturn in economic conditions in North America predicted for later this year.

The Government of Ontario has ensured that a comprehensive program exists for economic growth. The cornerstone of the Ontario approach is, of course, the BILD program which was launched during the last year. The success of this effort has been encouraging but further advances will be made and, as in so many areas of economic activity, can be made to be more effective if adequate cooperation is forthcoming from the Federal authorities. Last year, it will be recalled, Ontario called upon the Government of Canada to join us in a number of initiatives that would be of national benefit. To date, Ottawa has been slow to respond.

We would hope, however, that recent attempts by Ottawa to restructure government organization to deal with economic development will ensure that priority investment projects are undertaken in all parts of this country. In Ontario, for sake of emphasis, we would note that we seek cooperation in such ventures as:

- the planning process in allocating funds to an upgraded rail service in Ontario;
- upgrading drydock facilities on the Great Lakes;
- developing an Ontario Hydro fusion research program;
- establishing a centre for research in toxicology;
- developing a program for industrial mineral development;
- accelerating development of new rapid transit projects;
- establishing an autotechnicentre.

There is no doubt that the greatest single impediment to the revitalization of the economy of this Province is the current state of the North American automotive industry. While billions of dollars have already been spent to refit and retool plants so as to produce cars that are more in keeping with new consumer demands, the market, nevertheless, continues to diminish under the combined forces of high interest rates and increasing competition from lower cost manufacturers abroad, particularly the Japanese. Ontario believes that neither this Government nor our Federal counterpart can simply stand by and let events continue to take their own course. The matter is too important and the consequences too serious to follow a path of laissez-faire liberalism.

As a result, we have entered into discussions with Federal authorities and business and labour leaders to develop an appropriate Canadian reaction to the current situation. In our opinion, that course must include arrangements that, in the short term at least, restrict the number of imported cars being brought into this country in order to allow our own industry sufficient time to regear itself for the new circumstances that prevail within the industry and, at the same time, to reach an arrangement with the foreign manufacturers to increase Canadian content in their products to a level of not less than 85 per cent.

Further, this Province will urge and encourage the Federal Government to join with us in promoting an educational program that will make our citizens more aware that the welfare of all of us is related to the health and vitality of our automotive and other manufacturing enterprises and that that health can only be maintained by appropriate purchasing practices by Canadian consumers. The "Buy Canadian" program has been in place for some time now. Its message, however, must be made more emphatic and the results must be more pervasive.

Ontario's efforts to restructure and revitalize industry will not be confined to the automotive sector. Consistent with the economic development initiatives embodied in the BILD program, the restructured Ministry of Industry and Trade will devote itself to preserving existing jobs as well as creating new job opportunities, enhancing our industrial capacity and developing new market opportunities throughout the world.

The new Ministry will move quickly to expand our Canadian market development resources to assist business, to liaise with other provincial governments and to gather and distribute critical market information to Ontario companies.

A series of wide-ranging trade missions to expand and intensify Ontario's trade opportunities will be undertaken, particularly in Europe, the Pacific Rim, Latin America, and Africa.

At the same time, this Province must build upon its initial successes to ensure that we stay at the forefront of the dramatic changes and opportunities that are currently taking place in those areas of industrial development generally called "microelectronics and high technology". Members are aware we are proceeding with the development of new technological and research centres throughout the Province, as well as the creation of the new IDEA Corporation to ensure more effective cooperation between industry and our educational institutions in the development of meaningful industrial research. These initiatives will be the responsibility of the new Ministry.

Building on the continuing success of the Urban Transit Development Corporation both in Canada and abroad, and the significant opportunities for transportation technology export abroad, UTDC and the Ontario International Corporation will pursue significant new joint marketing initiatives in a complementary way in Europe, Asia and South America.

In line with our efforts to improve the representation of our interests outside Canada, the Ontario office in Brussels will become fully operational, and the present Paris office will be upgraded from a trade office to one representing the full range of Ontario's interests, political, cultural, as well as economic.

New or rapidly expanding small businesses are often constrained in their growth by an inability to acquire equity venture capital. As a positive step in alleviating this problem, the Board of Governors of the Toronto Stock Exchange recently put forward a proposal for the creation of a new Venture Capital Listing for junior resource and industrial companies, subject to exacting rules of disclosure and standards of protection for investors. This new listing will improve the access of entrepreneurial companies in Ontario to public equity markets and to the financing necessary for continued growth and investment. The Government of Ontario urges the TSE to proceed with its proposal, subject to the usual review by the Ontario Securities Commission.

As a complementary measure, aimed at stimulating investor interest in Ontario-based junior companies which list on the proposed Venture Capital Section of the TSE, the Government of Ontario will work closely with officials of the Exchange to introduce an incentive program for investors purchasing new issues of shares in Ontario junior companies. This joint public and private sector initiative will ensure that innovative and entrepreneurial firms in the Province continue to grow and create new employment opportunities for all Ontarians.

One of the essential components of stable economic development is a secure source of skilled manpower to meet the needs of business and industry. While Ontario's training infrastructure is without parallel in Canada, more can be done to meet changing needs. We reaffirm our commitment to the development of skilled manpower in this Province and will work to ensure that adequate funding and design are committed to occupational training. Particular attention will be paid to the

introduction of a wage incentive program for the training of high level software development specialists.

Ontario is prepared to work cooperatively with the Federal Government to improve the manpower training system. However, we are convinced that no significant advance can be achieved without meaningful and substantial input from the parties most directly concerned—labour and management. Accordingly, Ontario will expand the membership of the Ontario Manpower Commission by the addition of senior representatives from the labour and management communities.

Despite current economic trends, the tourism industry has, within the last two years, demonstrated its significant growth potential.

Over 28 million United States visitors entered Ontario in 1981, representing a significant increase over the previous year. This trend, coming as it does from the United States, Ontario's largest foreign tourism market, is evidence of the efforts which the industry is making, under the umbrella of the Government's 'Yours to Discover!' marketing program.

These visitor increases translate into additional jobs in our hospitality sector, now estimated to employ 500,000 Ontarians.

In meeting both the economic and social needs of our Province, many programs have been developed over the past several years, which relate to tourism and recreational development. In order to maximize program development and delivery, and to exploit the full economic potential of tourism development and recreational usage of Ontario's resources, my Government is creating a new Ministry of Tourism and Recreation.

Additional resources will be provided to expand the successful tourism marketing program, particularly in the United States and Europe. This initiative signifies the high priority being placed on both the economic and social value of these programs to the people and the economy of Ontario.

Ontario will continue to seek fairness and balance in management-labour relations throughout the Province. As a result, in consultation with the Ministries of Labour and Industry and Trade, measures to provide protection for employees under the Employment Standards Act will be advanced in such areas as unjust dismissal and protection of severance pay. In addition, proposals will be brought forward to strengthen existing equal pay provisions; to further the advancement of women in the work force in both the public and private sectors; and to extend the counselling and training of workers affected by plant closures.

In addition, the Government will continue to confer with interested parties with respect to reform of the workmen's compensation system of Ontario, along the lines outlined in the White Paper on workers' compensation tabled during the last Session.

Energy users in all sectors of the Ontario economy have been making significant efforts in energy conservation. To support these efforts, the Government will undertake an expanded program of education, drawing on the results of our investment in energy research and development to provide citizens and businesses with the information they need to make their own sound decisions. A special focus will be to provide those in the building industry with essential information on conservation

techniques and materials in order to reduce energy consumption in both new and existing homes.

The Ministry of Agriculture and Food and the Ministry of Energy will implement an expanded agricultural energy management program to support Ontario agriculture in adjusting to changing energy supply and price so as to maintain its present efficient and competitive position.

Initiatives will be taken this year to advance the agricultural and industrial potential of the Bruce Energy Centre. Specifically, a greenhouse complex will be developed, designed to replace imported products and to expand Ontario's greenhouse industry. At the same time, a major national and international marketing program will be undertaken to attract industry to the Centre to take advantage of the low cost and secure supply of steam energy available from the Bruce Nuclear Power Development.

Ontario's electrical power system continues to be a cornerstone of the Provincial economy and the envy of other jurisdictions. Its continued vitality and development to meet our needs is essential to sustaining economic growth.

Ontario Hydro is currently engaged in the largest capital construction program in its history. Three nuclear generating stations are under construction at Bruce, Pickering and Darlington and, as noted in the BILD report, are "directly responsible for thousands of construction jobs and the well-being of a multitude of sophisticated supply industries".

My Government remains firmly committed to having Ontario Hydro reduce the acid gas emissions from its coal-fired generating stations by half by the year 1990. As a public corporation, Ontario Hydro must set an example for others to follow. Hydro will undertake whatever steps are necessary to meet the emission levels stipulated in the government's regulation. These steps will include designing and retrofitting scrubbers, installing some seven hundred special burners, increasing use of blended and low-sulphur coal, and replacing coal generation with new nuclear and hydraulic energy. By way of this program, Ontario Hydro—under the direction and regulation of my Government—will provide leadership in the reduction of contributions to acid rain.

In the long term, Ontario will have to change to an economy based primarily on renewable and essentially inexhaustible energy sources. A fuel of great promise in this regard is hydrogen. In 1981 the Government established the Institute for Hydrogen and Electrochemical Systems as a focal point for advanced research and development in these new energy systems. In addition the Ministry of Northern Affairs will coordinate programs to stimulate and encourage pilot projects using peat and waste wood.

My Government, through the Ministry of Transportation and Communications in cooperation with Canadian National Railways, will undertake a review on long-term options for improved commuter rail service. The Ministry together with GO Transit will also review bus service and commuter parking facilities.

It is recognized that the planned withdrawal of VIA rail services to a number of communities north and east of Toronto on September 7, 1982 will cause hardship and inconvenience to hundreds of daily commuters. As an interim measure, my

Government intends to replace certain of those services using GO Transit, Stouffville, Unionville and Agincourt will have their one VIA train per day replaced by GO rail service. GO bus service and other bus systems will provide services further along this corridor. For commuters in the northern corridor, GO rail service will commence as far north as the Bradford area. Bus service will be improved to carry passengers north to Barrie from the end of the rail service.

The Ministry of Transportation and Communications will be introducing a Child Restraint Program in the form of legislation during the Spring Session. These amendments to the Highway Traffic Act will provide for mandatory restraints for children under the age of five, or fifty pounds, travelling in automobiles in the Province of Ontario. This initiative will permit maximum protection for small children.

In Northern Ontario, specific social and economic activities will be pursued to enhance the quality of life and breadth of economic opportunity in that important region of Ontario. The Government will take a significant step to deal with the needs of elderly people in the small and remote communities of Northern Ontario.

In conjunction with the Ministries of Health, Community and Social Services and Municipal Affairs and Housing, the Ministry of Northern Affairs will initiate a special program of assistance to these communities to establish small facilities suitable to the provision of extended care services for elderly people that will allow them to receive the care they need closer to home.

The Ministries of Health and Community and Social Services will examine jointly the problems of those homes providing extended care for elderly people that require special nursing services.

In Ontario, we continue to enjoy one of the finest health care systems in the world and the Government remains committed to its continuing excellence, despite attempts by the Federal Government to reduce its levels of support.

While we maintain this excellence, we intend to focus in some very direct ways during the coming year on the twin problems of heart disease and cancer which continue to plague us. The Ministry of Health will undertake a range of health promotion programs to encourage healthy habits aimed particularly at the young people of the Province. At the same time, the Ministry will join with the Cancer Treatment Centres of Ontario to provide them with newly developing diagnostic tools.

We intend immediately to assist Princess Margaret Hospital to install a nuclear diagnostic system so that it will have the safest and most advanced method for diagnosing malignant tumors in their earliest stage.

As the next step in the development of an advanced life support system within the emergency services of Ontario, we will be developing special advanced training programs for ambulance personnel and begin the establishment of a province-wide program of utilization of these services. We will also introduce special pilot programs with other governments and voluntary agencies to teach cardio-pulmonary resuscitation techniques to a broad section of the population.

Planning is currently underway for the implementation of the recently announced changes to the homemaker programs of Health and Community and

Social Services. These are designed to improve the availability and accessibility of services, and the assessment of needs particularly with respect to frail elderly people and the physically handicapped. The Ministry of Health is responsible for the program, which will be operated by local home care agencies. It will be phased in, commencing in 1982, with five or six areas which already have Health's acute and chronic home care programs. This initiative will also provide relief from the burden that had been carried by municipal social services.

My Government is committed to fostering the independence of seniors and recognizing the valuable contribution of their talents, experience and skills. In keeping with this commitment a Seniors Secretariat has been established within the Secretariat for Social Development. The Seniors Secretariat will develop a cooperative working relationship among Government, voluntary organizations and senior citizens to ensure that appropriate planning takes place to respond to the increasing number and changing expectations of seniors in the Province.

My Government has demonstrated a major commitment to meeting the need for day care services which has resulted from such societal changes as the growth in single parent families and the increased involvement of women in the work force. This commitment will be maintained, recognizing that the Government must work in partnership with others such as parents, municipalities and the private sector. Support of parent-sponsored programs, particularly those which make use of empty space available in schools, will be encouraged to develop appropriate programs for those in need of day care. Recently established supports for the informal network of day care services will be maintained and expanded. It is only by recognizing the ongoing role of all of the major partners in the provision of day care services that an appropriate range of programs for children will be provided.

Le gouvernement poursuivra vigoureusement sa politique de prestation de services en langue française à la population francophone de l'Ontario. Plusieurs mesures seront prises en 1982 pour améliorer les services en langue française offerts par le gouvernement de l'Ontario et ses agences. En particulier,

- a) nous allons présenter des amendements visant à faciliter l'acceptation des testaments et des autres documents d'enregistrement des titres fonciers en français;
- b) nous allons proposer un amendement à la loi municipale afin de donner le choix aux municipalités de mener leurs affaires en français ainsi qu'en anglais;
- c) nous allons améliorer les capacités d'un certain nombre de ministères et agences en matière de services en français, aussi bien dans les bureaux centraux que régionaux, selon les besoins.

Legislation will be introduced to establish the new Ministry of Citizenship and Culture. Its mandate will be to advance and encourage responsible citizenship among the residents of Ontario. This will be accomplished by policies which recognize the pluralistic nature of Ontario society and stress the full participation of all Ontarians as equal members of the community. We will encourage the sharing of cultural heritage, while affirming those elements of Canadian identity held in common by all. To this end, the Ministry will assist in the stimulation of cultural

expression and cultural preservation, including the development of individual and community excellence.

The Ministry of Citizenship and Culture will be designated as the lead ministry for multiculturalism in my Government.

Effective law enforcement is one of the cornerstones of a civilized and just society and with this in mind my Government reconfirms its commitment to maintain the present high quality of policing in Ontario.

New initiatives will be presented with respect to civil procedure in the Courts through a "Court of Justice Bill". Ontario will also firmly opt in to all the provisions of the Charter of Rights in the New Constitution.

A systematic review of all Ontario legislation and government programs will be undertaken to ensure that my Government's commitment to the provisions of the Charter of Rights and Freedoms is met. My Government will also undertake a review of existing legislation with respect to the primacy of the recently passed amendments to the Human Rights Code. This review will be completed and the necessary adjustments made within the two year period in the Act.

One of the major accomplishments of the Legislature in the last Session was the passage of a comprehensive new Human Rights Code which, among other things, extends protection to the handicapped. It is the intention of the government to proclaim the legislation in June, to coincide with the twentieth anniversary of the passage of Ontario's original Human Rights Code, the first in Canada.

We in the Government of Ontario shared in the pride and joy of all Canadians in the successful resolution of our constitutional differences with the signing of an accord on November 5th of last year. We look forward with great anticipation to the visit of Her Majesty The Queen when our Constitution will finally be brought home.

We will continue to work towards bringing the Province of Quebec into the constitutional consensus. Further, we remain committed to the full participation of aboriginal peoples in the definition and entrenchment of their rights within our constitution and a Conference of First Ministers will be held to complete the work on the constitutional accord.

Overall, Ontario will seek to provide stability and opportunity at home while urging more balanced economic policies upon the Government of Canada.

Our own resources in Ontario, both human and natural, and our inherently strong manufacturing base can combine to shape an economic recovery of impressive proportions. For the unemployed, this cannot happen fast enough.

Ontario must and will do all that it can, within the limits of its own financial resources, to improve the climate for the creation of jobs, sustain economic growth and enhance opportunity. We must do so both within our means and with all the means at our disposal.

We shall continue to pursue a pro-growth, pro-investment, pro-Canadian participation in our economic program, stressing the accelerated development of our small business, agricultural, manufacturing, export and high technology sectors.

It is during challenging times that this Government and this Parliament face the most difficult yet important task of serving with both sensitivity and humanity, the interests of the people we are all most fortunate to serve—the people of Ontario.

May Divine Providence attend your deliberations.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

His Honour was then pleased to retire.

"This House further regrets that the Speech from the Throne fails to recognize the province's own authority and jurisdictional responsibility to take action to relieve the social and human consequences of our economic situation or to combat the devastating effects of the federal government's high interest rate policy and the resulting unemployment.

And further this House condemns the government for failing (a) to create a crown corporation in the auto parts sector to achieve Canada's fair share, and which would take as its first responsibility the formation of a consortium with Massey Ferguson and Chrysler to create a diesel engine facility in Windsor; (b) to move into an ownership role in the resource sector; (c) to take steps to initiate an interest rate relief program for farmers, small business and home owners; (d) to establish a moratorium on foreclosures of property as has been done by the provincial governments in Saskatchewan and Manitoba; (e) to safeguard and enhance the health care and social services systems of this province.

Finally this House condemns the government for failing its responsibilities to protect adequately the community and work environment of its citizens, and specifically condemns the government for exempting from an environmental assessment Ontario Hydro's project for an underwater cable to export electrical power to the United States, and therefore this government has lost the confidence of this House."

The following Committees met:

Standing Committee on Resources Development.

THIRTEENTH DAY

THURSDAY, APRIL 1ST, 1982

PRAYERS

2.00 O'CLOCK P.M.

Mr Speaker addressed the House as follows:—

On Tuesday last, the Leader of the Opposition raised what he considered to be a Matter of Privilege with respect to a letter by one Bryan Rowntree, President of the Toronto Automobile Dealers Association calling on the members of that Association to support a fund-raising dinner, apparently organized by the Muskoka P.C. Association in honour of the Honourable Frank Miller the Member for Muskoka.

At the outset I must once again point out, as have my predecessors on many occasions, that it is no part of the responsibility of the Speaker to investigate and report back. The Speaker's sole function in such matters is to decide whether or not a

prima facie case or a breach of privilege has been made out. If he rules that there is a *prima facie* case, then *the House* may deal with it as it sees fit.

I have examined the documents presented to me with great care and I find that the notice of the dinner appears to be an ordinary notice of a political fund-raising dinner such as is common to all parties.

Mr. Rowntree's letter urges the members of his association to subscribe to this dinner. I suggest that that is his privilege if he wishes to do so and does not come under the control of this House. There is no suggestion that the Member for Muskoka was a party to Mr. Rowntree's action and Mr. Rowntree's motives for that action are his own and not the responsibility of the Member for Muskoka or of this House. It is therefore obvious that this is not a Matter of Privilege.

Mr. Taylor (Prince Edward-Lennox) from the Select Committee on Pensions presented the Committee's Final Report and moved adoption of its recommendations (*Sessional Paper No. 47*).

On motion by Mr. Taylor (Prince Edward-Lennox),

Bill Pr11, An Act respecting 373800 Ontario Limited. *Mr. Williams*.

Bill Pr15, An Act to revive John F. McLennan (Bloor) Limited. *Mr. Kennedy*.

Mr. Breaugh moved, seconded by Mr. Cooke, That, pursuant to Standing Order 34 (a) the ordinary business of the House be set aside so that the House may debate a matter of urgent public importance, namely the acute and critical situation in Oshawa resulting from General Motor's indefinite lay-off of 1,750 workers, the

equally critical situation in Windsor with the announced shut-down of the Ford engine plant and other lay-offs in the automotive sector around the Province, and the failure of this government to introduce programs that would begin to address this very compelling problem.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled that the motion was in order, and the House having agreed, the debate proceeded to conclusion.

The House, according to Order, resolved itself into the Committee of Supply.

The following Committees met:

EIGHTEENTH DAY

THURSDAY, APRIL 8TH, 1982

PRAYERS

2.00 O'CLOCK P.M.

Mr. McCague delivered to Mr. Speaker a message from the Honourable the Lieutenant Governor signed by his own hand, and the said message was read by Mr. Speaker and is as follows:—

JOHN B. AIRD

The Lieutenant Governor transmits Estimates of certain sums required for the services of the Province for the year ending the 31st day of March, 1983 and recommends them to the Legislative Assembly.

Toronto, 8th April, 1982.

(Sessional Paper No. 3—Ministries of Intergovernmental Affairs, Revenue, Environment, Transportation and Communications, Community and Social Services and Health).

Ordered, That the message of the Lieutenant Governor, together with the Estimates accompanying same, be referred to the Committee of Supply.

Mr. Speaker informed the House that, in the name of Her Majesty the Queen, the Honourable the Lieutenant Governor had been pleased to assent to the following Bill in his Chambers:—

Bill 8, An Act to amend the Fuel Tax Act, 1981.

Mr. Barlow from the Standing Committee on General Government presented the Committee's Report which was read as follows and adopted:—

Your Committee begs to report the following Bill with certain amendments:—

Bill Pr3, An Act respecting the City of Toronto.

On motion by Mr. Wells,

Ordered, That, the motion for adoption of the recommendations contained in the Ninth Report of the Select Committee on the Ombudsman, 1981, being Sessional Paper No. 309 Tabled December 14th, 1981, be revived and placed on the Order Paper for further debate.

The following Bills were introduced and read the first time:—

Bill 48, An Act to amend the Legislative Assembly Act. *Mr. Ruston.*

Bill 57, An Act to amend the Residential Tenancies Act. *Mr. Philip.*

Bill 58, An Act to amend the Residential Tenancies Act. *Mr. Philip.*

Bill 59, An Act to amend the Residential Tenancies Act. *Mr. Philip.*

Mr. Bradley moved, seconded by Mr. Conway,

That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation.

And a debate arising at 4.37 p.m. further proceedings on the motion were reserved until 5.50 p.m.

Mr. Cooke then moved, seconded by Mr. McClellan,

That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines

and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added.

“This House further regrets that the Speech from the Throne fails to recognize the province’s own authority and jurisdictional responsibility to take action to relieve the social and human consequences of our economic situation or to combat the devastating effects of the federal government’s high interest rate policy and the resulting unemployment.

And further this House condemns the government for failing (a) to create a crown corporation in the auto parts sector to achieve Canada’s fair share, and which would take as its first responsibility the formation of a consortium with Massey Ferguson and Chrysler to create a diesel engine facility in Windsor; (b) to move into an ownership role in the resource sector; (c) to take steps to initiate an interest rate relief program for farmers, small business and home owners; (d) to establish a

moratorium on foreclosures of property as has been done by the provincial governments in Saskatchewan and Manitoba; (e) to safeguard and enhance the health care and social services systems of this province.

Finally this House condemns the government for failing its responsibilities to protect adequately the community and work environment of its citizens, and specifically condemns the government for exempting from an environmental assessment Ontario Hydro's project for an underwater cable to export electrical power to the United States, and therefore this government has lost the confidence of this House."

TWENTY-FIFTH DAY

WEDNESDAY, APRIL 21ST, 1982

The Standing Committee on General Government met.

TWENTY-SIXTH DAY

THURSDAY, APRIL 22ND, 1982

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

Last week, Mr. Shymko, the Member for High Park-Swansea, as Chairman of the Social Development Committee, questioned the validity of the Petition Tabled on March 30th by Mr. Johnston (Scarborough West) under Standing Order 33 (b) to refer the Annual Report of the Ministry of Community and Social Services for the fiscal year ending March 31st, 1980 to the Standing Committee on Social Development.

Mr. Shymko pointed out that Standing Order 33 (b) applies only to reports required by Statute. This is, of course, correct as it is clearly stated in the Standing Order. However, Mr. Johnston mentioned that he understood there had been some precedents for petitions being accepted respecting reports which were not statutory.

I have had this looked into very carefully and I find that twenty-three petitions under this Standing Order have been filed prior to the one under consideration. Of that twenty-three, nineteen concerned Statutory Reports while four were for reports not required by Statute, three of the four having been presented in the previous Parliament and one in the first Session of this Parliament on April 27th, 1981.

This places me in something of a dilemma. As no objection was taken to the previous four, it might be considered that some precedent had been established despite the clear wording of the Standing Order.

However, I think the more reasonable interpretation is that the lack of objection amounted to unanimous consent in those instances. I have therefore come to the conclusion that the most reasonable way of disposing of the present difficulty is to allow this reference to stand but at the same time advise the House that the Table Officers have now been furnished with a list of all reports required by Statute and henceforward when such petitions are Tabled they will be checked against that list and not accepted if the report in question is not required by Statute.

The following Bill was introduced and read the first time:—

Bill 87, An Act respecting the Succession to Estates of Deceased Persons in Ontario who have Beneficiaries residing in Designated Countries. *Mr. Breithaupt.*

The Answers to Questions Nos. 15, 21, 54, 55, 58, 59, 61, 62, 63, 65, 71, 73 and 76 were laid upon the Table (*See Hansard*).

Pursuant to Standing Order 81 (e), the Answers to Questions No. 60 (*Sessional Paper No. 68*), No. 66 (*Sessional Paper No. 69*), No. 67 (*Sessional Paper No. 70*), No. 68, (*Sessional Paper No. 71*) and No. 82 (*Sessional Paper No. 72*) were made Returns.

The Interim Answers to Questions Nos. 53, 56, 57, 64 and 70 were laid upon the Table (*See Hansard*).

The Debate on the motion for Second Reading of Bill 36, An Act to establish the Ministry of Citizenship and Culture was resumed and after some time was again adjourned.

Mr. Rotenberg moved, seconded by Mr. McLean,

That this House urge the Federal Government to rescind provisions under section 14 of the Canada Post Corporation Act which prohibit the efficient delivery by businesses and public organizations of their own mail, and, further, that the Federal Government rescind provisions under section 15 of the Canada Post Corporation Act which control the prices charged by private delivery services and have the effect of giving the Post Office a monopoly on the delivery of mail in Ontario.

Pursuant to Standing Order 64 (e) no objection having been made to the putting of the question on Mr. Rotenberg's Resolution (*No. 13*), the question having been put was carried on the following division:—

THIRTY-FOURTH DAY

TUESDAY, MAY 4TH, 1982

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Friday last, several Members raised what they considered matters of privilege and there have been so many of these instances recently that I agreed to make a statement on what constitutes privilege. I feel that I should once again direct the attention of the House to the definition of privilege contained in Standing Order 18 (a) "Privileges are the rights enjoyed by the House collectively and by the Members of the House individually conferred by the *Legislative Assembly Act* and other Statutes, or by practice, precedent, usage and custom". I also direct the Members attention to the definition of privilege contained on Page 67 of the 19th Edition of

May's Parliamentary Practice which reads as follows: "Parliamentary privilege is the sum of the peculiar rights enjoyed by each House collectively as a constituent part of the High Court of Parliament, and by Members of each house individually, without which they could not discharge their functions, and which exceed those possessed by *other bodies or individuals*". These definitions make it clear that to be a matter of privilege it must pertain to one of those special rights which the ordinary citizen does not enjoy.

I will now refer briefly to some of the specific instances raised. On April 22nd the Member for Ottawa East referred to a directive which he stated had been circulated by the Ministry of Health to the effect that local or district councils are prohibited from making representations to or speaking with Opposition Members. I have no way of knowing whether or not the Members did have a special privilege to confer with the Health Councils which other bodies or individuals did not have. If not, complaints should, of course, be directed to the Ministry. On Friday April 30th, the Member for Oshawa and several others complained about the difficulty of obtaining information from the various Ministries. The only Standing Orders that deal with Members obtaining information from the Ministry are those dealing with oral and written questions and notices of motion for returns. I know that Members do very often telephone directly to a Ministry asking for certain information, but unless it can be established that the Members have a special right or privilege to use this procedure, which the general public does not have, then it does not concern the House and is not privilege as above defined. It is rather, as I suggested last Friday, a matter between the Member and the Ministry.

I must again remind the House that the Speaker's only prerogative with respect to alleged matters of privilege is to determine whether or not a *prima facie* case of privilege has been made out. The Speaker is not required nor has he the right to "look into the situation very deeply and to make a ruling on the rights of Members of this Legislature to meet and talk to people who are purportedly members of the public appointed to do a specific job" as the Member for Oshawa requested me to do on Thursday, April 22nd. If a *prima facie* case of privilege is made out then, as has been stated many times, it is up to the House to deal with it in the proper way.

On motion by Mr. Wells,

Ordered, That, notwithstanding Standing Order No. 64 (d) Mr. Breithaupt and Mr. Peterson exchange positions and then Mr. Peterson and Mr. Reid (Rainy River) exchange positions in the order of precedence for Private Members' business to be debated.

Ignoring the plight of the many homeowners whose mortgages come up for renewal this year, by refusing to introduce specific interest rate relief programmes;

Ignoring the plight of the many small businessmen who are operating at very near or below the breakeven point, by refusing to introduce interest rate relief programmes;

Ignoring the plight of the farmers who face modern day record numbers of bankruptcies, by refusing to introduce specific interest rate relief programmes;

Ignoring the plight of the unemployed, by refusing to introduce serious long-term job creation programmes;

Punishing the citizens of this province who are at the lower end of the income scale, the poor, the elderly on fixed incomes, by removing a large number of sales tax exemptions and thereby forcing these individuals more than any other class to pay a larger portion of their incomes to this government;

Further punishing low income earners by increasing OHIP premiums;

Jeopardizing the operations of the municipalities and school boards of this province, by removing their exemption from various sales taxes and increasing their OHIP group plan costs, thereby placing them in a deficit position or forcing them to cut back on programmes;

Threatening the quality of Ontario's hospitals, universities, colleges and other institutions by warning them that this government will continue to underfund their basic requirements;

Refusing to recognize Ontario's industrial decline and the need for a definitive industrial strategy as well as massive retraining programmes for Ontario workers;

Refusing to recognize the impact on the provincial deficit of such wasteful and ill-advised expenditures such as the purchase of a one quarter interest in Suncor, the assemblage of land banks, and the extravagance of a luxury jet;

Producing a budget which is unfocused, without direction, lacking long-term vision, regressive in its tax impact and contradictory to what had hitherto been announced government policies;

Therefore, this government lacks the confidence of the House".

The Order of the Day for resuming the Adjourned Debate on the amendment to the motion, That this House approves in general the Budgetary policy of the Government, having been read,

The debate was resumed and, after some time,

Mr. Cooke moved, seconded by Mr. Martel,

That the amendment to the motion be amended by adding thereto,

This House rejects the massive shift in the burden of taxation to those least able to afford it. Specifically, this House rejects the elimination of exemptions from sales tax for many essential items and the massive increase in OHIP premiums; further this House regrets the absence in the Conservative budget of,

- i) adequate programs to assist the 32,500 homeowners facing the loss of their homes because of Liberal high interest rates
- ii) adequate programs to assist tenants whose rents are increasing substantially because of increased finance charges to landlords as a result of Liberal high interest rates
- iii) adequate programs to assist the thousands of small businesses in this Province that are suffering because of Liberal high interest rates

- iv) adequate programs to help farmers in this Province who are also suffering because of Liberal high interest rates

Further, this House rejects the Liberal and Conservative philosophy of only helping the so-called "winners" in our society, thereby ignoring the more than 500,000 people in this province living in poverty, namely, those on Family Benefits, disability pensions, Workmen's Compensation benefits, and single pensioners receiving GAINS, and this House regrets the absence of any programs to create adequate numbers of short-term jobs or adequate programs to correct the structural problems within the economy to enable the creation of long-term jobs.

Further, this House regrets the fact that the government refuses to introduce legislation to improve the economic status of women, namely,

- i) Equal Pay for work of equal value legislation
- ii) Affirmative Action legislation

and this House regrets that this government has not taken steps to provide for universal access to quality child care.

Finally, this House rejects the additional cost imposed on hospitals, colleges, universities, municipalities and school boards, which will, in effect, eliminate the additional provincial grants announced earlier this year, and will also result in a decrease in services and increased property taxes.

For these reasons, the government no longer enjoys the confidence of this House.

The debate continued and after some time,

FORTY-NINTH DAY

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:

On Tuesday last, arising out of the allegations made in the House I agreed to look into the matter more closely although I am sure the Members appreciate that such is not my responsibility. I must point out once again that the Speaker has no authority nor obligation to investigate and report back on anything.

The Member for Sudbury East, as he has before, expressed the opinion that if a Member feels strongly that any Member, be it a Minister or not, has misinformed the House he should have the right to say so and that the Speaker should decide whether the Member in question has in fact misled the House and if so insist he withdraw the statement. It must be understood even the allegation that a Member has not told the truth is a serious breach of Parliamentary precedent. The whole system of Parliament is based on the assumption that Members are all Honourable Members and Members must accept each others word. Such an allegation is not only not a matter of privilege therefore, but as stated is a serious breach of Parliamentary practice.

A Member may seek to correct the record, he may raise the matter in the Question Period, he may deal with it in one of the major debates or in consideration of estimates. If he or she sincerely believes the Minister's statement to be incorrect there are many ways of putting this point across without breaking the rules of Parliament for example, "The Minister has been misinformed" or "The Minister is mistaken in his facts".

Finally, I repeat what I said to the House recently, that is that privilege pertains only to those special rights that the House and its Members enjoy which other citizens do not.

Mr. Harris from the Standing Committee on Resources Development presented the Committee's Report which was read as follows:—

Your Committee begs to report that it has completed its consideration of the Annual Report of the Workmen's Compensation Board for 1980 as instructed by the House on the 18th of March last.

Mr. Dean from the Standing Committee on General Government presented the Committee's Report which was read as follows and adopted:—

Your Committee begs to report the following Bills without amendment:—

The Interim Answers to Question Nos. 143, 144, 145, 147 and 172 were laid upon the Table (*See Hansard*).

Mr. Stevenson moved, seconded by Mr. Dean,

That in the opinion of this House, and as a result of the increased potential contribution of biotechnology to Ontario's economic and industrial growth, the Government should take the necessary immediate steps to establish an Ontario Biotechnology Advisory Council representative of industry, government and the academic community. The purpose of such a Council would be: (1) to advise the cabinet and the Minister of Industry and Trade on specific policies and programs designed to allow Ontario to take advantage of the opportunities offered by biotechnology; (2) to identify those areas of research and development of biotechnology in which Ontario has a competitive advantage; (3) to encourage, promote and increase public awareness of the benefits of biotechnology; (4) to liaise with industry and universities to ensure appropriate technology transfer; and (5) to undertake appropriate measures to ensure the availability of skilled manpower for the industry.

And a debate arising at 4.40 p.m. further proceedings on the motion were reserved until 5.50 p.m.

Mr. Breithaupt then moved Second Reading of Bill 98, An Act to provide for Freedom of Information and Protection of Individual Privacy.

Pursuant to Standing Order 64 (e) no objection having been made to the putting of the question on Mr. Stevenson's Resolution (No. 19) the question having been put was declared carried,

And it was,

Resolved, That in the opinion of this House, and as a result of the increased potential contribution of biotechnology to Ontario's economic and industrial growth, the Government should take the necessary immediate steps to establish an Ontario Biotechnology Advisory Council representative of industry, government and the academic community. FIFTY-FOURTH DAY

THURSDAY, JUNE 3RD, 1982

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

The Members will remember that last Session when I attempted to return to the original Parliamentary practice of recognizing the Members by name when they rise to speak, a number of Members objected to this practice and wished that I return to the practice, which has grown over the years, of recognizing Members by their Electoral Districts or Ministers by their portfolios. In accordance with those expressed wishes, I have followed that practice.

You can imagine my astonishment therefore when I find that the Members, including those that protested the change that I had attempted, are now in the habit of referring to other Members by name in *debate*, sometimes by even by their first names alone or with surnames. Debate of course, is the one time when it is completely out of order to so refer to other Members. I would therefore ask the Members to be more careful to adhere to the correct Parliamentary rule in debate of referring to other Members properly by their Electoral Districts and Ministers by their portfolios or in either case even by some such indication as “the Honourable Member who has just spoken”, etc.

Mr. Ruston presented a petition re: the recent amendment to the Retail Sales Tax Act. (*No. 122*).

Bill 134, An Act to acquire the Assets of Inco Limited. *Mr. Martel.*

EIGHTY-SECOND DAY

TUESDAY, SEPTEMBER 28TH, 1982

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

It has been pointed out to the House on many occasions that it is not part of the Speaker's responsibility to investigate matters of Privilege and report back to the House. However, in the matter raised by Mr. Riddell, the member for Huron-Middlesex, on September 23rd, because the Hansard Editor of Debates is a senior employee of the Office of the Assembly whose department falls under my jurisdiction, I feel it is incumbent upon me to advise the House of the circumstances which gave rise to the honourable member's point.

Mr. Brannan recently wrote an article on the production of Hansard for the *Canadian Parliamentary Review*. He was subsequently contacted by a representative of the press and gave a brief telephone interview on his article. The reporter wrote an article which was carried in *The Globe and Mail*. The article was subsequently reproduced in the Government publication referred to by the honourable member.

I have reviewed various articles, including the portion of the Government publication purporting to quote Mr. Brannan. Mr. Brannan has assured me unequivocally that he did not make the comments referred to by the honourable member in his point of Privilege.

On motion by Mr. Wells,

Ordered, That, notwithstanding Standing Order 64, Private Members' business will not be considered Thursday, September 30th.

Pursuant to Standing Order 34 (a), Mr. Johnston (Scarborough West) moved, seconded by Mr. Mackenzie, that the ordinary business of the House be set aside to debate a matter of urgent public importance: that thousands of Ontarians on public allowances and benefits are falling further behind inflation and more deeply below the poverty line; and that many more individuals and families will be on welfare as their Unemployment Insurance Benefits run out; that Workmen's Compensation Board recipients and other pensioners in receipt of GAINS need immediate action on their behalf; and that the Ministry of Community and Social Services has had before it since June a report urging the increase of social assistance benefits.

After hearing the arguments of the other parties, Mr. Speaker ruled as follows:—

I have listened very carefully and with great interest to the comments of all three parties. Quite frankly, I want to say that as a Province we are indeed faced with a very serious problem. I recognize that and I do not want to diminish it in any way.

However, in my opinion, I must point out to the House that the proposed motion seeks to anticipate part of the amendment to the amendment to the Budget motion which was moved by the member for Windsor-Riverside, Mr. Cooke, and seconded by the member for Sudbury East, Mr. Martel, on May 20th, 1982. I must advise all members that part of that amendment is substantially the same as the motion now proposed.

Moreover, Lewis's *Parliamentary Procedure in Ontario*, on page 40, states: "A motion for adjournment under this rule must be restricted to a single specific matter of recent occurrence, and having been discussed, cannot again be brought up during the same session."

In my opinion, I feel the terms of the proposed motion are too general to comply with this requirement and indeed appear to include several related matters rather than one specific matter. Therefore, I have to rule the motion out of order.

Mr. Speaker's ruling was sustained on the following division:—

EIGHTY-SIXTH DAY

MONDAY, OCTOBER 4TH, 1982

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Thursday last after the disturbance which led to the clearing of the public galleries, I agreed to make a statement on the matter early this week. Unfortunately, in my absence on Friday an incident arose which perhaps was a reaction from the disorder on Thursday and natural fear of a repetition. I think I should emphasize that there is no dress code for the public galleries as long as the apparel does not form part of an obvious demonstration, which is not permitted in the House or inside the Legislative Building. Such demonstrations are, of course, an affront to and contempt of the whole House no matter to whom directed.

To deal with the disturbance of Thursday and the questions arising therefrom, first, as to the suggestion that the action taken last Thursday in some way infringes the privileges of the House and of the Members, I point out that there is no recognized privilege of the Members to have an audience in the galleries. On the contrary one of the most important privileges of the House is to be allowed to conduct its business and its debates without interruption, disorder or attempted intimidation from the galleries. There is ample authority for the action taken, in Standing Orders 6 and 9 and by many precedents in this House and other parliaments. I refer you to the 19th Edition of May's *Parliamentary Practice* at page 223 where under the heading "Misconduct of Strangers in the Galleries" it states: "Individual instances of miscon-

duct on the part of strangers admitted to the galleries of the House have occurred from time to time, and the offenders have been removed from the galleries, *or the galleries have been closed by the Speaker's directions, or the Speaker has issued a warning of his intention to clear the galleries if disorderly behaviour were to continue.*" I also find very interesting the quotation from the *House of Representatives Practice* in Australia in which the parliamentary practice is very succinctly stated as follows: "Admission to the galleries is a privilege extended by the House and people attending must conform with established forms of behaviour. People visiting the House are presumed to do so to listen to debates, and it is considered discourteous for them not to devote their attention to the proceedings. Thus, photographs are not permitted to be taken in the Chamber, and visitors are required to refrain from reading, writing, conversing, applauding, eating and so on. Successive Speakers of the House have upheld these rules. *Visitors in the galleries are not permitted to display signs or banners.*"

To sum up the matter as briefly as possible, may I say that strangers are permitted to remain in the galleries as long as they obey the rules and traditions of Parliament and listen, without any demonstration, applause or disorder of any kind. The Speaker has always been charged with the enforcement of this principle and if, as on Thursday last, it becomes impossible to isolate those causing the disturbance, there is no alternative but to clear the gallery in accordance with the precedents cited.

Ordered, That, Mr. Reed (Halton-Burlington) and Mr. Peterson exchange places in the order of precedence for Private Members' Public Business.

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:—

The Pages are now distributing to each Member lapel pins for the use of members of the Ontario Branch of the Commonwealth Parliamentary Association.

The design on the pins has been adopted for the use of the Ontario Branch of the C.P.A. and establishes a symbol which is separate from the Coat of Arms used by the Legislative Assembly and from the symbol used by the Headquarters Secretariat of the Commonwealth Parliamentary Association. The new symbol was designed by Bob Carter of the Office of the Chief Election Officer.

The pin has two component parts. The first is the Mace which is the symbol of authority of the Speaker and the House. The second is the silhouette of the Province. The colours—gold and green—are the colours assigned to the Province by Royal Warrant issued by Queen Victoria on May 26th, 1868—the gold of the three maple leaves shown in the gold of the Mace and the green of the field of the Crest shown within the boundaries of the Province.

The pins are not for general distribution but are for the use of members of the Commonwealth Parliamentary Association.

NINETY-SIXTH DAY

TUESDAY, OCTOBER 19TH, 1982

PRAYERS

2.00 O'CLOCK P.M.

Pursuant to Standing Order 33 (b), Mr. Kerrio presented a petition requesting the referral of the Annual Report of Ontario Hydro for the year ending December

31st, 1981, to the Standing Committee on Resources Development. (*Sessional Paper No. 242*) (Tabled October 19th, 1982).

Mr. Speaker informed the House that the Petition met the requirements of the Standing Orders.

On motion by Mr. Wells,

Ordered, That the following substitutions be made on the Standing Committee on Administration of Justice:—

Mr. Watson for Mr. MacQuarrie.

Mr. Piché for Mr. McLean.

Before the Orders of the Day, Mr. Laughren moved, seconded by Mr. Johnston (Scarborough West),

That, pursuant to Standing Order 34 (a), the ordinary business of the House be set aside to discuss a matter of urgent public importance, namely, the announcement by Inco Limited yesterday, October 18th, to extend the shutdown of its operations to April 4th, 1983 and cut its Sudbury workforce by 15%; the misery this will bring to thousands of Sudbury families; the very severe dislocation it will cause in the business community and the public sector; the lack of any program, from any source, to help the Sudbury region recover from this latest setback; and the failure of the Government to initiate action on any of the options available to this Legislature to alleviate the problems.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled as follows:—

As all Honourable Members are aware we have already had two very full Debates on the Sudbury situation in this Session under this Standing Order. I agreed to the second one on the basis that there appeared to be sufficient difference to allow it the benefit of the doubt. However, I now feel that the subject has been well covered and that the recent announcement is not sufficient to merit an additional Debate which, in my opinion, could not help but be repetitious, therefore, I must rule the motion out of order and not of urgent public importance.

On appeal by Mr. Laughren,

Mr. Speaker's ruling was sustained on the following division:—

Before the Orders of the Day,

Mr. Laughren moved, seconded by Mr. Foulds,

That, Pursuant to Standing Order 34 (a), the ordinary business of the House be set aside to discuss a matter of urgent public importance, namely, the announcement by Falconbridge Nickel Mines to permanently lay off an additional 500 workers, bringing to 1,500 the total of Falconbridge workers who will lose their jobs; and since this is in addition to the more than 2,000 permanently lost jobs at Inco, this latest announcement will cause even more hardship in the community; and since there are some positive and imaginative solutions to the crisis in Sudbury, these proposed solutions should be debated in this Legislature at this time.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker stated that in his opinion, the motion was clearly contrary to Standing Order 34 (c) (iv), and, further, that any action taken to bring the debate on must not be thought to establish a precedent. However, that any Standing Order may be waived by unanimous consent, as had been requested. Mr. Speaker therefore asked if there was indeed unanimous consent, and, on being satisfied that such was the case, he permitted the debate to proceed.

ONE HUNDRED AND FIRST DAY

TUESDAY, OCTOBER 26TH, 1982

PRAYERS

2.00 O’CLOCK P.M.

Mr. Speaker ruled as follows:—

On Thursday last, Mr. Mackenzie, the member for Hamilton East, requested me to make a ruling on rulings by the Chairman of the Standing Committee on Administration of Justice. I must point out again, with all the emphasis possible, that there is no procedure by which the rulings of committee chairmen may be appealed to the Speaker. To put it bluntly, the Speaker has no authority to second-guess the chairmen of the various committees. This has not only been clearly indicated many times by former Speakers and by myself, but I refer you to May’s *Parliamentary Practice*, 19th Edition, at the top of page 621, where it is clearly stated, “Following the principle which governs procedure in Committees of the Whole House, no appeal

can be made to the Speaker regarding the decisions and rulings of the Chairman of a Standing Committee”, and this statement is based on a number of precedents recorded in the Parliamentary Debates over a period of many years. I state again that an appeal from the ruling of a committee chairman must be made to the Committee just as in the House an appeal from the Speaker's Ruling is to the House.

Mr. Bradley, the member for St. Catharines, makes the rather unique suggestion that the rule worked well when the minority situation existed in the House because they could overrule the Chairman, but that it does not work well in a majority House. I must point out that it has worked well in majority Houses for well over 100 years. The member for St. Catharines also makes some reference to my alleged persuasive powers in dealing with committee chairmen and Mr. Renwick, the member for Riverdale makes the suggestion that I must instruct the chairmen. These remarks seem to suggest that there is a procedure whereby I instruct and direct the actions of the committee chairmen. I assure you that that is not the case. As has been so often said, each committee conducts its own business within that committee just as the House does within the House *and it is only when a report on a matter within the committee's terms of reference, properly passed by that committee, is presented to the House by the chairman thereof that the contents of that Report may be debated and dealt with by the House.*

Pursuant to Standing Order No. 33 (b), Mr. Epp presented a petition requesting the referral of the Annual Report of the Ministry of Housing for the year ending March 31st, 1981, to the Standing Committee on General Government. (*Sessional Paper No. 256*) (Tabled October 26, 1982).

Mr. Speaker informed the House that the petition met the requirements of the Standing Orders.

Pursuant to Standing Order No. 33 (b), Mr. Epp presented a petition requesting the referral of the Annual Report of the Residential Tenancy Commission for the year ending March 31st, 1982, to the Standing Committee on General Government. (*Sessional Paper No. 259*).

Mr. Speaker informed the House that the Petition met the requirements of the Standing Orders.

On motion by Mr. Wells,

Ordered, That, Mr. Reed (Halton-Burlington) be substituted for Mr. Wrye on the Resources Development Committee and Mr. Haggerty for Mr. Cunningham, Mr. McKessock for Mr. Bradley and Mr. Eakins for Mr. Ruprecht on the General Government Committee.

Before the Orders of the Day, Mr. Peterson moved, seconded by Mr. Conway,

That, Pursuant to Standing Order 34 (a), the ordinary business of the House be set aside to discuss a matter of urgent public importance, namely, the current and continuing crisis in the rental housing market in Ontario and in particular, the impending disastrous consequences for thousands of Ontario tenants arising as a result of the recent rental residential property transaction between Cadillac-Fairview Corporation and Greymac Credit Corporation.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled that the motion was in order and put the question: "Shall the debate proceed?" to a vote of the House, which question was decided in the negative on the following division:

PRAYERS

2.00 O'CLOCK P.M.

Mr. Barlow from the Standing Committee on General Government presented the Committee's Report which was read as follows and adopted:—

Your Committee begs to report the following Bills with certain amendments:—

Bill 159, An Act to revise the Planning Act. *Ordered for Third Reading.*

Mr. Harris from the Standing Committee on Resources Development reported the following Resolution:—

Energy Conservation Program	28,862,800
Regulatory Affairs Program	2,326,700

Before the Orders of the Day, Mr. Peterson moved, seconded by Mr. Conway,

That, Pursuant to Standing Order 34 (a), the ordinary business of the House be set aside to discuss a matter of urgent public importance, namely, the current and continuing crisis in the rental housing market in Ontario and in particular, the impending disastrous consequences for thousands of Ontario tenants arising as a result of the recent rental residential property transaction between Cadillac-Fairview Corporation and Greymac Credit Corporation.

Mr. Speaker ruled as follows:—

I must direct the Leader of the Opposition and all honourable members to Standing Order 38 and Standing Order 39. Under Standing Order 39, if I may just remind you, “No motion or amendment, the subject matter of which has been decided upon can again be proposed during the same Session”.

I further refer to *Lewis* on page 39 which says: “Any matter which has been the subject of a motion or amendment decided in the House cannot again be brought forward during the same session”.

In May's *Parliamentary Practice* on page 368, under the heading of 'Matters Already Decided During The Same Session' it is stated: “A Motion or amendment may not be brought forward which is the same, in substance, as a question which has been decided in the affirmative or negative during the current session. The rule may be fully stated as follows:— No question or bill shall be offered in either House that is substantially the same as one in which judgement has already been expressed in the current session.” *Beauchesne*, 5th Edition, page 150, paragraph 416, is substantially the same as the 19th Edition of May.

Therefore, by the authority under Standing Order 38, I am of the opinion that the motion which has been offered is indeed contrary to the Standing Orders of this House.

By unanimous consent, Standing Order 39 was waived and the debate proceeded to conclusion.

The Answers to Questions Nos. 235, 500, 501 and 539 were laid upon the Table (*See Hansard*).

PRAYERS

2.00 O'CLOCK P.M.

Mr. Shymko from the Standing Committee on Social Development presented the Committee's Report as follows and moved its adoption.

In accordance with the petition in the House on March 30th, 1982, your committee has considered the annual report of the Ministry of Community and Social Services for the year ending March 31st, 1980. Your committee will shortly be presenting to the House a report on wife-battering, but believes that other aspects of family violence require study by the Committee. Once the current session is prorogued, Mr. Speaker's ruling of April 22nd, 1982 will preclude further study of family violence by petition, under Standing Order 33 (b), of the Ministry of Community and Social Services annual report. Accordingly, your committee recommends,

That the Standing Committee on Social Development be authorized to conduct further enquiries into family violence during the interval between the second and third sessions of this parliament.

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker informed the House,

That the Clerk has received from the Chief Election Officer and laid upon the Table the following certificate of a by-election.

ELECTORAL DISTRICT OF YORK SOUTH—ROBERT RAE

PROVINCE OF ONTARIO

This is to certify that, in view of a Writ of Election dated the Twenty-seventh day of September, 1982, issued by the Honourable Lieutenant Governor of the Province of Ontario, and addressed to Mrs. Nancy M. Head, Returning Officer for the Electoral District of York South, for the election of a Member to represent the said Electoral District of York South in the Legislative Assembly of this Province in the room of Donald C. MacDonald, Esquire, who, since his election as representative of the said Electoral District of York South, has resigned his seat, Robert Rae,

Esquire, has been returned as duly elected as appears by the Return of the said Writ of Election, dated the Twelfth of November, 1982, which is now lodged of record in my office.

Toronto, November 12th, 1982

WARREN R. BAILLIE,
Chief Election Officer.

Robert Rae, Esq. Member for the Electoral District of York South, having taken the Oath and subscribed the Roll, took his seat.

The following Bill was introduced, read the first time and referred to the Standing Committee on Regulations and Other Statutory Instruments:—

Bill Pr46, An Act respecting the City of Orillia. *Mr. McLean.*

Mr. Rae moved, seconded by Mr. Foulds, That, pursuant to Standing Order 34 (a), the ordinary business of the House be set aside in order to debate a matter of urgent public importance, namely:—

the unprecedented sale of almost 11,000 apartments by Cadillac-Fairview, which is likely to be followed by sales by other large development firms;

the consequent “flipping” of these properties within days, resulting in huge speculative gains which add nothing to the value of the rental units but which clearly threaten thousands of tenants with economic eviction as a result of the financing cost pass-through allowed under Ontario’s rent review programme;

the complete inadequacy of a rent review programme that permits rental property to be priced beyond reach in order to secure speculative gains for owners and purchasers; and

the prospect of further massive disruption in the rental housing market as other firms take advantage of Ontario’s lax corporate disclosure laws to trade buildings.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled that the motion was in order and put the question: “Shall the debate proceed?” to a vote of the House, which question was decided in the negative on the following division:—

ONE HUNDRED AND SIXTEENTH DAY

FRIDAY, NOVEMBER 19TH, 1982

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:—

Yesterday, the Member for Riverdale asked me to look into his submission that his privileges and the privileges of the House had been abrogated by exchanges

across the floor between the Leader of the Opposition and the Attorney General. I must confess that I have been unable to find one of the recognized privileges of the House or of individual Members which governs this question. Rather, what the Member is alleging is that the exchange offended the *sub judice* rule and that, of course, is a matter of order, not of privilege. What occurred on the occasion to which he referred was that he, the Member for Riverdale, interrupted the exchange to raise the *sub judice* question. As I stated yesterday, I must rely on the House to provide me with sufficient information to convince me that there is a danger that a citizen's rights in the court of law might be prejudiced. As soon as sufficient information had been brought to my attention, I ruled that the matter could not be further pursued while before the courts. This is, of course, the usual and regular procedure in such cases and I am therefore satisfied that the matter was properly dealt with and that no further action is open to me.

On motion by Mr. Wells,

Ordered, That, the consideration of the Estimates of the Ministry of Agriculture and Food be transferred from the Committee on Resources Development to the Committee of Supply; to be taken up immediately after the Estimates of the Ministry of Revenue.

THE EVENING SITTING

8.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

As I undertook before leaving the chair for the supper hour, I have had a chance to consider the point of order which was raised by the honourable member for Riverdale (Mr. Renwick). My conclusion is that a motion was moved in the committee and accepted by the chairman and voted upon and his ruling was sustained.

Pursuant to Standing Order 63 (a) Mr. Reid (Rainy River) moved, seconded by Mr. Wrye,

That, this House condemns the Government for: its lack of action in creating and preserving jobs for the citizens of Ontario; failing to recognize the inadequacies of the job creation and economic stimulation measures contained in the Budget of May 13th, 1982; refusing to cut wasteful expenditures to free needed funds for job creation; the using of monies saved by restraint to cover up its own fiscal extravagance rather than fulfilling its responsibility to the people; failing to introduce a new Budget or mini-Budget to deal with the economic crisis it has helped to create; pretending that the programmes announced on November 22nd, 1982, are a suffi-

cient response to this crisis; remaining blind to the need to recognize the structural changes accompanying Ontario's decline and the need for a specific industrial strategy as well as massive retraining programmes to ameliorate these changes; ignoring the \$1 billion job creation and stimulate programmes proposed by the Official Opposition; and failing to demonstrate the will and imagination to lead the Province today; and for all these reasons, this Government lacks the confidence of the House.

And a debate arising, after some time, the motion having been put was lost on the following division:—

Your Committee begs to report the following Bill with a certain amendment:—

Bill Pr39, An Act respecting the City of Windsor.

On motion by Mr. Wells,

Ordered, That, Private Members' Business not be taken up Thursday, December 16th.

On motion by Mr. Wells,

Ordered, That, Estimates of the Ministry of Agriculture and Food be referred to the Standing Committee on Resources Development for consideration tonight and tomorrow morning, Wednesday, December 15th, with the time taken in that Committee being subtracted from the remaining time allocation for those Estimates in the Committee of Supply.

Pursuant to Standing Order 81 (e), the Answers to Questions Nos. 405-430 were made a Return (*Sessional Paper No. 311*).

The Responses to Petitions (*Sessional Papers 282, 289 and 291*) were laid upon the Table (*See Hansard*).

Mr. Rae moved seconded by Mr. Philip, under Standing Order 63 (a)—This House condemns the Government for its failure to protect the interests of tenants and homeowners in the Province of Ontario; specifically for its failure to launch a full public inquiry into the sale, and subsequent resales, of nearly 11,000 units in Toronto owned by Cadillac-Fairview, despite evidence of massive profiteering and misleading information being given to a Minister of the Crown by private financial interests; for its imposition of a set of rent review guidelines which continue to impose on tenants the cost of speculation and intolerably high interest rates; for its failure to introduce legislation which embodies the principle that comprehensive and not just temporary, rent review and control should become a permanent part of the legal and economic landscape of the Province; for its failure to introduce a Speculation Tax on speculative transfer of land and housing; for its failure to relieve the burden of property taxes on middle and lower income homeowners; for its failure to allow homeowners to pay off without penalty closed mortgages at high interest rates, thus preventing thousands of Ontarians from taking advantage of lower rates; for its failure to introduce legislation which would require full and open disclosure of the identity of beneficial owners and shareholders of companies incorporated pursuant to the laws of Ontario and full disclosure of the ownership of land by such companies, and by companies and individuals resident outside Ontario; for its shortsighted and reactionary decision to conduct a fire sale of lands previously purchased and banked by the Government of Ontario; for its refusal to carry out an intensive programme of construction of new housing in the non-profit, co-operative and public field in order to provide affordable housing, and jobs for thousands of Ontario's people; and for its fundamental failure to recognize that shelter is too precious and important a human need to be left to the caprice of the speculator and the whim of a market place dominated by the principle of private profit and enrichment; and for all these reasons this Government now lacks the confidence of this House.

And a debate arising, after some time the motion having been put was lost on the following division:—

I appreciate his strong feeling in this regard and that the incident he referred to was a very serious one, which might well be found to be a contempt of the House. However, I find that the rule which says that a breach of privilege or contempt must be raised at the earliest possible moment is one that has been strictly enforced. In this regard I refer you to the ruling of Mr. Speaker Lamoureux in the House of Commons of Canada on June 9th, 1969. In consideration of this point I find the Motion unacceptable.

PRAYERS

2.00 O'CLOCK P.M.

Mr. McCague delivered to Mr. Speaker a message from the Honourable the Administrator signed by his own hand, and the said message was read by Mr. Speaker and is as follows:—

W. G. C. HOWLAND

The Administrator of the Government of the Province of Ontario transmits Supplementary Estimates of certain additional sums required for the services of the Province for the year ending 31st March 1983, and recommends them to the Legislative Assembly.

Toronto, 17th January, 1983.

(*Sessional Paper No. 3, Treasury and Economics, Community and Social Services*) (Tabled January 17th, 1983).

Ordered, That the message of the Administrator, together with the Supplementary Estimates accompanying the same, be referred to the Committee of Supply.

Mr. Speaker informed the House that the Clerk had received from the Commissioners of Estate Bills their favourable Report on Bill Pr34, An Act to revive Bargnesi Mines Limited. (*Referred to the Standing Committee on Regulations and Other Statutory Instruments*).

On motion by Mr. Wells,

Ordered, That, commencing Wednesday, January 19th, the House will not sit in the Chamber on Wednesdays unless otherwise ordered.

On motion by Mr. Wells,

Ordered, That, in the Standing Committee on Social Development, the Estimates of the Ministry of Citizenship and Culture be taken before the completion of the Estimates of the Ministry of Health.

On motion by Mr. Wells,

Ordered, That, Standing Order 72 (a) respecting notice of committee hearings be suspended for the consideration of Bill Pr27, An Act respecting the City of Ottawa; Bill Pr42, An Act respecting The Corporation of the City of Pembroke; Bill Pr48, An Act to revive Glanworth Investments Limited and Bill Pr51, An Act to revive Beth Sholom Synagogue, by the Standing Committee on Regulations and Other Statutory Instruments, on Thursday, January 20th, 1983.

Before the Orders of the Day, Mr. Rae moved, seconded by Mr. Renwick,

That, pursuant to Standing Order 34 (a), the ordinary business of the House be set aside to discuss a matter of urgent public importance, namely, the real concerns of thousands of Ontarians who are tenants in buildings formerly owned by Cadillac-Fairview and depositors and customers not only of Greymac Trust Company, Seaway Trust Company and Crown Trust Company, but other financial institutions; the failure of the Government to give a full and complete explanation of its actions, including the implications for legitimate savers and innocent investors in the three companies; the continuing mystery surrounding the Cadillac-Fairview apartment deal, and the role of Greymac, Seaway and Crown, and some of their principals, in that deal; the history of failures and problems concerning loan, mortgage, trust and finance companies in Ontario, such as Atlantic Acceptance, British Mortgage, York Trust, Re-Mor, Astra Trust, District Trust and Argosy; the obvious inadequacy of the *Loan and Trust Corporations Act*; the failure of the Government to regulate the industry in an orderly and competent way; the refusal of the Government to act on the problem of concentrated ownership in the financial institutions sector in Ontario; the ramifications of this entire issue on the tenants of Ontario whose buildings are used as trading chips for unknown interests; and the refusal of the Government to call a full inquiry into all aspects of this issue.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled as follows:—

I would like with the indulgence of the members to make some observations. I would point out that a Notice of Motion under Standing Order 34 (a) should, according to the rules and precedents, pertain to a specific event of recent occurrence which is of an emergent nature, requiring immediate attention and not readily debatable under some other procedure. I conclude that the specific event contemplated is the takeover by the Government of certain trust companies, and on that basis I am going to allow the question to go to the House as to whether or not the debate should proceed. I would like to point out at this time, however, that the additional subjects such as the various references are out of order in the Notice and will have the effect, and this is the important part, of precluding debate on those subjects on another occasion under this Standing Order. So I find the motion in order.

Mr. Speaker then put the question: "Shall the debate proceed?" to a vote. The House having agreed, the debate proceeded to conclusion.

The House, according to Order, resolved itself into the Committee of Supply,

Resolved, That, this Assembly, while acknowledging the world leadership role of the Ontario compulsory arbitration system, is cognizant of the need for continuing review to maintain that role and thus supports the initiation of a study, by a committee of this Legislature, to include, but not be limited to, the following: (i) the concept of a permanent panel of arbitrators vested with guaranteed tenure; and (ii) the establishment of a set of guidelines for arbitrators which would require that arbitration awards be confined to evidence adduced at an arbitration hearing and that such evidence must include an assessment of the economic conditions of the regions that will be affected by their rulings.

 THE EVENING SITTING

Supply was concurred in for the Ministry of Consumer and Commercial Relations (including Supplementaries).

 ONE HUNDRED AND FORTY-THIRD DAY

 FRIDAY, JANUARY 21ST, 1983

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:—

Yesterday, Mr. Renwick, the member for Riverdale, tabled a Petition pursuant to the Standing Order 33 petitioning that the statutory Annual Report of the Regis-

trar of Loan and Trust Corporations for the year 1979 be referred to the Standing Committee on Administration of Justice.

I have read Clause (b) of Standing Order 33 carefully and find that as this is an Annual Report to the Minister required by statute, the Standing Order requires the Minister to present it to the House before consideration of his Estimates.

I therefore find the Petition to be in order as far as and including the word "Justice" in the fifth line; that is, the Petition should simply read "Pursuant to Standing Order 33 we the undersigned petition to refer the statutory annual report to the Minister of Consumer and Commercial Relations of the Registrar of Loan and Trust Corporations for year 1979, being the latest such report presented to and laid before the House, to the Standing Committee on Administration of Justice". The remainder of the Petition as tabled is extraneous, not contemplated by the Standing Order and is therefore out of order. The Committee must decide what will be considered within the confines of the Report referred to it.

Mr. Shymko from the Standing Committee on Social Development reported the following Resolution:—

Resolved, That Supply in the following amounts and to defray the expenses of the Ministry of Citizenship and Culture be granted to Her Majesty for the fiscal year ending March 31st, 1983:—

MINISTRY OF CITIZENSHIP AND CULTURE:

Ministry Administration Program	\$ 7,980,600
Heritage Conservation Program	21,473,400
Arts Support Program	62,399,800
Citizenship and Multicultural Support Program	9,962,400
libraries and Community Information Program	30,227,700
Ministry Capital Support Program	89,701,100

Supply was concurred in for the Provincial Secretariat for Social Development.

The House then adjourned at 1.00 p.m.

Sessional Papers:—

The following document was laid upon the Table:—

Petition pursuant to Standing Order 33 (b) requesting the referral of the statutory Annual Report of the Registrar of Loan and Trust Corporations for the year ended December 31st, 1979, to the Standing Committee on Administration of Justice (*No. 346*) (Tabled January 21st, 1983).

ONE HUNDRED AND FORTY-FOURTH DAY

MONDAY, JANUARY 24TH, 1983

PRAYERS

2.00 O'CLOCK P.M.

On motion by Mr. Wells,

Ordered, That, the Order for Second Reading of Bill 139, An Act to revise the Mechanics' Lien Act, be discharged and the Bill withdrawn.

The following Bills were introduced and read the first time:—

Bill 215, An Act respecting Crown Trust Company. *Mr. Elgie.*

Bill 216, An Act to revise the Mechanics' Lien Act. *Mr. McMurtry.*

Before the Orders of the Day, Mr. Riddell moved, seconded by Mr. Boudria,

That, Pursuant to Standing Order 34 (a), the ordinary business of the House be set aside to discuss a matter of urgent public importance, namely, the unfolding emotional and psychological tragedy to be wrought upon a large number of our citizens by the closings of the six institutions for the developmentally handicapped: St. Lawrence Regional Centre, Brockville, 1983-84; Bluewater Centre, Goderich, 1983-84; St. Thomas Adult Rehabilitation and Training Centre, 1984-85; Pine Ridge, Aurora, 1984-85; D'Arcy Place, Cobourg, 1985-86; and Durham Regional Centre, Whitby, 1986-87, the lack of public input into this policy, the gross under-estimation of the services required in the community, the failure of the Government to answer specific concerns of parents, staff members, volunteers, and the municipalities affected and assure them that the proper services will be in place before an institution is closed—and for these reasons and others that a moratorium be placed on the Minister's ill-conceived plan to close these facilities until a proper policy is adopted which recognizes the vital role played by the smaller facilities and community-based alternatives as opposed to large institutions in the care for the developmentally handicapped.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled as follows:—

I have no doubt that the subject matter of this Motion will be considered of public importance to many people in the Province. However, I must point out that this program was announced by the Minister in October, 1982. Since that time, it has been discussed on numerous occasions, through October, November, December, and indeed as recently as last week when the Estimates of the Ministry were concurred

in. There will undoubtedly be many more opportunities as this program, as I understand it, is to be phased in over a five year period.

For these reasons, I cannot consider that the Motion meets the requirement of urgency as required by Standing Order 34 and I must, therefore, rule the Motion out of order.

Mr. Speaker's ruling was sustained on the following division:—

ONE HUNDRED AND FIFTIETH DAY

TUESDAY, FEBRUARY 1ST, 1983

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Thursday last, the honourable member for Renfrew North rose on a question of privilege concerning meetings between the Minister of Consumer and Commercial Relations, his staff and the editorial staff of *The Toronto Star* and *The Globe and Mail* at which the member alleges the Minister gave information concerning Crown Trust Company, Seaway Trust Company and Greymac Trust Company which had not been given to members of the Assembly.

Since Thursday, I have given very careful consideration to the complex aspects of Parliamentary privilege as it relates to this matter and have had an opportunity to review the rulings of a number of Speakers of the House of Commons of Canada on this subject. My ruling deals only with the technical and procedural aspects of the matter and not in any way with the merits of the situation or the allegations; that is, the question which I must decide is not whether or not there was ministerial impropriety but whether the situation or allegations should in fact be considered a matter of privilege.

Mr. Speaker Lamoureux dealt with this matter in a ruling on October 30th, 1969. In his ruling he stated:

“The question has often been raised whether parliamentary privilege imposes on ministers an obligation to deliver communications to the public through the House of Commons or to make these announcements or statements in the House rather than outside the Chamber. The question has been asked whether hon. members are entitled, as part of their parliamentary privilege, to receive such information ahead of the general public. I can find no precedent to justify this suggestion. . . . There may be, in such circumstances, a question of propriety or a question of courtesy. There may be a grievance. But in my view there cannot be a question of privilege.”

Mr. Lamoureux's ruling is, in my opinion, the definitive one, but there are a number of others to the same effect by Speakers Michener, Jerome and Sauvé, among others, as well as Speakers in other jurisdictions.

In finding that there does not exist a *prima facie* case of privilege, I am not preventing further discussion by the House of the matters in issue. The effect is to refuse precedence to this discussion but not to prevent it. No barrier is raised to the presentation of this matter under different circumstances on another occasion.

The honourable member for Riverdale supported the member for Renfrew North's remarks but dealt mainly with questions concerning the proceedings in the Standing Committee on Administration of Justice. On a number of occasions I have ruled that procedural difficulties which arise in standing and select committees ought to be settled in the committee and not in the House. It is clearly established that matters alleged to have arisen in committee, but not reported by the committee, may not be brought to the attention of the House as a question of privilege. There being no report from the Justice Committee, the matters which occurred in committee may not be raised as a question of privilege in the House.

Finally, the honourable member for Renfrew North rose on another question of privilege on Friday last concerning the release of the Report of the Hospital for Sick Children Review Committee. As I stated before, although it is a courtesy to the Assembly for a Minister to release information in the Assembly before releasing it to the press or the public, it is not a breach of the privileges or rules of the Assembly if this does not happen. In this case, the Minister of Health stated his concern that the contents of the Report became public before its release and denied making the information concerning the Report available to anyone other than those at the lock-up and certain ministers and promised a thorough investigation to determine how the leak occurred. The Assembly must accept the Minister's word on that account.

Mr. Harris from the Standing Committee on Resources Development reported the following Resolution:—

Resolved, That Supply in the following amounts and to defray the expenses of the Ministry of Labour be granted to Her Majesty for the fiscal year ending March 31st, 1983:—

MINISTRY OF LABOUR:

On motion by Mr. Wells,

Ordered, That, notwithstanding Standing Order 64, Government business will be taken up on Thursday, February 17th.

The Order of the Day for resuming the Adjourned Debate on the amendment to the amendment to the motion that this House approves in general the Budgetary policy of the Government, having been read,

The Debate was resumed, and after some time,

The amendment to the amendment to the motion as follows:—

That the amendment to the motion be amended by adding thereto,

“This House rejects the massive shift in the burden of taxation to those least able to afford it. Specifically, this House rejects the elimination of exemptions from sales tax for many essential items and the massive increase in OHIP premiums; further this House regrets the absence in the Conservative budget of,

- (i) adequate programs to assist the 32,500 homeowners facing the loss of their homes because of Liberal high interest rates

- (ii) adequate programs to assist tenants whose rents are increasing substantially because of increased finance charges to landlords as a result of Liberal high interest rates
- (iii) adequate programs to assist the thousands of small businesses in this Province that are suffering because of Liberal high interest rates
- (iv) adequate programs to help farmers in this Province who are also suffering because of Liberal high interest rates

Further, this House rejects the Liberal and Conservative philosophy of only helping the so-called “winners” in our society, thereby ignoring the more than 500,000 people in this province living in poverty, namely, those on Family Benefits, disability pensions, Workmen’s Compensation benefits, and single pensioners receiving GAINS, and this House regrets the absence of any programs to create adequate numbers of short-term jobs or adequate programs to correct the structural problems within the economy to enable the creation of long-term jobs.

Further, this House regrets the fact that the government refuses to introduce legislation to improve the economic status of women, namely,

- (i) Equal pay for work of equal value legislation
- (ii) Affirmative Action legislation

and this House regrets that this government has not taken steps to provide for universal access to quality child care.

Finally, this House rejects the additional cost imposed on hospitals, colleges, universities, municipalities and school boards, which will, in effect, eliminate the additional provincial grants announced earlier this year, and will also result in a decrease in services and increased property taxes.

For these reasons, the government no longer enjoys the confidence of this House”.

The amendment to the motion as follows:—

That, the motion be amended by deleting all the words following “that”, and adding thereto the following:—

“This House deeply regrets the 1982 budget fails to recognize the most serious and fundamental problems facing Ontario today and condemns the government for:—

Ignoring the plight of the many homeowners whose mortgages come up for renewal this year, by refusing to introduce specific interest rate relief programs;

Ignoring the plight of the many small businessmen who are operating at very near or below the breakeven point, by refusing to introduce interest rate relief programs;

Ignoring the plight of the farmers who face modern day record numbers of bankruptcies, by refusing to introduce specific interest rate relief programs;

Ignoring the plight of the unemployed, by refusing to introduce serious long-term job creation programs;

Punishing the citizens of this province who are at the lower end of the income scale, the poor, the elderly on fixed incomes, by removing a large number of sales tax exemptions and thereby forcing these individuals more than any other class to pay a larger portion of their incomes to this government;

Further punishing low income earners by increasing OHIP premiums.

Jeopardizing the operations of the municipalities and school boards of this province, by removing their exemption from various sales taxes and increasing their OHIP group plan costs, thereby placing them in a deficit position or forcing them to cut back on programs;

Threatening the quality of Ontario's hospitals, universities, colleges and other institutions by warning them that this government will continue to underfund their basic requirements;

Refusing to recognize Ontario's industrial decline and the need for a definitive industrial strategy as well as massive retraining programs for Ontario workers;

Refusing to recognize the impact on the provincial deficit of such wasteful and ill-advised expenditures such as the purchase of a one quarter interest in Suncor, the assemblage of land banks, and the extravagance of a luxury jet;

Producing a budget which is unfocused, without direction, lacking long-term vision, regressive in its tax impact and contradictory to what had hitherto been announced government policies;

Therefore, this government lacks the confidence of the House".

PRAYERS

2.00 O'CLOCK P.M.

Mr. Peterson moved, seconded by Mr. Riddell, that,

Pursuant to Standing Order 34(a), the ordinary business of the House be set aside in order to debate a matter of urgent public importance, namely:—

the rapid increase in the number of farm bankruptcies and foreclosures resulting from poor commodity prices, difficulties in refinancing, continuing high interest rates, and lower property values;

the resulting low returns for most commodities causing financial difficulties for many Ontario producers;

producers who cannot show a positive cash flow for the next season, who will therefore have difficulty obtaining credit for next year's planting;

the lack of any immediate and long term financial solutions to these problems on the part of the Ontario government;

the current crisis in the Ontario farming community, as many farmers are facing imminent financial ruin and the loss of their livelihood.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled that the motion was in order and put the question: "Shall the debate proceed?" to a vote of the House, which question was decided in the negative on the following division:—

The member for Renfrew North (Mr. Conway) rose on a point of order, namely that the motion was out of order, and after some time,

THE EVENING SITTING

8.00 O'CLOCK P.M.

The arguments on the point of order continued, and after hearing members from each party Mr. Speaker ruled as follows:

The point of order was raised by the member for Renfrew North (Mr. Conway), and was joined in by the members for York South (Mr. Rae); Brant-Oxford-Norfolk (Mr. Nixon); the member for Riverdale (Mr. Renwick); the government House leader (Mr. Wells); the members for Rainy River (Mr. Reid); for Sudbury East (Mr. Martel); for St. Catharines (Mr. Bradley); and for Scarborough West (Mr. Johnston).

I might say, as a general observation, members went far beyond the point of order in expressing various points of view in speaking in terms of the legislation rather than the point of order. They referred, in many ways, to what they perceived as my responsibilities.

I think it is fair to say that the only matter I can deal with, in fact an empowered to deal with, is whether or not the motion as presented is in order. That was the objection which was raised originally by the member for Renfrew North.

I have listened, quite obviously with a great deal of attention, to the arguments for and against the proposition that the motion was not in order. I think it is fair to say that the arguments in support of the proposition that it is out of order amount to this: as our standing orders do not specifically make provision for such a procedure it means that it cannot be properly entertained. I think that was the message that came across.

The point was made by the member for Riverdale and I think he effectively refuted this argument in his reference to Erskine May's *Parliamentary Practice*. One of the citations which he used is at the top of page 454 of the 19th edition, the most recent edition, of *May's* text in which it has stated, "The allocation of limited amounts of time to the stages of bills and occasionally other kinds of business forms no part of the general procedure of the House but is applied in each case to a particular bill, or several bills jointly, or other specified business by a special order". It is such a special order, indeed, that this motion seeks. I have carefully examined the citations in *May* during the dinner hour and I find that, as the honourable member has pointed out, not only was there no precedent in the British standing orders for this procedure at the time it was first used, but the first standing order relevant to the procedure, to the best information I could find, was passed in 1967. It was the same as the present rule of the House of Commons of Canada. However, after it was used only three times, in 1971 it was redrafted to the present form as we know it today, and referred to as Standing Order 44.

Even today, Standing Order 44 does not provide for this procedure, it simply curtails the debate on such a motion. Standing Order 43 makes provision for the business committee to divide the allotted time and how it, in fact, is to be allocated, if this has not been done by the motion itself. In other words, the standing orders recognize the existence of the procedure and lay down the mechanics for its application.

Another point that was made was the contention that the Government Notice of Motion No. 10 last December was the first time that an allocation motion had been moved in this House and this point was made by various members. It was first raised by the member for Renfrew North and then again by the member for York South and others. While it is true this was that the first occasion on which such an allocation of time was moved for the procedures in the House, there have been many occasions on which the House by its order has imposed time limits on considerations of Bills, and other business in standing and select committees, and I see no difference in principle between the two.

I refer again to the submission of the member for Riverdale in which he set out three conditions from *May's* text—this was referred to as well by other members—which he alleged I must direct my mind in deciding whether or not this is in order. With respect, I would suggest that these three conditions are conditions which the Government must address its mind to in deciding whether or not to make use of this procedure, not the Speaker.

My responsibility, as I said before, is simply to decide whether or not there is anything in our standing orders or precedents to preclude such a motion, and I can find no such provision. It is a recognized Parliamentary procedure in the United

Kingdom, and indeed our own House of Commons, as well as most other Parliamentary jurisdictions. It is a motion which the minister has the right to move, upon proper notice, and I am unable to find any basis on which it should be treated in any different way than any other substantive motion.

I find the point of order raised by the member for Renfrew North is out of order.

On challenge Mr. Speaker's ruling was sustained on the following division:—

2.00 O'CLOCK P.M.

Mr. Eves from the Standing Committee on Regulations and Other Statutory Instruments presented the Committee's First Report 1983. (*Sessional Paper No. 366*) (Tabled February 16th, 1983).

Mr. Stokes moved, seconded by Mr. Rae, that pursuant to Standing Order 34(a), the normal business of the House be set aside to debate a matter of urgent public importance, namely:

(1) The announced closure of the American Can mill at Marathon and the consequent loss of over 800 jobs in the mill and in woodlands that will result in severe hardship and a loss of a valuable resource.

(2) The reluctance of the government to consider all alternatives, including finding a Canadian purchaser, or taking over the mill themselves, or allowing the workers to participate in the Buy Back programme.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled that the motion was in order and put the question: "Shall the debate proceed?" to a vote of the House, which question was decided in the negative on the following division:—

PRAYERS

2.00 O'CLOCK P.M.

Mr. Peterson moved, seconded by Mr. Conway, that:—

Pursuant to Standing Order 34 (a), I move that the ordinary business of the House be set aside in order to debate a matter of urgent public importance, namely:—

the continuing confusion and lack of information following the takeover of control of Greymac Trust and Seaway Trust by the Ontario Government, and in particular:—

the lack of any indication concerning the ultimate ownership and disposition of some 20,000 apartment units previously managed by Kilderkin Investments Ltd. and Maysfield Property Management Inc., to the great concern of tens of thousands of tenants;

the lack of any indication concerning the ultimate ownership and disposition of Greymac Trust and Seaway Trust, to the great concern of tens of thousands of depositors and other creditors;

the difficulties and anxieties experienced by guaranteed investment certificate and debenture holders of Greymac Trust and Seaway Trust, some of whom are finding that even after three weeks the chartered banks are not clearing the interest payment cheques arising from their investments;

the lack of any accounting on the part of the Ministry of Consumer and Commercial Relations for the series of regulatory and legal actions which it has initiated over the last six weeks;

the lack of any explanation for the serious lapse in the regulatory responsibilities on the part of the Ministry of Consumer and Commercial Relations extending over the last two years, which has resulted in the current crisis;

the refusal of the Ontario Government to establish a royal commission to examine all aspects of this most recent breakdown in the exercise of the regulatory duties on the part of the Ministry of Consumer and Commercial Relations.

Mr. Speaker ruled that as the subject matter of the motion had already been discussed at this Session under Standing Order 34(a), it was clearly out of order under Standing Order 34(c)(iv).

Mr. Speaker's ruling was sustained on the following division:—

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

“The Honourable the Administrator doth thank Her Majesty’s dutiful and loyal subjects, accept their benevolence and assent to this Bill in Her Majesty’s name”.

The Honourable the Administrator was then pleased to deliver the following gracious speech:—

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

I am pleased to address you on this occasion, and to review some of the activities of the Second Session of the Thirty-Second Parliament of Ontario.

The major issues for Ontario, as for all other Canadian jurisdictions over the past year, have been centered on the economy. The priorities of reducing inflation and expanding employment opportunities for our citizens have dominated our national and provincial public agenda. Accordingly, the emphasis in the Treasurer's May budget was on creating jobs and restoring a climate of confidence in the Ontario economy.

The \$171 million job creation program which the Government announced at that time, and which had been expected to create some 31,000 jobs in the 1982/83 fiscal year, has exceeded its target to help those hardest hit by unemployment. The program is now expected to cost \$176 million and to date has created some 40,290 jobs.

In November 1982, the Government announced a new \$150 million job creation program which will create nearly 38,000 new jobs in Ontario and will ease the burden of unemployment over the Winter and Spring of 1983.

To assist the recipients of General Welfare Assistance, Family Benefits and GAINS, who are among the most severely affected by the current economic downturn, a special Recession Package of \$52 million was introduced last Fall. For example, benefits for single 60 - 64 year old women were increased by 39.3 per cent over their November 1981 level.

The 1982 budget also contained measures that demonstrated the Province's commitment to public sector restraint and fiscal responsibility. Salary increases for top Civil Servants and Members of the Legislature were to be held to six per cent. With respect to direct provincial programs, the Government announced a thorough-going analysis for trimming expenditures and enhancing efficiency. In these and similar ways, the budget prepared the ground for the more comprehensive public sector Wage and Price Restraint Program that has been embodied in Bill 179.

While economic matters dominated this Session of our Legislature, progress was also achieved in a number of other important areas.

The Ontario Human Rights Code which was proclaimed in June 1982, now protects the rights of disabled people in all areas of daily life, including employment, education and housing, as well as underlines our continued commitment to protecting individuals against discrimination.

An Assistive Devices Program which began on July 1, 1982, was designed to financially assist young people 18 years of age and under and their families, with the cost of medically necessary equipment and supplies. In the first six months alone, just under 5,000 families have been assisted.

My Government has taken a major step to protect our school children and their families from the spread of dangerous diseases by the introduction of the Immunization of School Pupils Act. With further emphasis on the protection and safety of our children, my Government also introduced, on November 1, 1982, the first phase of the two-phase Child Restraint Legislation.

We are also pleased that during this Session we completed our review of Planning Legislation in Ontario. The new Planning Act introduces a number of signifi-

cant changes to the planning process and we are confident that with this new Act, the Province of Ontario will have legislation and a resulting planning system that is second to none.

Honourable Members, it is evident from this brief review of your activities, that your efforts in meeting the demands under such difficult economic pressures have been considerable and I commend your sense of duty and perseverance.

Au nom de notre Souveraine, je vous remercie.
In our Sovereign's name, I thank you.

Je declare cette session prorogée.
I now declare this Session prorogued.

The Government House Leader then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Administrator that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
