The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On September 22, the Member for Lanark-Frontenac-Lennox and Addington (Mr. Hillier) provided written notice of his intention to raise a point of privilege with respect to Bill 2, An Act to amend various statutes with respect to election matters. I have also reviewed a written submission from the NDP Chief Whip (Mr. Vanthof) that is broadly supportive of Mr. Hillier's submission. I am now prepared to rule on this matter without hearing further from the member, as Standing Order 21(d) permits me to do.

The member states that the government has indicated that it intends to bring forward certain amendments to the bill when the bill is eventually at that stage in committee. The member alleges that the anticipated amendments are of such a nature, and of such significance, that he is unable to meaningfully participate in the current debate since the current version of the bill is incomplete as a result. The member therefore says he is unable to fulfill his duties and functions as a member, which is a breach of privilege.

I will note that when this bill was last debated, the Member for Lanark-Frontenac-Lennox and Addington raised a point of order to challenge the orderliness of Bill 2 on substantially the same grounds as are raised in his point of privilege. After considering the point of order last Thursday, the Deputy Speaker found that Bill 2 was in order and that the debate on the bill was properly before the House.

I will also note that, while the member alleges that he is unable to perform his parliamentary duties by debating Bill 2, in fact he did participate in the debate last Thursday and delivered a nearly-one hour lead off speech. It is difficult to reconcile the member's plea that he has been prevented from participating in the debate when quite the opposite is the actual case.

I understand the nuance in the member's argument with respect to the fact that certain possible amendments to the bill were not available for him to substantively address during his speech, but that fact did not prevent the member from being able to stand in the House and participate in the debate.

Further, the possibility that amendments to a bill will be put forward in a committee exists with any bill; there is nothing about the legislative process on Bill 2 that is different from any other public bill. I will finally say that the member's fear that he will be deprived of meaningful participation on Bill 2 ought to be tempered by the realization that he - and all members - are protected from arbitrarily having amendments sprung on them that are beyond the scope of the bill as it was agreed to in principle at second reading. Admissible amendments must fall within the umbrella of the bill as agreed to, to that point.

For the various reasons just mentioned, I cannot find that the member has made out a *prima facie* case of privilege.
