13. Mr. O’Toole – That, in the opinion of this House, the Province of Ontario, through the Ministry of the Environment and the Ministry of Natural Resources shall establish regulations to govern the quality and movement of commercial fill to address the creation of soil classifications, testing requirements, and a permitting and approval process for commercial fill operations. - Adequate funding of First Nations land use planning.
- Implementation of provisions that allow for the creation of a joint body that would be composed of equal numbers of First Nations members and Government of Ontario officials. This joint body would advise on the development, implementation, and coordination of land use planning in the Far North as well as perform any other advisory function to which the First Nations and Minister agree.
- Serious consideration of innovations similar to those included in Quebec’s Plan du Nord such as a coordinating body for public investments in the Far North and an effective resource revenue sharing model which provides for the sharing of revenues between First Nations and the Ontario government on all resource related projects in the Far North; and

Filed April 17, 2012.

20. Mr. O’Toole – That, in the opinion of this House, proposed Building Code amendments regarding wood frame buildings should give due consideration to input from all stakeholders in the construction industry, including Ontario’s cement and steel manufacturers; and further that, in selecting construction materials, the principle of allowing experts to choose the right material for the right project shall prevail; and further ensure that in all cases/applications, public safety must be the highest priority.
