**INTRODUCTION OF VISITORS**

Pursuant to Standing Order 36, visitors were introduced.

The Speaker addressed the House as follows:-

Yesterday, the Member for Oshawa rose on a point of order at the conclusion of Question Period to take issue with a question asked of the Minister of Energy and Infrastructure respecting GO Transit. The Member took the position that the Minister's answer addressed the issue in a way that might more properly have been done as a ministerial statement.

The minister addressed the point of order by noting that the question and response related to a joint announcement that had already been made earlier yesterday by the Premier and the Prime Minister.

I undertook to review the matter and have now done so. The Member for Oshawa is correct in his understanding that Question Period should not be used as a forum for the announcement of new government policy or initiatives. This has arisen many times before and Speakers have consistently taken this view.

I would not categorize yesterday's occurrence as a blatant transgression of Speaker's directions in this regard, it being more right on the line, but I will say to the minister that it is less about the timing of the announcement outside the House yesterday, and more about the fact that the announcement did take place outside the House.

The Speaker of course cannot compel that government announcements first be made in the House but many Speakers before have noted that it is courteous, where possible, to do so. Having said that, if the matter previously announced is subsequently to be brought to the attention of the House, then a ministerial statement is usually the proper vehicle to do so. Fairness to all sides is thereby observed since the Standing Orders permit the Opposition to reply to such statements.
